## Prospectus of the Academical Year,

1868-69.

THE authorities of ST. JOHN'S COLLEGE announce to its patrons and friends the subjoined prospectus of its operations during the Collegiate Year, beginning on the first Wednesday in October, 1868, and ending on the last Wednesday in July, 1869.

### Location and Access.

The College is pleasantly situated at Annapolis, on the banks of the Severn River, a few miles from the Chesapeake Bay, which is in full view. Its buildings, three in number, are large and well constructed for the accommodation of youth. Its adjacent grounds afford ample facilities for exercise, and the waters of the Severn for bathing and boating. The situation is eminently healthy.

Annapolis has Rail Road communications with Baltimore and Washington twice a day; daily steamboat communications with Baltimore, and telegraphic connections with all parts of the country.

### Course of Study.

The Preparatory Department of the College has three classes, entitled 1st, 2nd and 3rd, according to the grade of studies. Graduates of the 1st Preparatory Class, who pass a satisfactory examination, are qualified for admission into the Freshman Class of the College.

The Collegiate Department embraces three courses: 1st, the regular academic course, occupying four years, and pursued in the Freshman, Sophomore, Junior and Senior Classes, entitling the graduates of the Senior Class, who shall pass a satisfactory examination, to the degree of

*Bachelor of Arts.* 2nd, The Select Course, embracing studies in the different classes, according to the option of parents, and entitling the student, who shall sustain a satisfactory examination in any special study, to the degree of *Proficient* in that study. 3rd, The Post-Graduate Course, prescribed for students who aspire to the degree of *Master of Arts*, which is conferred only on such graduates of the regular academic course as shall pursue, for two years, at the College or elsewhere, a course of study assigned by the Faculty, and who shall furnish satisfactory evidence of their proficiency in said course, by submitting to the Faculty, at designated periods, such written theses as may be specifically required of each candidate for said degree. The degree of Master of Arts is not conferred *in course*, but only on the evidence of satisfactory attainments in advanced studies.

A course of instruction in military tactics and exercises is open to all students who voluntarily assume the duties of the military organization. In this department there are two classes. The members of the first class wear a uniform, and constitute the military companies proper. The members of the second class, though organized into companies, are not required to wear a uniform, but are exercised in such portions of the U. S. Tactics and free gymnastics, as will benefit their physical development, and make them desirable candidates for promotion into the 1st class.

### Time and Terms of Admission.

The regular examinations for admission into the College or the Preparatory Department are held on the Monday and Tuesday preceding the first Wednesday of October in each year. All candidates for admission are requested to be present on those days. Satisfactory evidence of good moral character must be furnished by each applicant, and if he comes from another College he must present a certificate of honorable discharge.

Candidates for the Degree of Bachelor of Arts, in order to obtain admission to the Freshman Class, must, unless

they have passed through the regular course in the Preparatory Department, sustain an examination in the following studies:

English Grammar; Modern Geography; Arithmetic; Algebra, to Quadratic Equations; Geometry, first two books; Hadley's or Kühner's Greek Grammar; Greek Reader; Xenophon's Anabasis; Harkness's Latin Grammar; Cæsar's Commentaries, or some equivalent; Sallust; Virgil; Latin and Greek Composition.

Candidates for admission to any higher class must be examined in all the previous studies of the class they propose to enter.

Students pursuing a Select Course may enter any classes for which they are fitted, the number of their studies being subject to the direction of the Faculty.

### Post-Graduate Course of Studies.

The Post-Graduate course of studies, extending through two years, and pursued at the College or elsewhere, is assigned by the Faculty to candidates for the degree of Master of Arts. This course will relate mainly to *open questions* in all departments of physical, literary, philological, or speculative inquiry, and theses in each will be prescribed to

candidates according to the current aspects of science and investigation in the most interesting branches of human study and thought. In the assignment of these theses regard will also be had to the favorite studies of the individual candidate, that the spirit of original inquiry in each may be duly encouraged.

### Examinations and Reports.

Monthly examinations are held on all studies in all classes at the close of every month. Examinations on the studies of the entire term or year are held at the close of each term or year.

Monthly reports respecting conduct and scholarship are rendered to the parents or guardians of students in the Preparatory Department. Semi-annual reports under both of these heads are rendered to the parents or guardians of all students in the Collegiate Department. Any pupil whose examinations, at the close of a term, shall evince an incapacity on his part to pursue, with advantage, the studies of the class to which he had previously been assigned, will have offered to him, at the opening of the next term, an opportunity to retrieve his lost position, and in default of doing so he will be reduced to a lower class.

### Public Worship.

The exercises of each day are opened with prayer in the College Hall.

All students are required to attend public worship on Sundays at such church as their parents or guardians may direct. The principles and duties of the Christian Religion will be constantly enforced in the teachings and in the discipline of the College, but no instruction whatever is given, or influence exerted, in the interest of any particular denomination of Christians.

### Terms and Vacations.

The Annual Commencement of the College takes place on the last Wednesday in July.

The College year begins on the first Wednesday in October, and ends on the last Wednesday in July. The year is divided into two equal terms.

The regular vacations extend from the last Wednesday in July to the first Wednesday in October; from the 23rd of December to the first Monday in January; and from Good Friday to the Monday following, both inclusive. The 22nd of February and the 4th of July are holidays, as also the Day of Public Thanksgiving, appointed by the Governor of Maryland, or by the President of the United States.

### Expenses.

The charge for the entire scholastic year, beginning on the first Wednesday in October and ending on the last Wednesday in July, is \$250.00

This amount covers all the ordinary college expenses except for text books, and must be invariably paid semi-annually *in advance*, that is \$125 at the opening of the first term in October, and \$125 at the opening of the second term, on the first of March following. This great reduction of expenses is rendered possible only by reason of the annuity (\$15,000) which the College receives from the State. No deductions will be made except for protracted absence, caused by sickness.

Books and clothing will be furnished at the lowest possible rates if funds shall be deposited by parents for this purpose.

The tuition fees of students who reside in Annapolis are as follows:

A deposit of \$5 is made at the opening of each year, by students who reside in the College, in order to meet the contingent expense of damage done to the College property.

Wilful damage will be made the ground of additional charge to be defrayed by the perpetrator.

### **Public Scholarships.**

A system of *one hundred and fifty State Scholarships* has been founded by the Board of Visitors and Governors of St. John's College on the annual donation of \$15,000 received by the College from the State. Each of these Scholarships entitles the holder, in whose name it is issued, to exemption from the payment of room-rent and tuition fees in any department of St. John's College.

Each Senatorial District of the State is entitled to six of these Scholarships, which are filled by the School Commissioners of each District; and in case more than six shall be nominated from any District, the Faculty will select the six best qualified to enter the College. All scholars thus selected are required to conform to the rules and regulations of St. John's College.

In addition to furnishing tuition and room-rent, the College authorities engage during the coming year to supply board in the College commons, including fuel, lights, washing and text-books, to any one who shall pay not exceeding one hundred and seventy-five dollars per annum; or if board can be secured in private families, or in clubs, at a lower rate, scholars will be permitted, upon the application of their parents, guardians or patrons to avail themselves of that privilege.

Books furnished to the holder of a State Scholarship, if damaged or lost, will be charged to him at their full cost.

Students admitted on the foundation of the State Scholarships are not required to make any deposit to meet the contingent expenses of damages done to the College property, but they will be held strictly accountable for any liabilities individually incurred on this score.
