1908.

WEDNESDAY, SEPT. 16, - } Opening of Session and Reception of Candidates of Admission. Examination for conditioned and THURSDAY, SEPT. 17, unexamined students in Latin and Greek. Examination for conditioned and FRIDAY, SEPT. 18, unexamined students in English, History and Science. Examination for conditioned and SATURDAY, SEPT. 19, unexamined students in Mathematics. TUESDAY, DEC. 22, - Commencement of Christmas Vacation. 1904. TUESDAY, JAN. 5, Resumption of College Exercises. MONDAY, FEB. 8. Second Terms Begins. MONLAY, FEB. 22, Washington's Birthday. FRIDAY, APRIL 1, Good Friday. MONDAY, APRIL 4, Easter Monday. WEDNESDAY, JUNE 1, Entrance Examination—Latin and Greek. THURSDAY, JUNE 2, -English, History and Science. FRIDAY, JUNE 3, do -Mathematics. THURSDAY, JUNE 9. Junior Class Oratorical Contest. FRIDAY, JUNE 10, Preparatory School Commencement. . Farewell Ball to Graduating Class. FRIDAY, JUNE 10. SUNDAY, JUNE 12, (morning) Baccalaureate Sermon. SUNDAY, JUNE 12, (evening) . Address before Y. M. C. A. Monday, June 13, . Anniversary of the Philokalian Society. Tuesday, June 14, · Anniversary of the Philomathean Society. WEDNESDAY, JUNE 15, . . Commencement Day. Address before the Alumni.

Organization.

The charter of St. John's College was granted in 1784, and the institution opened in 1789. But under another form and name it had been doing its work during nearly a hundred previous years, and is, therefore, one of the oldest Colleges in the country. At the City of St. Mary's, then the capital of Maryland, as early as 1671, the Upper House of the General Assrmbly passed an Act "for founding and erecting a school or college for the education of youth in learning and virtue." This was followed by the Act of 1696, establishing KING WILLIAM'S SCHOOL, which was opened 1701. Here were educated some of the most distinguished sons of Maryland—physicians, lawyers, statesmen, clergymen -and pre-eminent among the brilliant number was William Pinkney, whose learning and eloquence have a national fame. KING WILLIAM'S SCHOOL was, in 1784, merged into St. John's College, which has thus been connected with the State of Marvland from the early times of colonial history. Francis Scott Key, author of our favorite national ode, and Reverdy Johnson. distinguished as a lawyer and a statesman, are among the alumni, and many others, scarcely less eminent, could be mentioned.

LOCATION AND ACCESS.

The College is pleasantly situated at Annapolis, on the banks of the Severn River, a few miles from the Chesapeake Bay. Nothing in the country surpasses the picturesque beauty of its situation. The college green is spacious, amply shaded, and most attractive to the eye, while the campus, in the rear, is admirably adapted for sports. Bordering the grounds, "College Creek," a branch of the Severn, affords every facility for swimming and boating. Indeed, the situation combines every advantage desirable for a college. The buildings are large, commodious, and well adapted for purposes of both classical and technical education, and could accommodate two hundred students.

Annapolis has railroad communication with Baltimore and Washington, several times a day, daily steamboat connection with the former city, and telegraphic connection with every part of the country.

BOARD OF VISITORS AND GOVERNORS.

PRESIDENT

(Under the Charter elected annually.)

HIS EXCELLENCY, J. WALTER SMITH,

The Governor of Maryland,

Annapolis, Md., 1900.

PRESIDENT

(Pro-tem.)

Hon. JAMES REVELL, Annapolis, Md.

SECRETARY

L. DORSEY GASSAWAY, Esq.,

Annapolis, Md., 1891,

(Ex-Officio.)

Hon. JOHN B. HUBNER,
President of the Senate,
Annapolis, Md.

Hon. NOBLE L. MITCHELL, Speaker of the House of Delegates, Baltimore, Md.

Hon. JAMES McSHERRY, Chief Judge Court of Appeals, Frederick, Md.

Hon. SAMUEL D. SCHMUCKER,
Judge Court of Appeals,
Baltimore, Md.

Hon. DAVID FOWLER,
Judge Court of Appeals,
Towson, Md.

(Ex-Officio.)

Hon. JOHN P. BRISCOE, Judge Court of Appeals, Prince Frederick, Md.

Hon. HENRY PAGE, Judge Court of Appeals, Princess Anne, Md.

Hon. I. THOMAS JONES, Judge Court of Appeals, Elkridge, Md.

Hon. A. HUNTER BOYD, Judge Court of Appeals, Cumberland, Md.

Hon. JAMES A. PEARCE, Judge Court of Appeals, Chestertown, Md.

BOARD OF VISITORS AND GOVERNORS.

General Information.

GENERAL REGULATIONS.

----:0:----

A copy of the general rules of the College can be obtained upon application at the President's office.

All students are required to be present promptly on the opening day of the session, and no student will be permitted to leave the College while the College exercises are progressing, except in cases of urgent necessity, and at the written request of his parent or guardian.

Each member of the Senior, Junior and Sophomore classes is allowed, in each term, as many absences from recitation in any study pursued by him in the class of which he is a member, as there are prescribed recitations per week in that study; and for each absence above the number thus allowed, he will be given zero as a recitation mark.

Each student of the Freshman Class is allowed in each term three absences from recitation, in each study in which four recitations per week are prescribed; two absences in each study in which three recitations are prescribed; and one absence in each study in which two recitations are prescribed.

Excepting these cuts he will be marked zero for each and every absence whatever from recitations, and shall also receive 10 demerits if the excuse for the absence is not satisfactory. In his case all absences owing to prolonged illness may be considered by the Faculty, upon the recommendation of the President, or upon the certificate of a recognized physician.

COURSES OF STUDY.

The Collegiate Department embraces four groups of studies for undergraduates, each occupying four years, viz:

1. The Classical and the Latin-Scientific, both of which lead to the degree of Bachelor of Arts. 2. The Scientific and Mechanical Engineering course, which lead to the degree of Bachelor of Science. The scheme of study in the different groups, arranged for the sake of comparison, in parallel columns, will be found on pages 31 to 33. In order to obtain one of the above-mentioned degrees, a student must have completed satisfactorily the course as herein laid down, but for such as may not be studying for a degree, select courses will be arranged according to the option of the parents or guardians, subject to the approval of the Faculty. On the successful completion of such special courses, certificates will be given.

Post-graduate courses are arranged for those graduates who wish to become candidates for the Master's Degree.

REMARKS ON COURSES.

It is to be seen that in the classical course, the study of Mathematics is discontinued after the first term of the Junior year, at which point the study of the sciences begins. The classical student will thus devote some time to scientific study, the particular branches being elective. Also, the student of the Latin Scientific Course, taking no Greek at all, and discontinuing Mathematics at the end of the Junior year, enjoys a fuller course of English, and begins the study of science earlier than the classical student. In the Scientific and Mechanical Engineering Course, in which neither Latin nor Greek is required, four years are given to Zoology, Botany, Physics, Chemistry, and to Mathematics. Also, in the Scientific Course, four years are given to the study of English. A full course in both French and German is required for every degree.

No student will be permitted to discontinue any study, except at the close of the term, and then only at the *written* request of his parent or guardian.

Students pursuing a select course may enter any class for which they are fitted, the number of their studies being subject to the direction of the Faculty.

REQUIREMENTS FOR ADMISSION FOR SESSION 1903-04, WILL BE AS FOLLOWS:

Mathematics.—(2). Arithmetic, including the Metric System. (2). Algebra, General Principles, Equations, Ratio and Proportion, Series. (3). Plane Geometry, 4 books.

Text-books recommended for use in preparation, are Went-worth and Hill's High School Arithmetic and Wenthworth's Complete Algebra and Plane Geometry.

English.—English Grammar and Composition, with special reference to the grammatical structure of simple and compound sentences, punctation, spelling, &c.

The candidate will be required to write a paragraph or two, on each of several topics, to be chosen by him from a considerable number, perhaps ten or fifteen, set before him in the examination paper. This part of the examination will call for only a general knowledge of the substance of the works. As additional evidence of preparation the candidate may present an exercise book, properly certified by his instructor, containing composition or other written work.

The books set for this part of the examination will be:

1903, 1904 and 1905.—Shakespeare's The Merchant of Venice and Julius Cæsar; The Sir Roger de Coverly Papers in The Spectator; Goldsmith's The Vicar of Wakefield; Coleridge's The Ancient Mariner; Scott's Ivanhoe; Carlyle's Essay on Burns; Tennyson's The Princess; Lowell's The Vision of Sir Launfal; George Eliot's Silas Marner.

II. STUDY AND PRACTICE.—This part of the examination pre-supposes a more careful study of each of the works named below. The examination will be upon subject-matter, form and structure, and will also test the candidate's ability to express his knowledge with clearness and accuracy. The books set for this part of the examination will be:—

1903, 1904 and 1905.—Shakespeare's Macbeth; Milton's Lycidas, Comus, L'Allegro, and Il Penseroso; Burke's Speech on Conciliation with America; Macaulay's Essays on Milton and Addison.

CIRCULAR OF ST. JOHN'S COLLEGE.

21

History.—The outlines of the History of England and the United States, or of the History of Greece and Rome, and the outlines of Geography.

(1) United States History. (2) English History. Outlines of English History from earliest times. In United States History, the texts of Barnes or Montgomery, and in English History, that of Montgomery are recommended for preparation.

Latin.—Grammar, including Prosody; Cæsar, first four books of the Gallic War; (or Arrowsmith and Whicher's Latin Reader); Virgil's Aeneid, six books; six Orations of Cicero, [the four Catalinian, the pro Manilia Lege, the pro Archia.] Latin Prose Composition; the translation of easy passages at sight from Latin into English.

The grammars of Allen and Greenough, Bennett, or Harkness, are recommended for preparation. Arnold's Latin Prose Composition, lessons 1-23, or Jones' Latin Prose Composition, lessons 1-20, is recommended for preparation.

Greek.—Grammar; a thorough knowledge of declensions and conjugation of regular verbs.

Four Books of Xenophon's Anabasis. For one book of Anabasis, one book of Homer may be substituted.

(Gleason and Atherton's Reader recommended for preparatory study.

Natural Science.—A general knowledge of the elements of some natural science, (Physics, Chemistry, Zoology or Botany,) such as may be gained from a course of one year of five recitations per week, or the elements of one Modern Language may be substituted for Greek, if desired.

The College Faculty will not make itself responsible for providing instruction in subjects in which candidates for matriculation may be conditioned, except in Latin and Greek, and in these branches only in so far as the candidate shows diligence in his work, and a proper appreciation of the instruction provided.

EXAMINATIONS FOR ADMISSION.

The regular examinations for admisssion are given according to the following schedule. Under special circumstances candi-

dates may be examined at other times, but it is requested that they present themselves on the days appointed.

1903.

Thursday, Sept. 17th, 9.00 A. M., Latin; 2.30 P. M., Greek. Friday, "18th, 9.00 A. M., English and History; 2.30 P. M., Science.

Saturday, "19th, 9.00 A. M., Mathematics.

IQ04.

Wednesday, June 1st, 9.00 A. M., Latin; 2.30 P. M., Greek.

Thursday, "2d, 9.00 A. M., English and History; 2.30 P. M.,
Science.

Friday, '. 3rd, 9.00 A. M., Mathematics.

RE-EXAMINATIONS AND EXAMINATIONS OF CONDITIONED STUDENTS.

Students having examinations to pass or conditions to make up will present themselves for examination according to the schedule of examinations for admission. Those failing to report on the appointed days will be held for their conditions and will not be allowed to proceed with their studies in a higher class.

Candidates for admission to any higher class must be examined in all previous studies of the class they enter.

The course of study in the Classics and Mathematics in the Preparatory School classes has been arranged in accordance with the requirements of the examination for matriculation in the Johns Hopkins University.

TERMS AND VACATIONS.

The Annual Commencement of the College takes place on the third Wednesday in June.

The collegiate year begins on the third Wednesday in September and ends on the third Wednesday in June. The year is divided into two equal terms.

The regular vacations extend from the third Wednesday in June to the third Wednesday in September, and from the 23rd of December to the first Monday in January, both inclusive. The 22nd of February, Good Friday, Easter Monday and Decoration Day are holidays, as is also the day of Public Thanksgiving, appointed by the Governor of Maryland, or by the President of the United States.

DEGREES.

The following academic degrees are conferred by the College:

1. The degree of Bachelor of Arts, conferred after the satisfactory completion of the Classical course.

2. The degree of Bachelor of Arts, conferred in like manner upon graduates in the Latin Scientific course.

3. The degree of *Bachelor of Science*, upon graduates in the Scientific course and upon graduates in the course of Mechanical Engineering.

4. The degree of *Master of Arts*, conferred after the completion of the Post-Graduate course, and upon the recommendation of the Faculty.

Candidates for this degree are required to select at least two of the departments of study specified in this catalogue, and under the direction of the professors of these departments to pursue their studies for the two years of the Post-Graduate course, submitting to them such essays, or undergoing such oral or written examination, as may be required to test their qualifications for this degree.

Any graduate of the College who shall have been admitted a member of one of the learned professions, or who shall have obtained a diploma from any Law, Medical. Theological or Scientific School, shall be entitled to the Master's degree, three years after his graduation. The degree of Master is not conferred in course, but only on evidence of proficiency in advanced studies, as above indicated.

HONORS.

First and second honors on Graduation day are given to those students respectively, who shall have obtained the highest and next highest average mark in all studies from the beginning ofthe Sophomore year.

REGULATIONS FOR ACADEMICAL COSTUMES.

All candidates for degrees are required to wear, on Commence ament Day, a black silk or stuff gown of the shape and pattern adopted by the Board of Visitors, also an academical cap of the usual pattern.

Graduates are also entitled to wear hoods of the following description:

- B. A.—A hood of black stuff, lined with black silk, edged on the inside with a narrow border of orange silk.
- B. Sc.—A hood, as above, edged on the inside with cardinal silk.
- B. L.—A hood, as above, edged on the inside with pale yellow silk.
- M. A.—A hood of black silk with a full lining of orange silk.
- Рн. D.—A hood of scarlet cloth with a full lining of pale yellow silk.
- LL. D.—A hood of scarlet cloth with a full lining of cardinal silk.
- D. D.—A hood of scarlet cloth with a full lining of white silk. Members of the Faculty of St. John's College who have been graduated from some other College or University are entitled, by order of the Board of Visitors and Governors, to wear the same gowns and hoods, respectively, indicative of their degree, as those who are graduates of this College.

LITERARY SOCIETIES.

There are two Literary Societies (the Philokalian and the Philomathean) among the students, which afford opportunities for the cultivation of composition and debate. An oration is usually delivered before the societies, upon the Monday and Tuesday preceding Commencement Day, by some gentleman selected by them.

PUCLIC WORSHIP AND RELIGIOUS INSTRUCTION.

The exercises of each day are opened with the reading of the Scriptures and prayer in the College Hall.

During the period of a student's residence at College every opportunity will be afforded for the fullest development of the Christian character. The study of Christian Evidences is assigned an important part in the College carriculum. All students are required to attend public worship on Sundays, and at other times at such church as their parents may direct. Arrangements have been made by the College authorities with the clergy of the several denominations of Annapolis, by which students may enjoy the advantages of special instruction in the tenets of their respective churches.

The President holds a Bible Class every Sunday morning in the College Chapel from 9.45 to 10.30 a.m., to which all students of whatever denomination are invited.

THE COLLEGE YOUNG MEN'S CHRISTIAN ASSOCIATION.

This organization is strongly represented. A large majority of the students of the College take an active interest in promoting the objects of the Association, and it is generally recognized as contributing in many ways to the welfare and safety of young men freed from parental restraint. A comfortable suite of rooms is provided in the College buildings for the use of the Association as a place of meeting for religious purposes and as a reading room.

EXAMINATIONS.

Written examinations on the studies of the entire term are held at the close of each term. The marks of these examinations are combined with the marks for daily recitations, to make up the student's standing for the term. Any student, whose examinations at the close of a year shall evince an incapacity on his part to pursue with advantage the studies of the class to which he belongs, will have offered to him on the first day of the next year, an opportunity to retrieve his lost position, and in default of doing so, will be reduced to a lower class.

A student deficient in knowledge, or persistently neglectful of any study, is at any time liable to be reduced to a lower class in that study.

No special examination is granted except upon a physician's certificate of sickness on the day of examination, or other cause which the Faculty may accept as adequate ground.

MERIT ROLL.

A merit roll is kept, and each recitation is noted on the grade of from 0 to 5. In order to pass from a lower to a higher class in any study, each student must obtain an average of 3.0 on the recitations and on the examinations of the whole session. This

average is arrived at by taking twice the recitation mark, adding thereto the examination mark and dividing the result by 3.

$$\begin{bmatrix} & 2R+E \\ & 3 & = average. \end{bmatrix}$$

provided also, that the examination mark in that study be not less than 2.75. In all examinations granted under special conditions, a mark of 3.25 is required as a satisfactory or passing mark.

Demerits will be given for absences not excused, and for viola ions of college regulations. Reports respecting conduct and scholership will be sent every month to the parents or guardians of students. Whenever any student of the Collegiate Department has 100 demerits for any term, or 150 for the year, he must leave the institution.

Certificates of Distinction of the First and Second Grade are presented to those students in any class who shall have obtained an average of 4.5 and of 4, respectively, in all their studies, and shall have been satisfactory in conduct for the academic year.

Students who have obtained an average of 4.5 in any one branch of study are honorably mentioned; but uo student is honorably mentioned, nor is any certificate or degree conferred upon any student who has failed to receive the passing mark (3) in any study for the academic year.

Hours per week.

COURSE OF INSTRUCTION FOR COLLEGIATE CLASSES.

FRESHMAN CLASS.

FIRST TERM.

4		Classical Antiquities; Mythology; Ancient Geography
	4	LATIN.—Cicero's Select Orations; Roman Antiquities and Mythology; Latin Prose Composition.
, •	4	MATHEMATICS,—ALGEBRA.—Quadratic Equations, Theory of Exponents, Radical Expressions, Theory and practice of Logarithms; Wentworth's Complete Algebra and Plane Geometry.
	2	English.—Genung's Rhetoric; Essays; and Reading Classical English,
	4	Science.—Biology; Bidgood.
	2	French.—Berlitz Oral and Written Exercises.
	2	GERMAN.—Grammar; Berlitz.
	4 -	SHOP WORK. General care of boilers and engines. Bench work for filing and chipping; Blacksmith's shop for welding, boiler making, and general work; Lathe work and drilling for both iron and wood work. MECHANICAL DRAWING. Including Architectural and Machine.
		SECOND TERM.
	4	Greek.—Attic Prose Authors; Greek Grammar and Composition.
	4	LATIN.—Livy, Odes of Horace, Latin Composition.
	4	MATHEMATICS.—Plane and Solid Geometry, Wentworth.
	2	English.—Painter's Introduction to English Literature (up to the period of Queen Anne), and collateral reading; Rhetoric; Composition.
	4	Science.—Botany, [Stevens.]
	2	French Grammar.—Berlitz French Reader; Exercises in Accidence, Verbs and Syntax.
	2	GERMAN.—Prose Composition, Berlitz Reader and Grammar.
	4	SHOP WORK.—General care of boilers and engines, Bench work for filing and chipping; Black- smith shop for welding, boiler making, and general work; Lathe work and drilling for both iron and wood work. MECHANICAL DRAWING.—Including Architectural and Machine.

SOPHOMORE CLASS.

FIRST CLASS.

	FIRST CLASS.
Hours per we	ek.
3	GREEK.—Attic Orators, (Jebb.); Sight Reading; History of Greek Literature; Lectures on Greek Legal Procedure and Government.
3	LATIN —Horace's Epodes and Satires, Cicero (De Senectute,) Latin Prose Composition.
3	MATHEMATICS.—Wentworth's Plane and Spherical Trigo nometry, with Practical Examples in Surveying and Navigation.
1	HISTORY.—Meyers' Mediæval and Modern History.
2	English.—Painter's Introduction to English Literature,
*	and collateral reading; Rhetoric; Compositions.
4	SSIENCE.—Chemistry, (Remsen's Briefer Course,) Laboratory Manual of Inorganic Chemistry.
2	FRENCH GRAMMER AND EXERCISES.—French Reader, Conversational Exercises.
3	GERMAN.—Berletz German Grammer; Storm's Immensee.
	SHOP WORK.—General care of boilers and engines; Bench work for filing and chipping; Black- smith shop for welding, boiler making and
4	general work. Lathe work and drilling for both iron and wood work.
$(S_{i,j} \otimes W_i \otimes V_j \otimes V_j) = (V_i \otimes V_j \otimes V_j$	MECHANICAL DRAWING Including Architectural and Machine.
	SECOND TERM.
3. 1. 1. 1. 1. 1. 1. 1. 1. 1. 1. 1. 1. 1.	Greek.—Herodotus; Thycydides; Reading at sight; Lectures on Epic Poetry and Greek Life.
3	LATIN.—Horace's Epistles, Cicero, (De Officiis;) Latin Composition.
3	MATHEMATICS.—Wentworth's Analytical Geometry.
1	HISTORY.—Myers' Mediæval and Modern History.
	ENGLISH.—Painter's Introduction to English Literature (completed), and collateral reading; Rhetoric; Compositions.
4	SCIENCE.—Chemistry; (Stoddards Qualitative Analysis: Remsen's Organic Chemistry)

And All Control of the Control of th	Shop Work.—General care of boilers and engines Bench work for filing and chipping; Black- smith shop for welding, boiler making and general work; Latne work and drilling for both iron and wood work.
	MECHANICAL DRAWING.—Including Architectural and Machine.

JUNIOR CLASS.

FIRST TERM.

Hours per	week.
3	Greek.—Demosthenes, (De Corona); Reading at sight;
· ·	Lectures on Greek Literature.
2	LATIN.—Terence. (Trinummus); Tacitus (Germania and
	A gricola:) Latin Composition.
3	MATHEMATICS.—Rice and Johnson's Differential Cal-
	culus; Curve Tracing.
2	English.—Cook's Siever's Grammar of Old English;
	Harrison and Sharp's Beowulf; Ten Brink's
	History of Early English Literature, Vol. I. History.—Medieval and Modern History.
1	Logic.—Jevon's Hill; Lectures.
$\frac{1}{3}$	Science.—Physics (Ames' Theory), Mechanics, Sound
3	and Heat.
3	CHEMISTRY.—Renouf's Inorganic Preparation, Rem-
U	sen's Organic Lectures and Preparations.
2	FRENCH-Standard Authors, Classic Poets, Original
~	Composition.
2	GERMAN.—Goethe's 'Hermann und Dorothea;" Lectures
~	on German Literature and History.
*	(SHOP WORK—General care of boilers and engines;
	Bench work for filing and chipping; Black-
	smith shop for wedding, boiler making and
4	general work. Lathe work and drilling for
	both iron and wood work.
	DRAWING.—Mechanical; Linear Perspective; Isometri-
	cal and Free Hand.
1	ELOCUTION.
	SECOND TERM.
3	GREEK.—Aristophanes; Euripides; Reading at sight;
	Lectures on Greek Literature and Greek Art.
	LATIN.—Juvenal (Satires); Composition.
2	English.—Cook's Siever's Grammar of Old English;
	Kent's Elene, or Baskervill's Andreas; Ten
	Brink's Early English Literature, Vol. I.
1 .	HISTORY.—Medieval and Modein. POLITICAL ECOEOMY.—Walker's Pol. Economy, Lectures.
2	MATHEMATICS.—Johnson's Integral Calculus.
. ð	Science.—Chemistry, Quantitative Analysis.
3 3 2	Science —Physics, (Ames' Theory), Electricity, Magne
æ	tism and Light.
2	FRENCH.—Racine's Athalie; Moliere's Le Bourgeois
S	Gentilhomme; Original Compositions and Con-
	versational Exercises; Lectures.
2	•German.—William Tell; Lectures on German Literature.
~	(SHOP WORK—General care of boilers and engines;
	Bench work for filing and chipping; Black-
	suith shop for welding, boiler making and
4	general work. Lathe work and drilling for.
	both iron and wood word.
	DRAWING.—Mechanical, Linear Perspective, Isometri-
	cal and Free Hand.
1	ELOCUTION AND DECLAMATION.

SENIOR CLASS.

FIRST TERM.

	TIIOT Table
Hours per	week.
2	GREEK.—Sophocles, Plato, Composition.
2	LATIN -Cicero, (De Finibus); Composition.
2	MATHEMATICSJohnson's Mechanics.
2	English.—A Study of the principles of literary criticism.
1	Law.—Constitutional Law.
2	Ethics.—Psychology; Lectures.
6	Science.—Chemistry; (Quantitative Analysis; and Preparations.)
2	GERMAN.—Nathan der Weise; Lectures on German Literature; History.
2	French.—Literature.
2	SHOP WORK.—Lectures from "Rankine's Steam Engine" "Wilson on Boilers." Strength of materials and Mechanical Instruction of Goodeve.
1	DRAWING.—Lectures; Designing Machinery.
1	MILITARY SCIENCE AND TACTICS —Lectures.
1	ORATORY.
	SECOND TERM.
2	GREEK.—Aeschylus, Study of style of Attic Prose.
2	LATIN.—Persius; Quintilian; Lucretius; Latin Composition.
2	MATHEMATICS.—Johnson's Mechanics.
2	English.—A critical study of representative authors.
1	Law.—International Law.
2	EVIDENCES OF CHRISTIANITY.—Lectures on Evidences of Christianity; Fisher's Grounds of Theistic Belief.
6	Science.—Chemistry; (Quantitative Analysis; and Preparations.)
2	Astronomy — Young's General Astronomy. GERMAN.—Faust, 1st Part; Lectures on German Literature; History.
. 2	French.—Literature.
2	SHOP WORK.—General care of boilers and engines; Bench work for filing and chipping; Black- smith shop for welding, boiler making and general work. Lathe work and drilling for both iron and wood work.
· 2	Drawing.—Lectures; Designing Machinery.
1	MILTARY SCIENCE AND TACTICS.—Lectures.

SENIOR YEAR.

DEPARTMENTS.

The course of instruction embraces the departments following:

I. Mental and Moral Science.—Including Metaphysics, Ethics, Natural and Revealed Religion and the Evidences of Christianity.

II. Political and Social Science.—Including Logic, Political Economy, Currency, Finance and Banking.

III. Ancient Languages.—Including the Greek and Latin Languages, Antiquities and Mythology, and the History of Greek and Roman Literature.

IV. Modern Languages.—Including the French and German Languages and Literature.

V. Mathematics.—Including Pure Mathematics, Mechanics, and Astronomy.

VI. Natural Science.—Including Zoology, Botany, Physics and Chemistry.

VII. History and English.—Including Ancient, Mediæval and Modern History, English Composition, Rhetoric, the English Language and Literature.

VIII. Mechanical Engineering and Field Surveying.

IX. International and Constitutional Law.

X. Elecution and Declamation.

XI. Military Science and Tactics.

DEPARTMENT OF MENTAL AND MORAL SCIENCE.

Christian Evidences.—A course of study on Theism, Christian Evidences, and the religions of the world extends through the second term of the Serior year.

Ethics.—The study of ethics, which extends through the first term, embraces the study of psychology, also the consideration of pure morality and positive authority, the latter including civil government, with the doctrine of the State, divine government and family government.

DEPARTMENT OF LOGIC AND OF POLITICAL SCIENCE.

Logic.—One hour a week during the first term of Junior year, open to those who have completed the required work in English and History in the Freshman and Sophomore years. Jevons-Hill's text-book is used. Special attention is given to the practical application of logical formulas in testing the validity of arguments.

Political Economy.—Course A—Two hours a week during the second term of Junior year open to those who have completed the course in Logic. Walker's Political Economy is used as a text-book. The text-book is supplemented by lectures and conversational discussions, the object being to make the student familiar with the fundamental principles of the sciences and to encourage him to study economic problems from a scientific and impartial standpoint.

Course B—One hour a week during both terms of Senior year, open to those who have completed "Course A" in Political Economy in the Junior year. The early part of this course is devoted to the study of the mathematical character of economics and the application of mathematical formulas to economic theory. Jevons' Theory of Political Economy is used as a basis for their work. Later, the study of economic problems is taken up, the problems being derived mostly from Sumner's Problems in Political Economy. The student is provided with abundant references for outside reading and is expected to be prepared to discuss the problems in the class-room.

Course C.—Financial History of the United States—One hour a week during both terms of Senior year open to those who have completed "Course A" in Political Economy in the Junior year. Instruction is given entirely by lectures, designed to cover the main features in the financial history of the United States. References are given at the close of each lecture and the student is expected to supplement the lecture, so far as possible, by outside reading.

DEPARTMENT OF ANCIENT LANGUAGES.

Latin.—The study of Latin extends throughout the Classical and Latin Scientific courses.

In the work of the Freshman year special attention is given to the structure of the Latin sentence, as illustrated in select portions of the writings of Cicero, Livy and Horace, and as unfolded through frequent written and oral exercises in Latin prose composition. But the chief object of the course is the study of Latin literature, through a critical reading of selections from the most important authors in historical succession, viz: In the Sophomore year, Cicero, and the Ciceronian and Augustan poets; and in the Junior and Senior years, Plautus, Quintilian, Tacitus, Persius and Juvenal. This reading is accompanied in the Junior year by a study of topics relating to the history of Latin literature.

Greek.—There will be four recitations a week in the Greek course which will extend over three years. During the Freshman vear the student will read Attic Prose Authors and a portion of Homer's Iliad. He will have daily exercises, both orally and at the blackboard, in translating into Greek. Such a drill will be given upon every point of Grammar, that this subject will be thoroughly mastered. During the Sophomore year selections from Herodotus and Thucydides will be read. The Junior class will read selections from the works of Plato, Euripides, Demosthenes, or Sophocles. Lectures will be given in the Freshman and Sophomore classes upon Greek Mythology, Manners and customs, and History of Greek Literature and Greek Art. During the Sophomore and Junior years daily practice will be had in reading at sight. In addition to the prescribed course, one weekly exercise, illustrative of the style and the vocabulary of the author read, will be required. An advanced course may also be pursued in the Senior year.

DEPARTMENT OF MODERN LANGUAGES.

The Modern Languages in general are taught by a method, the essential features of which are,

- 1. Acquiring fluency in speaking, reading and writing.
- 2. Teaching the grammar by the language, and not the language by the grammar.
- 3. Using translation not as means of imparting the foreign tongue, but as a test of obtained results.

French.—In the first year the students acquire the knowledge

of the language, in speaking, reading and writing, necessary for the ordinary intercourse of life. As to verb forms, this includes the infinitive, past participle, present indicative, indefinite past, and future simple.

In the second year, exercises with the present indicative, indefinite past, and future, are at first given, followed by the imperfect, the conditional, the preterit, the subjunctive, and by all the modes and tenses taken together. The whole grammar is then given in French, followed by a study of selected pieces from the best French authors. Letter writing is also included in the exercises.

In the third year, a condensed course of French literature is given, together with biographical notes of the authors, explanation of their tendencies, and selected extracts of their chief works.

German.—This language is taught in the same way, though special attention is given in the second year to the passive voice and the "oratio obliqua."

Italian and Spanish.—The study of these languages is entirely elective, and if pursued an extra charge will be made.

DEPARTMENT OF MATHEMATICS.

The required studies in Mathematics include Geometry, with problems and exercises in Geometrical invention; Algebra, Plane and Spherical Trigonometry, with their application to problems in Surveying and Navigation, and Analytic Geometry.

In the Junior year the study of the Calculus, and in the Senior year of Applied Mechanics, is pursued in the Scientific and Mechanical Engineering courses.

Elementary and Practical Astronomy is taught in the Senior year.

DEPARTMENT OF NATURAL SCIENCE.

The studies of the several classes have been so arranged as to make instruction in Physics and Chemistry a prominent part of the Collegiate course. Additions are from time to time made to the philosophical apparatus and every effort used to make the laboratories and cabinet as complete as possible. Contributions for illustrations of any of the branches of the department will be thankfully received.

Some important changes having recently been made in this department, and an account of the work as now organized is here

1. Biology.—The scientific study of the Freshman Year will consist of courses in general Biology and Botany. The course in Biology will be held during the first term and part of the second. It will consist of a series of lectures combined with appropriate text book work, and reference to authority—the whole planned with a view to giving the students a general knowledge of the most important types of life, from the Protozoa to the Vertebrates, especially as to the relationship of one type to another. Class demonstrations will be given, both in microscopic and gross dissection, the student being, as far as possible, familiarized with the use of the microscope and the simpler dissection methods During this course, plant life will be studied with reference to its biological bearing, and in the early Spring the study of individual plants will be taken up in Botany. Special attention will be given to plant analysis, and frequent excursions will be made so as to study the habits of various plants. Students will be required to analyze from 100 to 125 specimens. and are expected to become so familiar with the characteristics of twenty or more families, that they can recognize at sight plants belonging thereto. Stevens Manual of Botany will be the text book used and courses will be given in structural and physiological Botany. Laboralory fees are \$2.50 per term.

2. Physics.—The subject is pursued during the Junior year. The first term is employed in the study of Mechanics and the properties of matter (including Kinematics, Dynamics and Gravitation); also of the subjects of Sound, (including vibrations, sound waves, reflection and refraction, harmony and music, and velocity of sound), and of Heat, (including heat effects, temperature, molecular changes, kinetic theory of matter and thermody namics.)

The second term of that year is given to Electricity and Magnetism, (including the general properties of electric charges, induction and conduction, properties of steady electric currents, general properties of magnets and magnetic fields, and induced currents); also to the study of Light, (including the wave theory, spectra, colors, double refraction and polarization.)

The work consists of daily recitations from Ames' Theory of Physics, accompanied with experiments by the Lecturer, and a Laboratory Course of two hours weekly, in which course problems will be worked and experiments performed in all the above named branches of Physical Science.

3. Chemistry.—The first term of the Sophomore year is devoted to the study of general Chemistry. Remsen's Chemistrybriefer Course—is the text book used. During this term the student is familiarized with the general principles and theories of Inorganic Chemistry, illustrated by appropriate experiments. Each student is provided with a desk and the necessary reagents and apparatus. He is required to perform personally all the experiments contained in a laboratory manual of inorganic chemistry (Williams), under the direct personal supervision of the Professor. Special attention is given to this course and every endeavor will be made to keep it abreast with the requirements of current Chemical Science. Additions in the way of appa: ratus are being constantly made, and a chemical library, containing the latest and most necessary books, is at the disposal of the student. The total Laboratory expenses are assessed at \$7.50 per term, and must be paid in advance of the course to the Treasurer of the College.

During the second term of the Sophomore year the subject of organic Chemistry is taken up. Lectures, illustrated by experiments, are given throughout the entire year. The text book is Remsen's Organic Chemistry, which is used as a basis for both lectures and laboratory work. In view of the fact that many students, who intend making medicine or pharmacy their profession, desire organic chemistry, special attention will be given to their needs in this course, in order that they may secure more detailed chemical information than schools of medicine and pharmacy usually are able to give. In addition to class work in organic Chemistry, a course is also given, in Qualitative Analysis combined with a course in Organic and Inorganic preparations. The text books used are Renouf's Inorganic Preparations and Stoddard's Qualitative Analysis. The above work is finished at the end of the first term of the Junior year.

At the beginning of the second term the student familiarizes

himself with the action of the ordinary reagents on each of those chemical elements usually encountered. Quizzes are held at intervals and students are taught to inquire into and understand the scientific reasons for what they are practising.

For such students as desire to take Advanced Chemistry, there is provided a course beginning with the second term of the Junior year and continued throughout the Senior year, consisting of laboratory work in Quantitative Analysis, manipulation of chemical balance, calibration of endiometer, correction of gas volumes for pressure, temperature and water vapor, graduation, calibration and correction of apparatus for the measurements of liquids, determination of molecular weights and specific gravity, test of the purity of butter, general determinations of ores, acids and the elements, and reading in theoretical chemistry. Provision is also made for students desiring instruction in special lines of chemical work. The laboratory expenses for the Senior year are \$7.50 per term. For the advanced course the expenses are about the same.

Special attention is called to the amount of these expenses.— They average less than the usual amount charged, and it is believed that no college in the country affords its students equal opportunities at so small a cost.

DEPARTMENT OF HISTORY, THE ENGLISH LANGUAGE AND LITERATURE.

In this Department instruction will be given-

In History.—A thorough knowledge of Greek and Roman History is believed to be the basis of all historical study, and these will first be carefully learned. This will be followed with a general outline of history as contained in Myers' Manual of Mediæval and Modern History.

The Advanced History (elective in Senior Year) consists of a critical study of the financial and political history of the United States. A course of reading from political documents and papers of prominent statesmen is supplemented by lectures and conversational discussions. The course is most advantageously pursued in connection with the course in Advanced Political Economy, but it may be followed independently.

In English Language and Literature:—

Under this head the History of the English Language is traced from its earliest forms to the present, and its development is illustrated by the study of selections from different periods.— Special attention is given to the literary and historical side of the language. The literature of a language or a country can not be divorced from its history.

In the Freshman and Sophomore Classes an effort is made to ground the student thoroughly in the principles of logical and and rhetorical analysis; special stress is laid upon the sentence and the paragraph; an attempt is made to familiarize the student with a general outline of the scope and progress of our literature-The Junior and Senior Classes are concerned more especially with the Anglo-Saxon and Middle English periods; some acquaintance with the language of these periods is deemed an indispensable basis of English Grammar. While the student is furnished with a key to the rich and historically invaluable literature of our ferefathers, he is at the same time given an opportunity to know the inner nature, the inherent power, the unique dignity, and the right to precedence justly due his mother tongue. DEPARTMENT OF LAW.

Constitutional Law.—Text book, Andrews' Manual of the Constitution. For reference Cooley's Constitutional Law is used. Reference will be made to important decisions as rendered when they may afford additional illustrations of the principles of Constitutional Law. The subject will be taken up in the first term of the Senior year.

International Law.—Text book, Davis' International Law For reference, Woolsey's International Law is used. Events of recent occurrence, which afford an illustration of the principles of International Law, will be discussed. The subject is taken up in the second term of the Senior year.

DEPARTMENT OF MECHANICAL ENGINEERING.

The course in this Department will cover four years and consist of both theoretical and practical instruction. A work-shop has been opened, in which each engineering student is required to spend several hours per week. This shop will be enlarged as circumstances demand.

Each student also has several hours practice per week in the drawing room, receiving instruction in mechanical, linear-perspective, isometrical and free-hand drawing. In connection with this branch, during the Sophomore and Junior years, each student has one problem per week in Descriptive Geometry. These problems are made as practicable as possible. The Junior and Senior students have practice in designing, and each one is required to make complete working drawings of at least one machine of his own design.

The lectures in Design and Fabrication of Machinery, and in Contracts and Estimates, cover the Junior and Senior years, and are considered a very important part of the course.

For outline of the course, arranged by years and terms, see pages 32, 33 and 34.

COURSE IN SHOPS, ACCOMPANYING THE COURSE IN MECHANICAL ENGINEERING.

Wood-Room.—Bench-Work; Wood-Turning.

Iron-Room.—Bench-Work; Lathe-Work; Drilling; Screw-Cutting; Tool-Making; Management of Steam Machinery.

Boiler-Shop.—Riveting; Patching; Bending; Manufacturing of Boilers.

Blacksmith-Shop.—Bending; Welding; Tempering; Forging. The degree of Bachelor of Science, together with a diploma certifying to this effect, will be conferred at the Annual Commencement upon all graduates of this department.

FIELD SURVEYING.

Instruction in this department is both practical and theoretical. The student is required in the recitation room to solve problems, relating to the location of simple and compound railroad curves, and is taught the application of the primoidal formula to the calculation of earthworks. He is also taught the practical use of the transit and level in the field, and studies land surveying, the laying off and dividing up of land, calculating the contents. The text book used is Davis' surveying (Van-Amringe).

ELOCUTION AND ORATORY.

This course is required work for the Senior and Junior Classes one hour each week.

The work of the Junior year will consist of exercises in reading and declamation, with special attention to articulation and enunciation, supplemented by instruction in delivery.

During the Senior year a course in oratory proper will be given. Original orations will be required of each student as the instructor may direct. Each oration will be criticised from an oratorical standpoint, and personal instruction then given as to its proper delivery. The students will be required to speak before their classes, also in the presence of the Faculty and the student body assembled.

Lectures on oratory, with illustrations from English and American masters will be delivered from time to time.

CIRCULAR OF ST. JOHN'S COLLEGE.

The Instructor in charge of the Military Department is an officer of the Regular Army, and a graduate of the U. S. Military Academy, West Point, N. Y.

The military exercises therein conducted are confidently recommended to parents and guardians as a means of giving to the student an erect and soldierly bearing, of teaching him habits of prompt and ready obedience, and of affording a systematic and healthy exercise each day. All students, except those physically disqualified, are required to attend the drills, and for those who apply to be excused because of physical disability a physician's certificate will be required.

The names of the three of the students most distinguished for their proficiency in this department are reported each year to the Adjutant-General of the Army at Washington, and to the Adjutant-General of the State. It is probable that, in future, appointments to the Army from civil life will be made from those who have thus been recommended to the Adjutant-General of the Army.

The following cadets were reported in 1902 to the Adjutant-General, U. S. Army, as having the highest standing in the Military Department of St. John's College: Cadet Major, W. O. Spates; Captain, E. H. Tarbutton and Captain, C. S. Despard.

For purpose of tactical instruction, the students will be organized into a battalion of four or more companies, designated Companies "A," "B," "C," "D," &c., Corps of Cadets of St. John's College.

Those cadets who have successfully completed the theoretical course in Military Science and Tactics given to the Junior and Senior Classes, may, upon the discretion of the Commandant of Cadets, be transferred to an honorable and distinguished class, to be known as "The Reserve Class of the Military Department of St. John's College."

The Staff will consist of an Adjutant, a Quarter-Master, a Sergeant-Major and a Quarter-Master Sergeant, &c.

Each Company will have the following Officers and Non-Commissioned Officers: One Captain, two Lieutenants, one First Sergeant, four Sergeants, four Corporals.

"The Officers and Non-Commissioned Officers will be selected by the Commandant of Cadets, with the approval of the President of the College, for their soldierly bearing and attention to and knowledge of military duty. As a rule these appointments will be made according to classes.

II. PRACTICAL INSTRUCTION.

The practical instruction in this school will consist in daily drills of not more than one hour's duration. The Cadets will be exercised and instructed during the year in the Infantry Drill Regulations of the U.S. Army, comprising the School of the Soldier, the School of the Company, and School of the Battalion.

Breech-loading rifles with accoutrements, and the necessary ammunition are supplied by the Ordnance Department, U. S. Army.

III. THEORETICAL INSTRUCTION.

This will comprise recitations in Infantry Drill Regulations and portions of U. S. Army Regulations during the second term of the Junior year, to which will be added in the first term of the Senior year a course on other Military subjects, including Organzation of Armies, Preparations for War, Minoi Tactics.

CONCERNING UNIFORM AND REGULATIONS.

The uniform is required to be worn at all times, and all College students are required to provide themselves with it.

To insure uniformity in material and pattern, it is advisable that all uniforms be made under a contract which has been entered into.

The uniform of the Corps of Cadets is a modification of that worn at the U. S. Military Academy, West Point, N. Y., and is as follows:

For the Battalion proper (consisting of all College students, and those pupils of the Preparatory Department of sufficient size), blouse and trousers of grey cloth. (The cost of the blouse is \$10.00; trousers, \$5.75.)

For the Company of the Preparatory Department (consisting of all pupils wearing short trousers and who are too small to enter the Battalion proper), blouse and knee trousers of grey eloth. (The blouse costs \$8.50; knee trousers, \$3.75.)

CIRCULAR OF ST. JOHN'S COLLEGE

49

For all students, regulation cap of dark blue cloth, with ownaments, consisting of gold embroidered wreath on dark blue ground encircling the letters "S. J. C.," in old English characters. Price \$2.25

The purchase of the above is compulsory, and must be paid for when ordered. In addition thereto, it is strongly advised and urged that all students provide themselves with the military overcoat, of dark blue cloth, double breasted, ornamented with frogs, costing \$18.00.

It is suggested to parents that the overcoat may properly be worn with civilian dress and with the uniform, thus obviating the necessity of the purchase of two overcoats. All these parts of the uniform have been found to be very substantial, becoming, serviceable and of moderate price. No student will be permitted to wear parts of the uniform with parts of civilian dress.

No uniform will be accepted until it has been inspected and approved by the President of the College or by the Commandant of Cadets.

Chevrons for Officers and Non-Commissioned Officer will be of black tubular braid on grey ground.

Competitive drills and target practice are held at the close of the session. The best drilled Company is designated as the "Color" Company, and the colors are borne by that Company in Battalion formations during the ensuing year.

The honors of the Battalion were carried off in June, 1902, by Company "A," to which the custody of the colors was assigned.

COLLEGE EXPENSES.

	First Term.	Second Term
Tuition		\$37 50
Matriculation Fee (on admission)		-
Gymnasium Fee	5 00	5 00
Seat in Church		1 50
Hire of Furniture (if required)		3 50
Steam Heat	8 25	8 25
	\$60 75	\$55 7 5

Other Expenses.

Laboratory expenses, when course in Ohemistry is pursued, \$7.50 per term. Biology, \$2.50 per term.

Boarding in the College Club, including washing and room rent, about \$85.00 per term.

In the above, no estimate is made for cost of uniform (see page 47,) or text-books.

A student is also expected to provide himself with table napkins, towels, and the requisite bed clothing for a single bed.

There is also a small annual expense in the Literary Societies. Funds of students may be deposited with the President of the College, or with some other member of the Faculty, who will disburse the funds thus received in accordance with instructions he may receive from the parent or guardian.

Students should be especially warned of the risk incurred by keeping money in trunks or other receptacles in their rooms.

GENERAL DETAILS ABOUT EXPENSES.

The tuition charges for day scholars, including residents of Annapolis and students from other parts of Maryland and from other States, not lodging and boarding in the College Halls are \$45.00 per term in the Collegiate Department

The annual college session consists of two terms, the first ending on the 8th of February, and the second on the third Wednesday of June in each year. All the college charges are required to be paid in advance, at the beginning of each term; and no

deduction will be made except for absence caused by protracted illness. No student will be matriculated, nor will his name be entered upon the rolls of any term, unless he shall have presented to the President a receipt from the Treasurer of the College for all dues and arrearages, including a fee of \$5 for matriculation, and no diploma will be awarded unless the candidate shall have presented to the President a like receipt including a fee of ten dollars for a diploma. For the expenses of Senatorial scholars see page 55. Every boarding student is required to deposit with the Treasurer a fee of \$1.50 per term, to be paid by him to such church as the student may attend. An additional charge of \$5.00 per term will also be made upon all students for use of the gymnasium, for instruction in gymnastic exercises, and for membership in the Athletic Association. (See page 55.)

Students lodging in the College buildings, but boarding elsewhere, are charged in addition to amounts previously mentioned,

Room rent	\$15	00	per	ann	um.	
Electric Lighting\$3 00	to \$6	00	"	×	"	
Care of Room	3	50	٠.		•	
Washing						
of which one-half must be paid in ac	dvance	at ·	$_{ m the}$	begi	nning	\mathbf{of}
each term.						

Wilful damage, or damage resulting from carelessness, will be made the ground of additional charge, to be defrayed by the perpetrator.

All students holding scholarships are required to lodge in the College Halls, and those holding Senatorial scholarships are provided with room furniture, for the care of which they are held strictly accountable.

Students not holding Senatorial scholarships are required to provide themselves with furniture. Furniture may, however, be hired from the College authorities at from \$3.50 to \$5.00 per term, according to its character and cost, and the hirer will be held responsible for all damage thereto, beyond the reasonable wear and tear of the same.

Disbursements will made be for personal expenses of students, if funds are deposited by parents or guardians for this purpose, but

no advance will be made by the College. Books will also be furnished to students, provided a deposit of ten dollars be made for that purpose at the beginning of each term. At a final settlement, at the close of the year, the unexpended balance, if any, will be refunded.

BOARDING.

The two College dormitories, Pinkney and Humphreys Hall, as well as the recitation building McDowell Hall, have each been provided with a separate steam heating apparatus of the most approved sort. These have been thoroughly tested during the severe weather of past winters and found entirely satisfactory. The lodging rooms have also been recently renovated, papered and painted, and other improvements made conducing to the health and comfort of students.

Students may board in the College Club, or in private families, but are not allowed to board at, or frequent hotels or other public houses where intoxicating liquors are sold.

The Boarding Department of the College in all its branches is under the supervision of the President. The boarding houses will be closed during the Christmas and Summer vacations.

A College co-operative boarding club has been organized in place of the College Commons, and has been successfully carried on during past years.

Under this system at the close of each month, an inventory is taken, all accounts are settled and the expenses are divided among the members of the club. An auditing committee is then appointed each month by the club, to examine the books of the commissary and to report to the club.

Each member must advance \$10.00 at the commencement of each month, and at the close must pay the balance due, as no deficit is allowed to run into the following month.

The exact cost of board for next year, including washing, lights and room rent, cannot be known, as market prices vary. but it may be safely estimated to be about \$170 for the whole session.

LIBRARY AND READING ROOM.

Through the liberality of the Legislature of 1902, and donations from the classes of '71, '72 and '73, extensive additions have been made to the library, and by means of the regular library fund, subscriptions have been made to a number of American and Foreign periodicals. A complete library being an indispensable auxiliary to the intellectual advancement of professors and students, its claims are commended to the alumni and to the friends of education in the State. Any contributions of books or funds will be gratefully acknowledged.

There are now on the shelves about 6,000 volumes, which are carefully classified and catalogued, thus forming an admirable working library for the student. Among these works are 480 bound volumes of American and English periodicals. Easy access to the contents of these works is furnished by Poole's Index of all subjects treated of in home and foreign magazines.

The College library and reading room is open every day from 2.30 to 3.30 p. m., for reading and taking out of books and periodicals. The following magazines and reviews, furnishing all a student can reasonably need, are on file for 1903: Atlantic Monthly, Century, Popular Science Monthly, Harper's Monthly, Nation, North American Review, Literary World, Forum, New Princeton Review, The Academy, Harper's Young People, Saint Nicholas, American Journal of Philology, Lippincott's Overland Monthly, Scribner, Education, Scientific American, American Agriculturist, Andover Review, and the following British Reviews: Blackwood, Edinburgh, Westminster, Quarterly, Contemporary, Fortnightly, Macmillan, Nineteenth Century.

J. H. Sinclair,	E. R. Brydon.

GYMNASIUM AND BOAT HOUSE.

The new gymnasium has been thoroughly equipped with apparatus for a complete physical training.

In order to promote the physical culture of the students classes will be formed for instruction in the use of Indian Clubs and in other gymnastic exercises. These classes will be adapted to all grades of strength and conducted under the direction of a competent instructor with due regard to physical development and the laws of health.

During the first term, exercise in the gymnasium is required of all students three times a week; the remainder of the year attendance is optional. In the Spring term and during commencement week there will be an outdoor athletic meeting for prizes.

A new boat-house has been recently built which offers excellent facilities for boating and swimming.

Further donations towards the gymnasium and the equipment of the boat-house will be gladly received from alumni and other friends of the College.

BENEFICIARY AID.

STATE SCHOLARSHIPS FOR BOARD AND TUITION.

The General Assembly of the State (Act of 1872, chapter 303, and 1879, chapter 315,) has provided for furnishing board, fuel, lights, and washing to the incumbent of one State Scholarship from each Senatorial District in the State, to be appointed by the Board of School Commissioners, by and with the advice and consent of the Senators in their respective districts, after competitive examination. The law requires that the candidates shall produce before the Board of School Commissioners satisfactory evidence of their moral character, and of their inability or the inability of their parents or guardians, to pay the regular College charges. A blank form or certificate, drawn in conformity to the above law, will be forwarded to the Secretaries of the several School Boards for the use of the appointees to the said scholarships. These scholarships are tenable for four years, and the incumbents are required by law to pledge themselves that they will continue students of the College for the full term of four years, unless prevented by unavoidable necessity, and that they will teach school within the State for not less than two years after leaving College. To obtain a full collegiate education, the object contemplated by the Act, candidates should be prepared to enter at least the Freshman Class of the College. The Boards of School Commissioners are earnestly requested to exercise great care in the selection of these students, and especially to appoint none deficient in preparation. The Faculty is empowered to extend the term of these scholarships one year in case of worthy students. The incumbents of these scholarships will hereafter be required to provide their own text books.

There are known to be at this date (June 10, 1903,) eight vacancies in these scholarships, viz: One each from the counties of Cecil, Carroll, Howard, Prince George, Washington, Wicomico, and from the 2nd and 3rd Legislative Districts of Baltimore City.

In filling these vacancies the Boards of School Commissioners are requested (other things being equal) to appoint those candidates who are not less than sixteen years of age, and are most advanced in their studies. It is desired that all applicants here-

after should be prepared, in at least Mathematics and English studies, to enter the Freshman Class of the College.

STATE SCHOLARSHIPS FOR TUITION ONLY.

The law of the State of Maryland (Act of 1894) granting an additional appropriation to the College, provides for the education of twenty-six State Students, in addition to the foregoing, free of expenses for tuition. These scholarships will be distributed among the counties of Maryland, in order of priority of application. The holders of these Scholarships will be required to provide the cost of their board, about \$170, (see page 48), and pay incidental fees for church, gymnasium, heat, and hire of furniture.

BOARD OF EDUCATION.

The Board of Education of the Presbyterian Church grants aid to young men preparing for the ministry in the denomination. The aid may be obtained either while in College or in a Theological Seminary. At present the amount given is \$150 per annum.

SCHOLARSHIPS FOR SONS OF CLERGYMEN.

All sons of clergymen are given education free of charge. The Trustees of the Byrd Wyman Fund, Baltimore, also grant one or more scholarships, which provide both board and tuition to such students of the College.

THE JEREMIAH HUGHES SCHOLARSHIP.

A scholarship, providing the sum of \$30 per annum towards the cost of tuition, has been established upon the above foundation.

It is available for deserving youths of all denominations, but preference is to be given to candidates, who are residents in Annapolis.

COLLEGIATE SCHOLARSHIPS.

The following regulations have been made by the Board of Visitors and Governors for the establishment of scholarships in connection with the College.

For a permanent scholarship for tuition, \$1,200. For a permanent scholarship for board and tuition, \$4,000. For a scholarship for the tuition of a student through all the College classes, \$300. For a scholarship for the board and tuition of a student through all the College classes, \$1,000. For any other scholarship for the board and tuition of a student through all the College classes, \$1,000.

ships the sum reduced shall be in the same proportion, the money in each case to be paid in advance into the treasury of the College. The establishment of these scholarships is commended to the attention of the alumni and friends of the College

SOCIETY OF ALUMNI.

The Society of Alumni holds its annual meetings on Commencement Day, on which occasion an oration is delivered by one of its members. All former students who have completed their collegiate education (whether graduates or not) at St. John's College, and left in good standing, are considered members of this society. It numbers on its roll many names prominent in the history of the State.

The following are the officers for the present year: President. F. E. WATHEN.

1st Vice-President, FREDERICK SASSCER.

2nd Vice-President, J. A. FECHTIG.

Treasurer, C. E. DRYDEN.

Secretary, John L. Chew.

EXECUTIVE COMMITTEE:

B. V. CISSEL,

T. K. GREEN,

F. A. MUNROE,

W. T. KEMU,

R. P. MELVIN.

Historiographer, J. M. Munroe.

ALUMNI FUND COMMITTEE.

FECHTIG, Noble,

DRYDEN, SASSCER.

New York Branch.

A local association has also been formed at New York, to which all Graduates, alumni and friends of St. John's College, living in or near that city are eligible. The officers are:

Herbert Noble, '89, President; Elon S. Hobbs, Jr., '82, Vice-President; L. C. Boehm, '97, Secretary; Charles Brewer, '85, Treasurer.

Baltimore Branch.

A local association has also been formed in Baltimore under similar conditions to those existing in New York.

The officers are:

President, Philemon H. Tuck, '72; Vice-Presidents, Blanchard Randall, '74, J. M. Munroe, '74, John S. Fulton, '76; Secretary, L. B. K. Claggett, '95; Treasurer, J. A. Fechtig, Jr., '95.

This branch of the Alumni Association has arranged to present a gold medal annually to that member of the graduating class, who shall be designated by the Faculty and his classmates, as being the best representative man for the year in all college positions.

The medal was awarded in 1902, to Vernon S. Bradley, of Hurlock, Maryland.

Prizes and Certificates of Distinction

AWARDED JUNE, 1902.

Diplomas were co	nferred upon the follo	wing members:
	CLASS OF 1900.	
P. C. JONES,		H. S. TARBERT.
•	CLASS OF 1901.	
H. P. GRAHAM,		M. K. NEVILLE,
D. WALTON,		R. C. BOWEN,
B. CARTER,		J. M. GREEN,
	A. W. SMITH.	
	class of 1902 .	
P. L. MATHEWS,		A. H. RUHL.

Prizes were awarded as follows:

First Class.

B. L. FILKINS	
B. L. FILKINS	.Highest Average in Algebra.
W: DEVRIES	Best Essay.
E. T. CLARK	
A. H. RUHL	Book-keeping.
Second (Class.
M. DEFERRER	
C. J. SUITHi	ghest Average in Mathematics.

NO DEMERITS.

Names of pupils who have received no demerits for the entire year.

MIGUEL DEFERRER.

Names of pupils who have no demerits standing against them at the end of the year.

C. DESQUIRON,	E. W. MAGRUDER,
C. J. SUIT,	E. T. CLARK,
A. H. RUHL,	A. L. SEELIGMANN.

Grade Certificates were awarded as follows:

First Class.

FIRST GRADE.

B. L. FILKINS,

P. L. MATHEWS.

A. D. T. VALK,

P. MARION.

Conditioned in Latin and Algebra.

H. H. CARTER, E. B. COOLAHAN, A. L. SEELIGMANN.

Conditioned in Algebra. J. THOMPSON.

REMARKS.

This School is established primarily as a means of preparing boys to matriculate at St. John's College, but the courses of study have been so arranged that it is possible for graduates to enter other colleges, if they so desire. It is under the supervision of the President of the College. The efficiency of the school is attested, among other ways, by the steady increase in the number of pupils during recent years.

ACCOMMODATION.

Humphreys' Hall is reserved exclusively for the use of boarding pupils who take their meals in the School Dining Room under the supervision of one or more members of the faculty.

A lady is placed in charge of the house-keeping arrangements of the school, whose duty it is to look after the needs of the younger boys, especially in times of sickness, and to whom they may refer for assistance in matters relating to their personal comfort.

The rooms in Humphreys' Hall are large and commodious, and are lighted by electricity and heated by steam. As a rule, one room is occupied by two pupils, but, so far as the number of rooms will permit, a room can be secured for a single occupant by an extra payment for room rent.

ADMISSION TO THE SCHOOL.

No boarding pupil will be received into the School under fourteen years of age, and candidates for admission to the Second Class must be able to pass examinations in the following branches:

Latin: Grammar, First Reader and Elementary Composition. Arithmetic, to powers and roots; (i. e.,) on common and decimal fractions, denominate numbers, percentage, stocks and bonds, interest and discount.

English Grammar: declension of nouns and pronouns, conjugation of verbs, parsing of ordinary constructions, and analysis of simple sentences.

CIRCULAR OF ST. JOHN'S PREPARATORY SCHOOL.

75

Geography: complete political Geography.

United States History: to the close of the Revolutionary War.

An applicant for admission to either the First or Second Class. will be examined upon the branches which he professes to have studied elsewhere, and certificates will not be accepted in lieu of this examination.

References as to good moral character must be furnished by each applicant, and, an applicant coming from another school, must be able to refer to an honorable standing in the school which he last attended.

TERMS AND VACATIONS.

The school year is divided into two equal terms. The session for 1903-4 opens on the 16th of September, and the second term commences on the 8th of February. The last term closes on the 10th of June.

The Christmas vacation extends from the 23rd December to the first Monday in January, both inclusive. The 22d February, (Washington's Birthday), Good Friday, Easter Monday and Decoration Days are holidays, as is also the day of public Thanksgiving, appointed by the Governor of Maryland, or by the President of the United States.

COURSES OF STUDY AND GRADUATION.

Two courses of study are arranged: the Classical Course, and the Latin Scientific Course. Each student must elect at the opening of the session which course he desires to pursue, and must then take all the studies of the class to which he is assigned. No student is allowed to change his course during the session.

At the end of each session, those who are deemed satisfactory in all the studies pursued during the year are advanced; those who are unsatisfactory, are required to pursue the same studies again during the following year.

REPORTS AND PRIZES.

Prizes for Merit are awarded in the various classes and Certificates of Distinction of the First and Second Grade are presented to those pupils in any class who, having been satisfactory on

all examinations, have attained an average of 4.5, or 4, respectively, in all studies, and who have been satisfactory in their conduct for the academic year.

Reports respecting conduct and general progress are sent every month to the parent or guardian.

PUBLIC WORSHIP AND RELIGIOUS INSTRUCTION.

The exercises each day are opened with the reading of the Scriptures and prayer in the College Hall, and every opportunity will be offered for the fullest development of the Christian character. The school is non-sectarian, but all pupils are required to attend public worship on Sundays at such church as their parents may direct. Arrangements have been made with the clergy of the several denominations of Annapolis, by which pupils may enjoy the advantages of special instruction in the tenets of their respective churches.

OFFENCES FORBIDDEN.

No boy is allowed to leave the School grounds at any time, unless he obtains special permission from the Superintendent.

All excuses and requests from parents must be addressed and sent directly to the Superintendent.

The following offences are strictly forbidden:

The use of intoxicating spirits.

The use of tobacco in any form.

The use of profane and vulgar language.

Playing cards, betting, or gambling in any form.

Reading books and papers which are disapproved.

Keeping of fire-arms or explosives of any kind whatsoever Violation of these rules will subject a boy to demerits, or may render him liable to suspension.

Any boarding student, who shall receive 60 demerits during any three successive months, will be put on probation for three months; if, during the three months of probation he shall receive 25 demerits, he will be liable to suspension for a period not exceeding six weeks.

Any day scholar who shall receive 45 demerits for any three successive months, will be put on probation for three months; if, during the three months of probation he shall receive 20 demerits, he will be liable to suspension for a period not exceeding six weeks.

MILITARY DRILL.

Military drill is under the direction of an Army officer detailed by the War Department.

The boys, who are old enough, are required to drill with the College Battalion and to wear the prescribed uniform. (Cost \$18.00.) The younger boys are drilled in a squad by themselves, and are required to wear the uniform of fatigue blouse and knee breeches. (Cost \$14.25.)

GYMNASIUM.

An excellent gymnasium furnishes all the requisites for physical training. A competent director is always present, who is careful to see that no hazardous gymnastics are attempted. Three times a week the director gives instruction in dumb-bell exercise and club-swinging, and every student is required to participate in this exercise, unless the parent particularly states that he desires to have his son excused from it.

LIBRARY.

The library and reading room is open each school day. There are about 6,000 volumes in the library, which, with the magazines and reviews, afford ample opportunity for intellectual advancement. In the selection of periodicals, special care is exercised. All the first-class current publications of interest to boys are to be found in the reading room, and no others are permitted. Books and periodicals may be taken from the library under reasonable restrictions.

CLUB ROOM.

Inasmuch as the students are not permitted to leave Humphreys' Hall after night-fall, a club room has been fitted up in that building, and the students have access to it at such times as they are not required to be at study in their rooms. Innocent games are provided, but any attempt at betting or gambling will be severely punished, and will debar the offender from further use of the room.

DAMAGE TO PROPERTY.

Any injury to the building, furniture or other property of the school, will merit punishment, and the damage will be assessed and charged to the parent, in addition to the charges stated below.

EXPENSES FOR DAY SCHOLARS.

All boys who have scholarships for free tuition are required to pay \$10.00 per session for use of gymnasium and library, and membership in the Athletic Association.

EXPENSES FOR BOARDERS.

Tuition as above (\$55 to \$65 according to Class, for whole Session.)

	First Term,	Second Term,
Payable	on entrance.	Payable 8th Feby
If entered in 1st Class Church Fee Hire of Furniture Steam Heat	1.50	\$35.00 1.50 3.50 0.50
	\$48.50	\$48.50
Board, including table-board, wash and lighting, can be obtained for.	ing \$84.00	\$ 84.00
	\$ 132 . 50	\$132.50
For the whole session in Fir		\$265.00 255.00

A pupil is also expected to provide himself with table napkins, towels, and the requisite bed clothing for a single bed.

All charges are required to be paid in advance at the beginning of each term, and no deduction will be made except for absence caused by protracted illness. Disbursements will be made for personal expenses of pupils, if funds are deposited by parents or guardians, but no advance will be made by the school authorities.

Candidates for Admission to the Naval Academy.

Classes are formed solely for Candidates for admission to the Naval Academy.

The course of instruction is not limited to the requirements for admission. but students are advanced as far as possible in the mathematics of the first term in the Naval Academy. Candidates are received at any time of the year, and the instruction is very largely individual, special attention being given to the wants of every pupil.

This school has always had distinguished success in preparing young men for entrance to the Naval Academy, and has the highest endorsement from the Naval officers stationed at Annapolis.

Candidates board in the College, and are subject to the regulations and restrictions which govern the regular College students.

The regular classes of the School are in session from the first of October ao the fifteen of May, when the Spring examinations commence.

All the entrance examination papers used at the Naval Academy from 1879 to 1890, have been published by the College.—This volume is used as a text book in the school. Copies may be obtained from the bookstores in town, or will be mailed from the College upon the receipt of fifty (50) cents,

Among other advantages it may be mentioned that the Condidates, who enter during the long term from Octotober to May, have the privilege of being instructed in military drill and tactes: also, if desired, in French and Geometry, a knowledge of which will be found very useful after the cadet has entered the Academy.

Expenses.

Tuition for the long term, from October to May examination \$1	.25	00
For less than the full term, per month	20	00
For two months, or less, per month	25	00
Board and lodging can be obtained at the College including fuel		•
and lights, per month	25	00

Commencement Exercises, 1902.

PROGRAMME:

- THURSDAY, JUNE 12th, 8 P. M.—Oratorical Contest for members of Junior Class.
- FRIDAY, June 13th, 10.30 A. M.—Graduating Exercises of the Preparatory School; Address by Rev. Robert S. Coupland, Baltimore, Md.
 8.30 P. M.—Farewell Ball, Class of 1903 to Class of 1902.
- SATURDAY, JUNE 14th, 4 P. M.—Baseball Game (Alumni vs. College.)
- SUNDAY, June 15th, 11 A. M.—Baccalaureate Sermon by Rt. Rev. G. F. Seymour, D. D., Bishop of Springfield, Ill., in St. Anne's Church.

 8 P. M.—Sermon before the CollegeY. M. C. A., by Rev. Clinton T. Wyatt, Crisfield, Md., at First M. E. Church.
- MONDAY, JUNE 16th, 11 A. M.—Senior Oratorical Contest. 8 P. M.—Philokalian Society Celebration; Address by Hon. J. W. Randall.
- TUESDAY, June 17th, 10.30 A. M.—Senior Class Day Exercises.

 9 P. M.—Philomathean Society Celebration;
 Address by Frederick M. Sasscer.
- WEDNESDAY, June 18th, 10.30 A.M.—Commencement Day;
 Address before the graduating class by Hon.
 J. G. Rogers, of Ellicott City, Md.
 8 P. M.—Business meeting of the Alumni.
