

## King William Players Are Rehearsing Nightly; Smith Is Added To Cast of Play

Harry Patrick Luz Will Take Part of Thomas, the Butler; Barkman Forced to Withdraw

STUDENTS WILL BE ADMITTED GRATIS

To Be Only One Performance of Play; Admission to Dress Rehearsal Permitted

Arthur Robert Smith, '37, is a late addition to the cast of "Children of the Moon," which will be presented by the King William Players at the Circle Theater on Sunday evening, March 3, at 8:30. Smith replaces Elwood Barkman, '35, who was forced to withdraw from the cast because of other pressing duties.

The engagement of Smith, and also of Harry Patrick Luz, who will play the part of Thomas, the Butler, completes the casting of the play, which has been required about two weeks. The complete roster of players now reads as follows: Mrs. William S. McClinton as Madame Atherton; Miss Duane McNair as Laura, her daughter; Miss Augusta Melvin as Jane, her granddaughter; George Tyler Coulson as Major Bannister; William Reed Quimby as Judge Atherton, who suffers from "moon madness"; Robert Noye Sosman as Doctor Veldreth, the family doctor and friend of long standing; Arthur Smith as Walter Higgs, Major Bannister's mechanic; and Harry Luz as Thomas.

Lampier Business Manager

Robert Henry Lampier, whose name has appeared on the programs of several King William Player productions, is serving in the capacity of publicity representative for "Children of the Moon." Under his supervision and direction all posters in colored colors have been printed and distributed throughout the town to merchants who are displaying them in their windows. He has also arranged with the Circle Theater, where stage the play will be given, to run an advertisement of the play on the screen at every performance one week before the date of presentation.

Tickets Ready

The tickets have been printed and are ready for distribution to the subscribers and students. As new the college will be admitted free of charge to the performance, but they must secure their tickets at the Business Office. No student may receive more than one free ticket and no one will be admitted to the theater without a ticket. The regular admission charge of forty cents will apply to all tickets sold at the box office.

Rehearsing Nightly

The cast is now rehearsing nightly under the direction of Vernon J. No

## Student Council Considers New Penalty For Offenses

Offenders May Have Fines Put On Bills Rather Than Be Deprived of Meals

Deliberation concerning a new method of punishing dining hall offenders was the object of the meeting of the Student Council in the Quiet Room of McJannet last Tuesday evening. One of the members suggested that the offender, in preference to being suspended from the Commons, be fined a certain amount in accordance with the nature of the offense, and that the fine be entered on his bill and sent home to his parents or guardian. In an infringement of dining hall rules was the offense, it was suggested, let the culprit be fined for the amount of the meal. After some debate, the Council acted on President Letts' opinion that the question be held open until the next meeting of the Council.

Charles B. Anderson announced that Noye, Stoner, Rascovar and Crane had been appointed members in Pinkney Hall. The Council adjourned after examining what may be an award for membership of the Student Council.

## PLAYS FAMILY DOCTOR

ROBERT N. SOSMAN

## Vigilante Is Elected Head Of Glee Club

Lawson Crane Elected Secretary; Both Officers Selected by a Unanimous Vote

CLUB TO SING AT M. C.

Members Will Receive D.O. Credit Retroactively Next Year if Organization Lasts

Albert Vigilante was elected president of the St. John's College Glee Club, and Lawson Crane secretary, by a unanimous vote of the assembled members in the Great Hall of McJannet last Tuesday evening. President Vigilante's first official move was to appoint an executive committee composed of representatives from each group of voices, consisting of Max Glickman, Stuart Christhill, Crane and himself.

Has Given One Concert

The Glee Club was organized in November of last year in response to several suggestions from President Woodcock, and to the demand for one among the Student Body. Mrs. M. Talbot Higgs, wife of the Director of Athletics, coaches the body, and Professor George A. Bingley accompanies on the piano. A concert of Christmas Carols was sung by the club from the front porch of McJannet Hall last December 20.

Members of the Glee Club will receive credit toward membership in the honorary fraternity Delta Omicron next year, it was learned in a conference in the President's office with Charles S. Catherman, Jr., president of Delta Omicron. If the organization lasts on into next year, members will receive credits for both this year and the next, in accordance with the constitution of Delta Omicron.

The Glee Club will undertake and is at present preparing for a visit to the Maryland State College for Women at Lutherville sometime this spring, according to President Vigilante. "The Hells of St. Mary's," several religious numbers, and a neatly entitled "Old King Cole" on which the club is now working will in all probability be on the program.

A news item appearing in the publication at Lutherville in regard to the St. John's Glee Club follows:

"This is the first year the Annapolitan have had a choral group for a number of years. The work is being directed by Mrs. Louisa Higgs, who sang a solo at the Maryland College baccalaureate service year before last. Several years ago St. John's invited the M. C. student body as a group to attend the reconditioned old colonial homes owned by the Annapolis institution and entertained afterward at a dance."

## SPONSORS OF FRESHMAN DANCE

Reading, left to right: James Gordon Bennett, IV, and drag; William Houston, Dorcas Tuck, Leah Henry, George Tyler Coulson, and Martha Burgess.

## Dance Is Held by Freshman Class In Iglehart Hall February Ninth

The Freshman Class dance, held February 9th, at Iglehart Hall, was proclaimed a great success so far as those in attendance were concerned. Scotty Haines, a Virginia orchestra, was compared favorably with the Townsmen, and other orchestras who have played at St. John's dances. The decorations were unique, and the presence of five hundred balloons made the ball a dazzling spectacle.

Crowd Small

Although the dance was a success so far as those in attendance were concerned, the crowd was comparatively small, and the gate receipts likewise. The dance was marked by lack of support of the entire Freshman class, and the school may be thankful for the many regular classmen who helped to make the dance a success by their presence. The Freshman committee seemed to have everything well in hand, and their preparation and ideas should lead to an improvement of the future dances.

Social Committee Pleased

The crowd was entertained by the set of four small colored boys who imitated the Mill's Brothers during the intermission. Alfonso Farnum was so well pleased with the style and manner of the orchestra that they will very likely be engaged for some future dance at the school.

The Freshman Class had as its guest President Woodcock, Major Harrison, and others of the Faculty, who were highly pleased with the manner in which the dance was carried out.

## Erlenmeyer Club Shows Film On Anaconda Copper

Complete Outline of Copper and Brass Industry Projected in Forty-five Minutes

Series of Chemical and Electrical Experiments Complete Program of Meeting

A motion picture on the production of Anaconda copper, and a series of chemical and electrical experiments, comprised the program of the Erlenmeyer Club at its meeting last Friday night in Humphreys Hall. According to Frank R. Gosner, '36, president of the club, "Anaconda copper" was the third of a full year's series of films to be shown at the club meetings. Irvin Meginnis, '36, operated the projector. All manufacturing and mining scenes in the picture were taken from operations of the Anaconda Copper Company, industry's principal source of supply for copper, brass, bronze, and nickel silver. A complete outline of the copper and brass industry was given by the film, the time of projection being approximately 45 minutes.

Electrolytic Refining

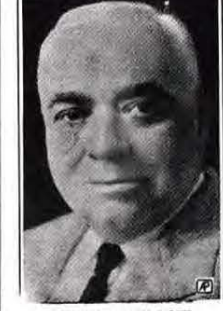

After the copper bearing rock is mined and transported to the smelters it is crushed and most of the waste material eliminated. It then passes successively through roasters, reverberatory furnaces and converters, and the resulting "blister copper" is cast into plates, known as anodes, for electrolytic refining. This electrolytically refined copper is then cast into ingots, cakes, slabs, and wire bars. The copper cakes are rolled under heavy pressure, and are annealed to insure the correct temper in the metal. Their completion is accomplished by trimming and inspection.

In the tube mill, seamless pipe is made by the cast shell, piercing and coupling methods. After the rough form is obtained by one of these methods, the pipe is brought to the required size by alternately drawing through dies and annealing. Each length is then tested under hydrostatic pressure before shipping. Copper wires are manufactured by reducing a bar of copper under successive hot rollings to a small rod, which is cold drawn through dies to produce wires of various sizes.

Also is the quality that keeps you from acting natural in an emergency. Nothing can be better than a lame excuse.

## 11 Men Appear On First, 29 On Second Dean's List As Rank List Is Completed

CHAPEL SPEAKER

GOV. HARRY W. NICE

## Gov. Nice Is Speaker at Chapel Tuesday

Asks To Be Remembered as Fellow Townsman and Neighbor Of the Students Here

MAKES INSPECTION TRIP

Feels College Was Fortunate in Securing Colonel Woodcock as Its President

"I want you always to remember that I am your fellow townsman and neighbor, during my four years stay at Annapolis," said His Excellency, Harry D. Nice, Governor of the State of Maryland, as he spoke before a large group of students during the weekly Chapel service. President Woodcock introduced Governor Nice, and complimented him on his excellent qualities as a loyal friend to the welfare of the State of Maryland.

Glad to Meet Students

"I embrace the opportunity," continued Governor Nice, "to meet and become acquainted with the Student Body of St. John's. I congratulate the College and the Board of Governors on the selection of Colonel Woodcock to act as President of the institution. I have known President Woodcock for years. We have been closely related through the enactments of processes of the law. I am not going to describe his worth, but need only to say that the College is indeed fortunate in securing him as its head."

College Is Up and Coming

"St. John's College is gradually carving a name for itself among the great institutions of higher learning. A general knowledge of its qualifications for higher education is becoming more widely spread, and consequently it requires real leadership to become president of such an institution. I congratulate you gentlemen on your position."

"During my residence in Annapolis for the coming four years, I wish to impress upon you that I desire to become your staunch neighbor and fellow townsman. I hold in high esteem St. John's College, and I have a decided interest in the Student Body. If ever you gentlemen feel the need, I heartily extend you an invitation to call on me, either at the State House, or at the Executive Mansion. You will be exceedingly welcome, and I will be yours to command to the fullest ability which my official position permits."

After the College orchestra had played "O Belle Nite," the Student Body sang an old St. Anne's hymn, "O God—Our Help in Ages Past." A general reception in which Governor Nice met the Faculty and Student Body, concluded the service.

Then the Governor made a short trip of inspection of the Campus, and stopped at the State Hall of Records and other buildings.

Woman: "Have you tried conscientiously to get a job?"

Tramp: "Lady, me Congressmen is wearied to death of me applications!"

Peyton Ritchings, Taking Five Courses, Is High With 3 A's and 2 B's

MEN ON DEAN'S LIST ALLOWED CLASS CUTS

Emmanuel Snyder Receives Same Grades as Ritchings, With Few Minus Signs

Eleven men, including the three holders of Senior Fellowships, made the First Group of the Dean's List for the semester according to the report issued yesterday from the Dean's office. Three A's and a B are required for membership in this group. Twenty-nine men attained membership in Group II of the List, the requirements being a minimum of three A's and a C, with no other mark below D. According to the catalogue of the College, "The Dean's List consists of the names of all students who have attained places in Groups I or II of the Rank List. Men of the Dean's List are trusted with greater responsibility and discretion in the ordering of their college work; they are allowed to observe as they may with the rules regarding attendance, and are not subject to discipline because of absence. Abuse of these privileges over an extended period of time may bring about the removal of any man's name from the Dean's List."

Peyton Ritchings, a member of the Freshman Class, made the highest grades of anyone in the College, according to the report. His three A's and two B's are closely seconded by his classmate Elwood Barkman's three A's, a B, and a C. Gustav Hesser gleaned three A's and a B from his four courses. In the Sophomore Class, Emmanuel Snyder is outstanding with three A's and two B's. It is only the minus marks affixed after a few of the grades that prevents him from being on equal standing with Ritchings. Lester Wall received three A's and a B, Sohn 2 A's and 2 B's, Robert Levin three A's, a B and a D and Will Ash two A's, a B and two C's.

In the Junior Class, Joseph Gray received three A's and a B, E. T. Helise the same, Klier two A's, a B and a C, Noye an A and four B's, and Rascovar the same. In the Senior Class, Francis Hunk made 3 A's and a C, Lawrence O'Connor three A's and a B, Elmer Merrell two A's, a B and a C, Roland Bailey an A, three B's and a C, and Richard Woodman an A and three B's.

The Rank List proper follows:

Group I

Seniors—O'Connor, L. J. (Senior Fellow); O'Donnell, J. B. (Senior Fellow); Welby, D. M. (Senior Fellow); Hurlock, F. G. (3A's and 1C).

(Continued on Page 4, Col. 1)

## Four New Transfers Register; Total Is Brought To Eight

Number of Mid-Year Men Is In Proportion To Enrollment Of Former Years

An addition of four new students since the first of February, has completed the mid-year enrollment of transferring men and new men. A total of nine new men have enrolled with the Registrar, and this completed number is in proportion to the enrollment of former years. It is in keeping with all former enrollments that the majority of new students are transfers. Of the four men to register last, one is a transfer from Trinity College in Hartford, Connecticut, the second transferred from Elmhurst College, Colorado, while the remaining two are transfers from Yale, and the University of Maryland, respectively. The list follows: C. B. Zweibel, '38, Waterford, Conn.; Christian Neumann, '37, Annapolis, Md.; Hyman Brodsky, '38, Brooklyn, N. Y.; C. A. Amshy, '38, Batesville, Ark.

In addition, the list of new men includes: G. F. Pearson, '37, Malcolm E. May, '38, Allen R. Doty, '38, Robert J. Lau, '37, and W. P. Mosler, '38.

# BASKETBALL TEAM SWAMPS AMERICAN U. 45 - 21

## Cagers Ahead Throughout Entire Game

Improve as Game Progresses; Opponents Easily Outclassed in Every Department.

St. John's broke their losing streak Wednesday night when they traveled to Washington and swamped the American University quintet, 45 to 21.

The Johnnies opened the game in great fashion and before many minutes had elapsed they were leading by a substantial margin. The Johnnies seemed to work better as the game progressed and easily outclassed their opponents in every department. At half time St. John's was leading 23 to 14.

### Towers Shines

Towers, who replaced Evans at the center position when the blackout broke up the team, played his best game of the season. He ended six field goals to tie for high scoring honors with John Donohue whose eight free throws and two field goals gave him also a total of twelve points. Billy Ross, who has replaced Lambrose at the forward post, turned in a fine exhibition ending three field goals for a total of six points to tie with L. DeLisio.

Coach Lentz also used his substitutes and they held the American U. outfit in check and managed to do a little offensive work themselves.

## Preliminary Lacrosse Practice To Start Feb. 25, Says Moore

Sees Unusual Opportunity for Several Good Men Even If They Haven't Played

February 12, 1933.

Mr. Garnett Clark:  
St. John's College.  
Annapolis, Maryland.  
My dear Mr. Clark:

Will you please run the following in the Collegian as a letter or as you see fit.

Weather permitting, we want to have equipment in time to start preliminary lacrosse practice Monday, February 25th. We are anxious particularly to have all new-comers and no letter reprints at that time.

There are many vacancies on the team which will require hard work to fill. Last year we had a powerful team and an excellent season. John Hopkins being the only college to top us.

There is an unusual opportunity for several big, fast, aggressive men regardless of whether or not they have ever before played lacrosse. If we can successfully fill several spots we should have an excellent season and should keep our place in the lacrosse firmament which has belonged to St. John's for so many years (1933 being our 50th annual year in over 100).

While experience is desirable we want particularly men who can qualify with academic eligibility, heart, speed, ruggedness and will to win.

Let's hit the barrier on the 25th with a bang?

"A HOTEL OF DISTINCTION"

## Home Quint Nosed Out By Loyola 32 to 28

Johnnies Pile Up 8-0 Lead After Opening of Game; Led by 8 Points at Half.

Loyola Coach Bill Liston Sends in Ferrarini for Kelly to Turn Tide of Game.

A fighting, determined, but handicapped St. John's quintet was nosed out by Loyola for their fourth defeat in the State College League by the score of 32 to 28. Loyola by virtue of this victory climbed to the top rung of the league ladder as Washington was defeated by Johns Hopkins.

The Johnnies opened the game with a court that stunned the Greyhounds and for the first half dominated the entire play. The team played as though they had never been robbed of their most effective center, Evans, and highest scorer, Lambrose. The Johnnies looked like champions as they worked set plays on signal and guarded like real ball hawks. One of the Johnnies' clever plays to perfection, Donohue, from mid court, lobbed a high pass to Towers on the foul line. The latter tipped it to Ross, who came in from the side, and flipped it for a two pointer. The crowd was amazed as St. John's piled up a 8 to 0 lead.

### Ferrarini Stems Tide

Bill Liston, Greyhound coach, desperately sent in Ferrarini to take over Kelly's forward position. This was a lucky move for he seemed to inspire the team as well as making baskets. However, the Johnnies were not idle and still led by eight points at the half.

### Fail To Stop Rally

Neither team scored during the first seven minutes of the second half. Then Ferrarini broke the ice as he got clear on a pass from Tunnyhill and scored a two pointer. From here the Johnnies slipped and didn't score until ten minutes of the half had elapsed. Gradually Loyola closed the margin until they took the lead on another goal by Ferrarini at 25 to 23. Dutch called on his reserves, but to no avail. They were four points in the rear as the final whistle blew.

## SPORTS MUSE

The basketballers of the old Alma Mater dropped two more games during the last week, one a clear cut victory to St. Mary's and the other a hard-fought battle to Loyola.

The first game was played in the hand-box gym at Emmitsburg and the Johnnies were trounced by the Mounts as Sigatelli, the St. Mary's ace, ran up a large point score.

In the Loyola game, Dutch Lentz and his boys served notice to the other teams in the league that they must not be taken too lightly, even if they have lost two of their star members. The Johnnies put on a stiff fight at Loyola and were leading by six points at the half. The Jesuits rallied in the second half and won by four points but they were quite jittery before the game was over, yes, quite jittery!

We are still pulling for the boys and have a strong hunch that they are going to come through in more than one of the remaining league games!

Things were jumbled up in the league because of the Loyola victory over St. John's and Hopkins' defeat of Washington College. The Jays came through with a 35-23 victory over the Friendly College cagers and this defeat moved Washington down to second place. Loyola moved into the van.

We trust that you fellows were lucky enough to get a glimpse of the New York University club. The N.Y.U. coach stated that he had no system and that basketball playing consisted only in the elimination of mistakes (i.e., mistakes in passing, shooting, dribbling, etc.). We suppose he is right. He has a smooth ball club there, and the smoothest player on that club last Saturday was Malmsten. That boy played a very, very nice game.

The New York boys looked pretty bad in the first half but they snapped out of it in the second period and put on a pretty exhibition.

There were a few instances in the game which appealed to us. On one

play, the whole N.Y.U. bench rose as a man to protest against a play which was occurring on the court. They couldn't have timed it more perfectly if they had practiced it. What was the play? Oh, it was Horries on one of his sporadic dribbles down the court. He was dribbling with one hand and hitting a brass drum beater with his other arm. The drum he was beating was a New York play's side.

Then, later in the game it looked as though the coach was going to send in a boy who had all the earmarks of a son of Old Erin. Someone beside me said: "Hooray, he is sending an Arayan!" Another bright spectator beside me said: "It's no use; they won't pass him in the hall."

### Delta Psi vs. Kappa Alpha

The D.P.O. team met another crushing defeat at the hands of the K.A. quintet. During the first quarter the Delta Psi boys seemed to be doing better than their opponents for at the end the score was 5-4 in favor of the former. At the end of the second quarter in which much hard fighting took place on both sides the score was 9-19. The K.A. manager at the start of the third quarter moved Archer from guard to forward. It was a wise move for by the end of the quarter he had chalked up ten points. In the last quarter the K.A.'s put in a complete new quint and marked up two more points. Archer and Hammond were the stellar players for the K.A. team, the former scoring 14, while the latter tallied 6 points. Farone and King were the outstanding men for the Delta Psi quint. At the blast of the closing whistle the tilt ended with a score of 20-9 in favor of the K.A.'s.

Some fellows are hogish when it comes to money, but we are not like that. We would be satisfied just to have what has been spent for exam

## SQUASH RACKET

With the response of Robert Lou, Ralph Motier, Frank Taylor, Jay Holmes, and King Fisher to the call issued by Allen Doty, the Squash Racket Club of St. John's College was formed. The club will be under the unofficial direction of "Dutch" Lentz and under the chairmanship of Allen Doty, transfer from Trinity, where he took an active interest in the sport.

"Dutch" has the intention of playing each member of the club himself, and upon the basis of his findings, or arranging a handicap tournament to be played within two weeks. Some time will be needed to work up the squash racketeers into a degree of proficiency in the sport, since the majority of the men are new to the game. It is hoped that in the spring, the club may form a team to meet outside competition.

Anyone interested in squash racket may learn or increase his skill at the game any afternoon from one to two in the handball court in the gymnasium. If this time is not convenient for those wishing to learn, appointments may be made for other times with Allen Doty.

### Phi Sig vs. A.K.P.

The Phi Sigs took over the A.K.P. team of basketeers by the healthy margin of 31 to 16. The A.K.P.'s showed every promise in the beginning of the game and lead the first quarter 6 to 0, but through ineffectiveness the Phi Sigs took over the lead early in the second quarter and held it the rest of the game. Hobbs and Brown were the Phi Sig's strong points, Brown being high man of the game with ten points to his credit. Eccleston and Tom Smith were the stars for the A.K.P. squad, Eccleston leaving the game with nine points, out of eleven fouls being shot only two were made. The A.K.P.'s made a strong rally in the last three minutes of the game but they were unable to overcome the eighteen point handicap that they had at that time.

England is eating more, Food sales for a recent month being five per cent above the corresponding period of 1933 blue books.

## Cagers Meet Swarthmore Tomorrow Eve

Will Attempt to Pick Up Some Percentage In First Home Meet This Month

Coach Dutch Lentz Will Start the Combination That Troubled Greyhounds Feb. 9

After a long absence from the home court, the St. John's basketball team will to its den to encounter the visiting Swarthmore cagers tomorrow night. The game is billed for 8:30 p. m.

Of late the Collegians have been in the claws of a long losing streak and they will attempt to open the home appearance with a victory. The Lentzmen have lost several hard and close games in which the "breaks" decided the issue and as they come to the latter half of the schedule they hope to pick up some percentage. The Swarthmore basketeers are the first to meet the Johnnies as they make their final swing and a win would atone for several of our close defeats.

### Strongest Set to Start

Anxious to win the contest, Coach Lentz will start his strongest combination. Bill Ross and Ed DeLisio will fill the forward posts, L. DeLisio and Donohue at the guard positions, and Gene Towers at the center circle. This aggregation gave the highly touted Loyola College five something to think about and they should topple the visitors.

### Close Tilt Expected

The Swarthmore club has been a top-notch all season; they haven't registered many victories, but they always give a pleasing exhibition. Washington College downed them 20 to 16, but the tilt was much closer than the score indicates. An interesting set to be expected when the two clubs hook-up tomorrow night.

...do you have to knock the "dottle" out of your pipe

**GRANGER**  
PIPE TOBACCO  
LIQUETT & MEYER TOBACCO CO.  
GRANGER ROUGH CUT

Pipe tobacco made by the Wellman Process and rough cut as Granger is, does not clog the pipe but stays lit, smokes longer, slower and cooler.

We believe this process is the reason for Granger being milder.

We know it adds something to the flavor and aroma of the good, ripe White Burley Tobacco that cannot be obtained in any other way.

We wish, in some way, we could get every man who smokes a pipe to just try Granger.

...in a common-sense package—10c

—doesn't clog a pipe

## German Club Will Meet at Brice House Tuesday, Feb. 19

Motion Pictures and Short Talks By Certain Members Will Constitute Program

Motion pictures and short talks by the members constitute the program for the meeting of the German Club next Tuesday evening at 7:00 in the Brice House apartment of Dr. Richard Kuehnemund, of the German department. According to an announcement today by Irvin Meginski, 36, the meeting will be open to all students interested in the civilization, rather than the political tendencies of Germany today.

### Interesting Program Planned

Scenes of the places where the Fourth Olympic Winter Games are to be held in 1936 are to be seen in the first film "Germany's Winter Playgrounds." Other short films are "Berlin" and "Along the Rhine—From Mainz to Coblenz." All are being supplied by the German Tourist Information Office, 665 Fifth Avenue, New York City.

Continuing the program are short talks by various members on "Student Life at Old German Universities" and "Transatlantic Flights on Schedule."

A prison concert at Sing Sing revealed talented blues singers among the lodgers. So much for a notion that these fellows never repeat.

Juniors—Archer, C. R.; Hissger, M. L.; Clark, G. Y.; Elckworth, L.; Fine, M. S.; Gessner, F. R.; Hays, J. L.; Johnson, C. L.; Mathers, D. H.; Nethken, W. R.; Rairigh, W. N.; Schley, R. M.; Solomon, H. B.; Weeks, H. R.; Meginski, I.

\*With credit having at least 1 A or 2 B's.

Sophomores—Brooks, H. L.; Clayton, H. K.; Crane, L. L.; Dow, T. F.; Giordano, R. J.; Harman, W. E.; Kopp, G. W.; Leslie, F. E.; Levin, R.; Lusby, T. F.; Miller, W. R.; Peace, C. F.; Schiff, C.; Shilbe, R. M.; Taylor, R. T.; (1 A, 2 B, 1 D); Wilson, J. C.

\*With credit having grades in two subjects of B or one subject of A.

\*Very creditable performance numerically in Group II, but the D prevents this rating.

Freshmen—Alexander, P.; Bachrach, D. N.; Bushong, J. H.; Christliff, S. M.; Cooper, G. C.; Conson, G. T.; "Over, T. C.; Earle, R. T.; Early, A. R.; Engler, J. D.; Henderson, R. C.; Hill, H. P.; King, W.; Lee, E. C.; McLaren, W. B.; Middleton, J. S. H.; Levy, A.; Moller, R.; Pindell, A. Y.; Ross, W. T.; Sadler, H. H.; Shryock, R. F.; Sommer, E. C.; Stevens, J. A.; Taylor, T. H.; Todd, W. N.; Townsend, F. J.; Waters, K. L.; Wuzgale, G. T. (Promoted to Sophomores); Keston, H. A. (Special).

\*With credit having grades in two subjects of C or one subject of B.

\*With credit having one grade of A and one of B.

Sir Stephen Killick, London's new Lord Mayor, is the six hundred and twenty fifth chief magistrate of the city since 1189.

## Williams, Barkman, Rairigh to Represent St. John's in Debate

Topic Concerns Prohibition of International Traffic in Arms and Munitions.

As a result of elimination contests held in the Great Hall on Monday, February 11, 1935, Theodore Williams, William Rairigh, and Elwood Barkman were selected to represent St. John's in intercollegiate debates with Hobart College, Maryland College for Women, and University of Richmond. President Woodcock pointed out the flaws in the various arguments presented, and expressed gratification at the remarkable improvement that he has noticed since the beginning of the year. The topic for all the debates will be: "Resolved, That the nations should prohibit the international traffic in armaments and munitions." St. John's will defend the negative in all of these debates.

### Schedule Planned

The participants have been working on the debate for some time. A practice debate was held in the Great Hall on Wednesday, February 13, 1935. Those who heard the debate were amazed at the ability displayed, and thought it evident that the coming meets with other debating teams will be successful. It is expected that the schedule will develop as follows:

Feb. 22—Maryland College for Women, at Latherville.

Mar. 29—Hobart College, at home.

(Indefinite)—University of Richmond, at home.

### LIBRARY TEAS

Thursday, February twenty-eighth President Amos W. W. Woodcock will speak on "The Law of the Freedom of Speech."

Thursday, March seventh Dr. Paul Roman from The Brookings Institute will speak on "The Future of the N.R.A."

## King William Players Rehearsing Nightly

(Continued from Page 1)

which whose experience as a director of several plays in Baltimore last Fall is proving most helpful to the cast. With but two weeks remaining before the actual performance of the play everyone in any way concerned with the production is bending every effort toward making "Children of the Moon" a worthy successor to "Biography" and other recent offerings by the Players.

### One Performance

Although there will be but one performance of the play, Sunday evening, March 3, nevertheless arrangements have been made whereby those persons who may find it impossible or inconvenient to attend at that time will be admitted to the "dress rehearsal performance" Sunday afternoon. This is not a regular performance and admission is only being permitted to accommodate those unable to attend in the evening. This special dress rehearsal will start at 2:30, and the admission price will be the same—forty cents.

Several of the colleges in the United States have changed their names. A partial list follows. The Agricultural and Mechanical College, Jonesboro, becomes Arkansas State College; John B. Brown College, Arkansas, becomes Chapman College; Evanston Bible School, Illinois, becomes Evanston College Institute; Colleges of the City of Detroit become Wayne University; St. John's College, New York, becomes St. John's University; Spokane University (a 4-year institution) becomes Spokane Valley Junior College (a 2-year institution); St. Stephen's College (of Columbia University) has become Bird College.

Because of the great number of fatal accidents in which cyclists are involved, Lady Astor has proposed in the British House of Commons that they be prohibited from crowded areas of large cities.

Opening of a new sun bath solarium on Lake Estelle, in Orlando Fla., gives this Central Florida city its first real chance to enjoy "Dr. Sun" with absolute privacy and comfort.

### More Plaids

The plaids seem to have invaded every article of the male dress, so it is only natural that the mufflers of the season should come in all types of checks and varieties of plaids. And, of course, they're all wool. It is predicted that these mufflers will soon become as important for winter dress as did the old solid-colored cashmere, which has been out of the fashion picture for some years. However, the colorings in these plaids are of the more neutral type, rather than of the over colorful variety.

### AT YOUR SERVICE

Any questions that you may have on what is correct wear will be answered by the New York fashion staff of Collegiate Digest. Address inquiries to: Fashion Editor, Collegiate Digest, P.O. Box 472, Madison, Wis.

Figures recently compiled by one of the leading insurance companies of the country in answer to the question "Does College Pay?" show that the average high school graduate goes to work when he is eighteen years old, reaches his maximum earning power of \$2800 a year when he is fifty years old and during his entire life he will earn approximately \$88,000. The college graduate does not go to work until he is 22 and reaches a maximum of \$8,500 per year at the age of sixty. His total life earnings will be \$180,000 or \$92,000 more than the high school graduate—\$28,000 for each of the four years spent in college.
