UNIVERSITY OF MARYLAND.

GENERAL STATEMENT.

St. John's College has entered into an affiliation with the Schools of Law, Medicine, Dentistry, and Pharmacy of the University of Maryland.

The operation of these working relations is outlined as follows:

First. Seniors in St. John's College must do the five hours required work as specified in the schedule (page 37) for the Senior class. The remaining twelve hours may be supplied by elective studies in the Law School of the Maryland University as comprised in that school. Upon the satisfactory completion of this course the degree of Bachelor of Arts or Bachelor of Science is conferred upon such students at the end of the year. The Professional Degree may be reached in two years more. Students so electing must continue their formal registration in the college, though doing part of their work in the Law School.

Second. Students who have completed the Junior year in St. John's College and who have made an approved choice of electives, may, if they desire it, do the entire work of the Senior year in the Medical School of the University. If they successfully complete the work of the first year in the Medical School they are graduated with their class with the degree of A. B. or B. S. from St. John's College.

By taking advantage of this privilege a man may complete the Undergraduate and Medical courses in seven years.

During three of these years, or until he has completed the work of the Junior class, he is a resident student in St. John's College, and for four years he is a resident in the Medical School in Baltimore.

At the end of the fourth year he receives the A. B. degree, and at the end of seven years the M. D. degree, but credit from the Medical School cannot be accepted in subjects for which credit has already been given in the college of Liberal Arts.

The University of Maryland is represented by five departments, each having a distinct faculty of instruction.

1st. **The College of Liberal Arts** at Annapolis, Maryland. St. John's College, Annapolis, Md., founded in 1696, as King William's School, is by contract of affiliation styled and is recognized as the Department of Arts and Sciences. The curriculum leads to the degree of Bachelor, or Master, of Arts or Science.

2nd. **The School of Medicine**, in Baltimore, Maryland. This school was established in Baltimore, Md., in 1807, and offers a high grade course in medicine, leading to the degree of Doctor of Medicine, and extending over a period of four years. It represents the Department of Medicine.

3rd. **The School of Law**, in Baltimore, Maryland. This school was opened in 1822 and reorganized in 1865, and is designed by means of a course of study covering three years to qualify its students for the degree of Bachelor of Law, and for a successful practice of the law. It represents the Department of Law.

4th. **The Department of Pharmacy** was established in 1841 as the Maryland College of Pharmacy, and affiliated with the University in 1904. The school is designed to give students a thorough acquaintance with pharmacy, chemistry, materia medica, and pharmacognosy by means of lectures and laboratory training. The course leading to degree of Doctor of Pharmacy extends over two years.

5th. **The Department of Dentistry** was founded in 1882, and is designed to teach the art of dentistry as an integral part of the School of Medicine. The course of study leading to the degree of Doctor of Dental Surgery covers a period of three years.

ORGANIZATION.

The charter of St. John's College was granted in 1784, and the institution opened in 1789. But under another form and name it had been doing its work during nearly a hundred previous years, and is, therefore, one of the oldest colleges in the country. At the city of St. Mary's, then the capital of Maryland, as early as 1671, the Upper House of the General Assembly passed an Act "for founding and erecting a school or college for the education of youth in learning and virtue." This was followed by the Act of 1696, establishing **King William's School**, which was opened 1701. Here were educated some of the most distinguished sons of Maryland—physicians, lawyers, statesmen, clergymen—and pre-eminent among the brilliant number was William Pinkney, whose learning and eloquence have a national fame. **King William's School** was, in 1784, merged into St. John's College, which has thus been connected with the State of Maryland from the early times of colonial history. Francis Scott Key, author of our favorite national ode, and Reverdy Johnson, distinguished as a lawyer and a statesman, are among the alumni, and many others, scarcely less eminent, could be mentioned.

LOCATION AND ACCESS.

The college is pleasantly situated at Annapolis, on the banks of the Severn river, a few miles from the Chesapeake bay. Nothing in the country surpasses the picturesque beauty of its situation. The college green is spacious, amply shaded, and most attractive to the eye, while the campus, in the rear, is admirably adapted for sports. Bordering the grounds, "College Creek," a branch of the Severn, affords every facility for swimming and boating. Indeed, the situation combines every advantage desirable for a college. The buildings are large, commodious, and well adapted for purposes of both classical and technical education, and accommodate two hundred and fifty students.

Annapolis has hourly trolley communication with Baltimore and Washington, daily steamboat connection with the former city, and telephonic and telegraphic connection with every part of the country.

GENERAL INFORMATION.

GENERAL REGULATIONS.

A copy of the general rules of the college can be obtained upon application at the President's office.

All students are required to be present promptly on the opening day of the session, but no students except those having special permits from the Faculty will be allowed in the College buildings before the regular day of opening.

Each member of the Senior, Junior and Sophomore classes is allowed, in each term, as many absences from recitations in any study pursued by him in the class of which he is a member, as there are prescribed recitations per week in that study; and for each absence above the number thus allowed, he will be given zero as a recitation mark.

Each student of the Freshman Class is allowed in each term three absences from recitations, in each study in which four recitations per week are prescribed; two absences in each study in which three recitations are prescribed; and one absence in each study in which two recitations are prescribed.

Excepting these cuts he will be marked zero for each and every absence whatever from recitations, and shall also receive ten demerits if the excuse for the absence is not satisfactory. In this case all absences owing to prolonged illness may be considered by the Faculty, upon the recommendation of the President, or upon the certificate of a recognized physician.

ABSENCE FROM COLLEGE.

Absence of athletic teams, glee clubs, delegates to the fraternity conventions, etc., is made the subject of special permission, for which application must be made, in every case before the absence, to the Faculty.

All omitted exercises, allowed or excused, must be made up within one week after the resumption of college duties, at a time and place appointed by the instructor whose exercises were omitted. The responsibility in this matter rests with the student. For special reasons the instructor may grant an extension of the time

beyond one week. In all cases a student is held responsible for preparation on omitted work whenever involved in review or examination.

Omitted exercises, not allowed or excused (or in any case, if not made up), will be counted as failures in reckoning a student's standing.

COURSES OF STUDY.

The **Collegiate Department** embraces five groups of studies for undergraduates, each occupying four years, viz:

1. The Classical and the Latin-Scientific, both of which lead to the degree of Bachelor of Arts.
2. The Scientific, Mechanical Engineering and Civil Engineering courses, which lead to the degree of Bachelor of Science.

The scheme of study in the different groups, arranged for the sake of comparison, in parallel columns, will be found on pages 35 to 39. In order to obtain one of the above-mentioned degrees, a student must have completed satisfactorily the course as herein laid down, but for such as may not be studying for a degree, select courses will be arranged according to the option of the parents or guardians, subject to the approval of the Faculty. On the successful completion of such special courses, certificates will be given.

Post-graduate courses are arranged for those graduates who wish to become candidates for the Master's degree.

REMARKS ON COURSES.

It is to be seen that in the classical course, the study of Mathematics is discontinued after the Sophomore year, at which point the study of the sciences begins. The classical student will thus devote some time to scientific study, the particular branches being elective. Also, the student of the Latin-Scientific course, taking no Greek at all, and discontinuing Mathematics at the end of the Sophomore year, enjoys a fuller course of English, and begins the study of Science earlier than the classical student. In the Scientific and Engineering courses, in which neither Latin nor Greek is required, four years are given to Biology, Botany, Physics, Chemistry, and to Mathematics. Also, in the Scientific Course, four years are given to the study of English. A full course in both French and German is required for every degree.

No student will be permitted to discontinue any study, except at the close of the term, and then only at the **written** request of his parent or guardian.

Students pursuing a select course may enter any class for which they are fitted, the number of their studies being subject to the direction of the Faculty.

REQUIREMENTS FOR ADMISSION FOR SESSION 1911-12, WILL BE AS FOLLOWS: (14 UNITS REQUIRED.)

CLASSICAL COURSE.

Mathematics—(Counting as three units).

1. Arithmetic, including the Metric System.
2. Algebra, General Principles, Equations through Quadratics.
3. Plane Geometry, 5 books.

Text-books recommended for use in preparation, are Wentworth and Hill's High School Arithmetic, and Wells' New Higher Algebra and Wentworth's Plane Geometry.

English—(Counting as three units).

1. English Grammar and Composition, including spelling, grammar, punctuation, choice of words, and division into paragraphs.

2. Literature.

(a) Reading.—The candidate will be required to write a paragraph or two on each of several topics chosen by him from a considerable number set before him in the examination papers. This part of the examination will call for only a general knowledge of the substance of the works named below. As additional evidence of preparation the candidate may present an exercise book, properly certified by his instructor, containing composition or other written work.

The list for 1911 and 1912 follows:

Group I (two to be selected):

Shakespeare's *As You Like It*, *Henry V*, *Julius Cæsar*, *The Merchant of Venice*, *Twelfth Night*.

Group II (one to be selected):

Bacon's *Essays*; Bunyan's *The Pilgrim's Progress*, Part I; *The Sir Roger de Coverley Papers* in the *Spectator*; Franklin's *Autobiography*.

Group III (one to be selected):

Chaucer's Prologue; Spenser's *Færie Queene* (selections); Pope's *The Rape of the Lock*; Goldsmith's *The Deserted Village*; Palgrave's *Golden Treasury* (First Series), Books II and III, with especial attention to Dryden, Collins, Gray, Cowper, and Burns.

Group IV (two to be selected):

Goldsmith's *The Vicar of Wakefield*; Scott's *Ivanhoe*; Scott's *Quentin Durward*; Hawthorne's *The House of the Seven Gables*; Thackeray's *Henry Esmond*; Mrs. Gaskell's *Cranford*; Dickens' *Tale of Two Cities*; George Eliot's *Silas Marner*; Blackmore's *Lorna Doone*.

Group V (two to be selected):

Irving's *Sketch Book*; Lamb's *Essays of Elia*; DeQuincey's *Joan of Arc* and *The English Mail Coach*; Carlyle's *Heroes and Hero Worship*; Emerson's *Essays*; Ruskin's *Sesame and Lilies*.

Group VI (two to be selected):

Coleridge's *The Ancient Mariner*; Scott's *The Lady of the Lake*; Byron's *Mazeppa* and *The Prisoner of Chillon*; Palgrave's *Golden Treasury* (First Series), Book IV, with special attention to Wordsworth, Keats, and Shelley; Macaulay's *Lays of Ancient Rome*; Poe's *Poems*; Lowell's *The Vision of Sir Launfal*; Arnold's *Sohrab and Rustum*; Longfellow's *The Courtship of Miles Standish*; Tennyson's *Gareth and Lynette*, *Lancelot*; Browning's *The Lost Leader*, *How They Brought the Good News from Ghent to Aix*, *Evelyn Hope*, *Home Thoughts from Abroad*, *Home Thoughts from the Sea*, *Incident of the French Camp*, *The Boy and the Angel*, *One Word More*, *Herve Riel*, *Pheidippides*.

(b) Study.—This part of the examination pre-supposes a more careful study of each of the works named below. The examination will be upon subject-matter, form and structure, and will also test the candidate's ability to express his knowledge with clearness and accuracy. The books set for this part of the examination will be:

For 1911 and 1912: Shakespeare's *Macbeth*; Milton's *Lycidas*, *Comus*, *L'Allegro*, and *Il Penseroso*; Burke's *Speech of Conciliation with America*, or Washington's *Farewell Address* and Webster's *First Bunker Hill Oration*; Macaulay's *Life of Johnson*, or Carlyle's *Essay on Burns*.

History—(Counting as two units).

1. American History.—Montgomery's, or Fiske's, or McMaster's *History of the United States*, including Geography and elementary Civil Government.

2. Ancient History.—Morey's *Ancient History* or West's *Ancient World*, including Geography.

Latin—(Counting as four units).

Grammar, including Prosody; Cæsar, first four books of the *Gallie War* (or Rolfe and Dennison's *Junior Latin Book*); Virgil's *Aeneid*, six books; six *Orations of Cicero* (the four *Catalinian*, the *pro Manilia Lege*, the *pro Archia*); *Latin Prose Composition*; the translation of easy passages at sight from Latin into English.

The grammars of Allen and Greenough, Bennett, or Gildersleeve, are recommended for preparation. Arnold's *Latin Prose Composition*, lessons 1-23, or Jones' *Latin Prose Composition*, lessons 1-20, is recommended for preparation.

Greek—(Counting as two units).

Grammar; a thorough knowledge of declensions and conjugation of regular verbs.

Four books of Xenophon's *Anabasis*. For one book of *Anabasis*, one book of Homer may be substituted.

(White's *First Greek Book* recommended for preparatory study.)

LATIN-SCIENTIFIC COURSE.

The requirements for entrance are modified for this course as follows:

a. English, History, Geography, Mathematics and Latin, the same as for the Classical course.

b. A general knowledge of the elements of some natural science (Physics, Chemistry, Zoology, or Botany), such as may be gained from a course of one year of five recitations per week, or the elements of one Modern Language may be substituted for Greek, if desired.

SCIENTIFIC COURSE.

The requirements for entrance are modified for this course as follows:

1. a. Mathematics, English, History, and Geography, Latin or Greek, the same as for the Classical Course.

b. Science.—One year's work (of at least four hours per week) in any one of the following subjects: Botany, Physiology, Physical Geography, Chemistry, or Physics; or,

2. a. English, History, and Geography, the same as for the Classical Course.

b. French or German.—Two years' work (of at least four hours per week) in either.

c. Science.—The equivalent of two years' work (of at least four hours per week for each study) in one of the following subjects: Botany, Physiology, Physical Geography, Chemistry, or Physics.

d. Mathematics.—The entrance requirements for the Classical course, and the Mathematics of the Freshman year.

ENGINEERING COURSE.

The requirements for entrance are option 2 of the Scientific course.

ADMISSION CERTIFICATES.

Graduates from such high schools and academies as may be approved by the Faculty are admitted to the Freshman Class without examination on the presentation of certificates showing that they have completed the requisite amount of preparatory study, but, at any time during the Freshman year a student so admitted, may be dropped from the class in case his work is not satisfactory. Blank forms for certification will be furnished approved High Schools and Academies by the College. Certification by the Principal is to be made on these blank forms.

Candidates for entrance to an advanced class in any of the courses are required to pass examinations upon all studies of the course, up to the point at which they seek admission.

The College Faculty will not make itself responsible for providing instructions in subjects in which candidates for matriculation may be conditioned, except in Latin and Greek, and in these branches only in so far as the candidate shows diligence in his work, and a proper appreciation of the instruction provided.

EXAMINATIONS FOR ADMISSION.

The regular examinations for admission are given according to the following schedule

1911.

Thursday, Sept. 21st—9.00 A. M., Latin; 2.30 P. M., Greek.

Friday, " 22nd—9.00 A. M., English and History; 2.30 P. M., Science.

Saturday, " 23rd—9.00 A. M., Mathematics.

1912.

Wednesday, June 5th—9.00 A. M., Latin; 2.30 P. M., Greek.

Thursday, " 6th—9.00 A. M., English and History; 2.30 P. M., Science.

Friday, " 7th—9.00 A. M., Mathematics.

RE-EXAMINATIONS AND EXAMINATIONS OF
CONDITIONED STUDENTS.

Students having examinations to pass or conditions to make up will present themselves for examination according to the schedule of examinations for admission. Those failing to report on the appointed days will be held for their conditions and will not be allowed to proceed with their studies in a higher class.

Candidates for admission to any higher class must be examined in all previous studies of the class they enter.

FACULTY ADVISER.

I. Every student on entering the college shall be assigned by the President of the college to some member of the Faculty, who is to act as his adviser, and give him helpful counsel relating to his college life.

II. Each new student at the beginning of his first term is required to submit to his adviser, upon two printed forms, a list of his studies for the ensuing term. Each old student shall fulfil the same condition at the close of each term.

III. The adviser shall indicate by his signature his approval of the list of studies submitted, and shall then hand the cards to the Secretary of the Faculty, who shall see if all back work is included, and shall indicate his approval by his signature.

IV. The recitation rolls shall be made up from these cards alone, when they have been so approved. One card shall be retained by the Secretary of the Faculty and the other returned to the student.

TERMS AND VACATIONS.

The Annual Commencement of the College takes place on the third Wednesday in June.

The collegiate year begins on the third Wednesday in September and ends on the third Wednesday in June. The year is divided into two equal terms.

The regular vacations extends from the third Wednesday in June to the third Wednesday in September, from the 23rd of December to the first Monday in January, both inclusive, and from the Wednesday before Easter through the Wednesday after Easter. The day of Public Thanksgiving, appointed by the Governor of Maryland, or by the President of the United States is also a holiday.

DEGREES.

The following academic degrees are conferred by the College:

1. The degree of **Bachelor of Arts**, conferred after the satisfactory completion of the Classical course.
2. The degree of **Bachelor of Arts**, conferred in like manner upon graduates in the Latin Scientific course.
3. The degree of **Bachelor of Science**, conferred upon graduates in the Scientific course and upon graduates in the courses of Mechanical and Civil Engineering.
4. The degree of **Master of Arts**, conferred after the completion of the Post-Graduate course, and upon the recommendation of the Faculty.

Candidates for this degree are required to select at least two of the departments of study specified in this catalogue, and under the direction of the professors of these departments to pursue their studies for the two years of the Post-Graduate course, submitting to them such essays, or undergoing such oral or written examination, as may be required to test their qualifications for this degree.

Any graduate of the College who shall have been admitted a member of one of the learned professions, or who shall have obtained a diploma from any Law, Medical, Theological, or Scientific school, shall be entitled to the Master's degree, three years after his graduation. The degree of Master is not conferred **in course**, but only on evidence of proficiency in advanced studies as above indicated.

HONORS.

First and second honors on graduation day are given to those students, respectively, who shall have obtained the highest and next highest average mark in all studies from the beginning of the Sophomore year.

REGULATIONS FOR ACADEMICAL COSTUMES.

All candidates for degrees are required to wear, on Commencement Day, a black silk or stuff gown of the shape and pattern adopted by the Board of Visitors, also an academical cap of the usual pattern.

Graduates are also entitled to wear hoods of the following description:

B. A.—A hood of black stuff, lined with black silk, edged on the inside with a narrow border of old gold silk.

B. Sc.—A hood, as above, edged on the inside with cardinal silk.

M. A.—A hood of black silk with a full lining of old gold silk.

Ph. D.—A hood of scarlet cloth with a full lining of pale yellow silk.

L. H. D.—A hood of scarlet cloth with a full lining of old gold silk.

LL. D.—A hood of scarlet cloth with a full lining of cardinal silk.

D. D.—A hood of scarlet cloth with a full lining of white silk.

Members of the Faculty of St. John's College who have been graduated from some other college or university are entitled, by order of the Board of Visitors and Governors, to wear the same gowns and hoods, respectively, indicative of their degree, as those who are graduates of this college.

LITERARY SOCIETIES.

There are two Literary Societies (the Philokalian and the Philomathean) among the students, which afford opportunities for the cultivation of composition and debate. An oration is usually delivered before the societies, upon the Monday and Tuesday preceding Commencement Day, by some gentleman selected by them.

With regard to the above societies, the Faculty has decided:

1. No student shall enter any public literary and oratorical contest in connection with the college, who shall not have been a member of one of the literary societies for at least three-fourths of the time of his connection with the college.

2. No student shall have any public part in the exercises of Commencement Day, who shall not have been a member of one of the literary societies for at least one-half of the time of his connection with the college.

3. No student shall be graduated from the college, who shall not have made satisfactory adjustment of his financial obligations to the literary society of which he has been a member.

The **Collegian**, a weekly newspaper, is published by students of the College. Those students who serve upon the **Collegian** board, and satisfactorily fulfil their obligations, are awarded hours of credit in the English department.

PUBLIC WORSHIP AND RELIGIOUS INSTRUCTION.

The exercises of each day are opened with the reading of the Scriptures and prayer in the College Chapel.

During the period of a student's residence at college every opportunity will be afforded for the fullest developement of the Christian character. The study of Christian Evidence is assigned an important part in the college curriculum. All students are required to attend public worship on Sundays, and at other times at such church as their parents may direct. Arrangements have been made by the college authorities with the clergy of the several denominations of Annapolis, by which students may enjoy the advantages of special instruction in the tenets of their respective churches.

The President holds a Bible Class every Sunday morning in the College Chapel from 9.45 to 10.30, to which all students of whatever denomination are invited.

THE COLLEGE YOUNG MEN'S CHRISTIAN ASSOCIATION.

This organization is strongly represented. A large majority of the students of the college take an active interest in promoting the objects of the Association, and it is generally recognized as contributing in many ways to the welfare and safety of young men freed from parental restraint. A comfortable suite of rooms is provided in the college buildings for the use of the Association as a place of meeting for religious purposes and as a reading room.

EXAMINATIONS.

Written examinations on the studies of the entire term are held at the close of each term. The marks of these examinations are combined with the marks for daily recitations, to make up the student's standing for the term. Any student, whose examinations at the close of a year shall evince an incapacity on his part to pursue with advantage the studies of the class to which he belongs, will have offered to him on the first day of the next year, an opportunity to retrieve his lost position, and in default of doing so, will be reduced to a lower class.

A student deficient in knowledge, or persistently neglectful of any study, is at any time liable to be reduced to a lower class in that study.

No special examination is granted except upon a physician's certificate of sickness on the day of examination, or other cause which the Faculty may accept as adequate ground.

MERIT ROLL.

A merit roll is kept, and each recitation is noted on the grade of from 0 to 5. In order to pass from a lower to a higher class in any study, each student must obtain an average of 3.0 on the recitations and on the examinations of the whole session. This average is arrived at by taking twice the recitation mark, adding thereto the examination mark and dividing the result by 3.

$$\left[\text{Formula, } \frac{2R + E}{3} = \text{average.} \right]$$

Provided also, that the examination mark in that study be not less than 2.75. In all examinations granted under special conditions, a mark of 3.25 is required as a satisfactory or passing mark.

Demerits will be given for absences not excused, and for violations of college regulations. Reports respecting conduct and scholarship will be sent every month to the parents or guardians of students. Whenever any student of the Collegiate Department

has 100 demerits for any term, or 150 for the year, he must leave the institution. Members of the Freshman class are allowed 125 demerits for the first term, and a maximum of 200 for the whole year.

Certificates of Distinction of the First and Second Grade are presented to those students in any class who shall have obtained an average of 4.5 and of 4, respectively, in all their studies, and shall have been satisfactory in conduct for the academic year.

Students who have obtained an average of 4.5 in any one branch of study are honorably mentioned; but no student is honorably mentioned, nor is any certificate or degree conferred upon any student who has failed to receive the passing mark (3) in any study for the academic year.

HONOR SYSTEM.

Resolutions, approved by the Faculty, have been adopted by the whole body of students to introduce and enforce the honor system in the recitation rooms, and also during examinations.

EXEMPT SYSTEM.

The Faculty has approved the following plan of exemption from term examinations. A term average of 4.00 shall be a minimum grade on which a student may be exempted from term examinations. Under this system no zeros in excess of cuts may be excused, but students whose grades have been lowered by necessary absence may, under direction of the Instructor, make up their work, and the zeros shall then be of no effect.

ATHLETIC ELIGIBILITY.

No student who has failed in the preceding month to reach an average of 3.00 in each study, in a course amounting to twelve hours per week, shall be allowed to represent the college on any athletic team in any public contest.

It is provided, however, that any student so debarred, may, at the end of two weeks, require from the professor of that subject for which he was debarred, his average for these two weeks. If the average is three, or above, for that time, then the disability shall be removed.

DEPARTMENTS.

The course of instruction embraces the departments following:

- I. **Mental and Moral Science.**—Including Metaphysics, Ethics, Natural and Revealed Religion and the Evidences of Christianity.
- II. **History and Economics.**—Including Mediæval, Modern, and Constitutional History; and Economics, Politics, and Sociology.
- III. **English.**—Including English and American Literature, English Language, Composition, Debating and Oratory.
- IV. **Ancient Languages.**—Including the Greek and Latin Languages; Antiquities and Mythology, and the History of Greek and Roman Literature.
- V. **Modern Languages.**—Including the French and German Languages and Literature.
- VI. **Mathematics.**—Including Pure Mathematics, Mechanics, and Surveying.
- VII. **Engineering.**—Including Civil and Mechanical Engineering.
- VIII. **Chemistry and Physics.**
- IX. **Biology and Geology.**
- X. **Law.**—Including Constitutional and International Law.
- XI. **Military Science and Tactics.**

DEPARTMENT OF MENTAL AND MORAL SCIENCE.

Ethics.—The study of ethics, which extends through the first term, embraces the study of psychology, also the consideration of pure morality and positive authority, the latter including civil government, with the doctrine of the State, divine government and family government.

Christian Evidences.—A course of study on Theism, Christian Evidences, and the religions of the world extends through the second term of the Senior year, two hours per week.

DEPARTMENT OF HISTORY AND ECONOMICS.

PROFESSOR STRYKER.

In this department instruction will be given:

History I.—Mediæval and Modern History to the French Revolution. Text-book: West's Modern History. Written and map work correlated with text. Three hours a week. Required of all Freshmen throughout the year.

History II.—Modern History from the French Revolution. Text-book and method as in History I. Two hours a week. Required of all Sophomores throughout the year.

History I and II form a general survey of the political, economical and social development of modern European civilization as a foundation for more advanced and specialized study.

History III.—The Origin and Development of American Political Institutions. Lectures with specific readings and reports of students, two hours weekly. Elective for students that have fulfilled the requirements of History I and II.

Economics I.—Principles of Political Economy. Text, Ely and Wicker's Elementary Principles of Economics. Recitations, informal lectures, and class discussions. Two hours weekly; required of all Juniors throughout the year.

Economics II.—Lectures on questions of the day in Economics, Sociology and Politics. Specific readings and reports essential. Two hours weekly throughout the year. Elective for students that have completed Economics I.

DEPARTMENT OF ENGLISH, LOGIC AND ORATORY.

PROFESSOR ARMSTRONG.

The work of the year consists of the following:

English I.

(a) Rhetoric and Composition. A study of Words, Sentences and Paragraphs; of Description, Narration and Exposition. Weekly themes.

(b) Elocution. Training in proper pronunciation, gesture, and platform methods. Three hours a week. Required of all Freshmen.

English II.—History of English Literature from its beginning to 1700. In the first term especial attention is given to Beowulf, Chaucer, Popular Ballads, and Spencer; in the second term to Shakespeare, Milton and Bunyan. Monthly essays required. Two hours a week. Required of all Sophomores.

English III.—History of English Literature, 1700-1900. Lectures, Reading Course, and Essays. Two hours a week.

English IV.

(a) American Literature. Lectures. Supplementary reading, and reports.

(b) English Prose Fiction. Historical and Structural Study of the Novel and the Short Story. Lectures, Assigned Readings, and original papers. Two hours a week. Elective for Juniors and Seniors after completion of English III. (a) and (b) are given in alternate years.

Logic.—Processes of deductive and inductive reasoning; the syllogism, fallacies. The principles of formal logic are constantly applied in the solution of problems.

Or

English Philology.—Historical sketch of the English language, with attention to the changes in word formations, orthography, and phonology. Two hours a week during the first term. Required of all Juniors.

Elocution.—Principles of public speaking. Drill in the management of the voice, articulation, inflection, emphasis, and gesture. Special training for prize contest. Two hours a week during second term. Required of all Juniors.

Oratory.—Study of oratorical models, practice in oratorical composition and delivery. Special training for oratorical contests. One hour a week. Required of all Seniors.

DEPARTMENT OF ANCIENT LANGUAGES.

LATIN LANGUAGE AND LITERATURE.

PROFESSOR WHITE.

PROFESSOR RIPPERS.

Latin.—The study of Latin extends throughout the Classical and Latin Scientific courses.

In the work of the Freshman year special attention is given to the structure of the Latin sentence, as illustrated in select portions of the writing of Cicero, Livy, and Horace, and as unfolded through frequent written and oral exercises in Latin prose composition. But the chief object of the course is the study of Latin literature, through a critical reading of selections from the most important authors in historical succession.

Latin I.—Four hours per week.

Freshmen, first term, Livy: Selections from Books XXI and XXII. Latin Prose Composition.

Second term, Tacitus: Agricola, and Germania. Latin Prose Composition.

Latin II.—Three hours per week.

First term, Odes and Epodes of Horace; Mythology and Prose Composition.

Second term, Letters of Cicero, Collateral Reading, and Reports on Special Topics, and Prose Composition.

Latin III.—Two hours per week. Collateral readings, and Reports on special topics.

First term, Satires of Juvenal.

Second term, Cicero: De Officiis.

Latin IV.—Two hours per week. Lectures on Latin Literature and Collateral readings.

First term, Annals of Tacitus.

Second term, Lucretius: De Rerum Natura.

GREEK LANGUAGE AND LITERATURE.

PROFESSOR WHITE.

Greek.—The student will have daily exercise, both orally and at the blackboard, in translating into Greek. Such a drill will be given upon every point of grammar, that this subject will be thoroughly mastered. Lectures will be given in the Freshmen and Sophomore classes upon Greek Mythology, Manners and Customs, and History of Greek Literature and Greek Art. During the Sophomore and Junior years daily practice will be had in reading at sight. In addition to the prescribed course, one weekly exercise, illustrative of the style and the vocabulary of the author read, will be required. An advanced course may also be pursued in the Senior year.

Greek I.—Freshman Class. Fours per week.

Homer's Iliad and Odyssey, first term.

Xenophon's Memorabilia, second term.

Prose Composition throughout the year.

Greek II.—Sophomore year. Three hours per week.

Herodotus, Books VI and VII, first term.

Plato's Apology and Crito, second term.

Prose Composition throughout the year.

Greek III.—Three hours per week.

Demosthenes: De Corona; first term.

Aristophanes and Euripides, second term.

Greek IV.—Two hours per week.

Sophocles, and lectures on the Attic Theatre, first term.

Aeschylus; Review of Greek Literature; second term.

DEPARTMENT OF MODERN LANGUAGES.

PROFESSOR SIRICH.

German I.—Four hours per week.

- a. Vos' Essentials of German.
- b. Reading: Gerstäcker's Garmelshausen.
Heyse's L'Arrabbiata.
Storm's Immensee.
Zschokke's Der Zerbrochene Krug.
- c. Prose Composition throughout the year.

German II.—Three hours per week.

- a. Reading: Heyse's Die Hochzeit auf Capri.
Wildenbruch's Das Edle Blut.
Baumbach's Sommermärchen.
Wilhelm's Einer musz heiraten.
- b. Prose Composition throughout the year.

German III.—Two hours per week.

- a. Reading: Keller's Kleider machen Lente.
Riehl's der Fluch der Schönheit.
Sudermann's Teja.
Heine's Harzreise.
Schiller's Wilhelm Tell.
- b. Private reading.
- c. Prose Composition throughout the year.

OR

An elective course in Scientific German for those students who have completed German II, or its equivalent. Two hours per week.

Lassar-Cohn's Die Chemie im täglichen Leben.
Walther's Allgemeine Meereskunde.

Von Helmholtz's Über Goethe's naturwissenschaftliche Arbeiten.

French I.—Four hours per week.

- a. Grammar: Fraser and Squair, Part I.
- b. Reading: Dumas' L'Evasion du Duc de Beaufort.
Verne's Les Enfants du Capitaine Grant.
Labiche's Le Voyage de M. Perrichon.
Pailleron's L'Étincelle.
- c. Prose Composition throughout the year.

French II.—Three hours per week.

- a. Modern French Writers: Dumas, Daudet, Maupassant,
Coppée, Vigny, Sand.
- b. Classics: Corneille's Le Cid.
Molière's L'Avare.
Racine's Andromaque.

- c. Prose Composition throughout the year.
- d. Private reading.
- e. Outline of French Literature.

DEPARTMENT OF MATHEMATICS.

PROFESSOR WADDELL.

ASSISTANT PROFESSOR WOODCOCK.

Mathematics I.—Four hours per week.

Algebra. Chapters 24-37 of Wells's New Higher Algebra. Simultaneous equations of the second degree, the theory of quadratic equations, zero and infinity, indeterminate equations, ratio and proportion, variations, progressions, the binomial theorem for positive, negative and fractional exponents, undetermined coefficients, logarithms, compound interest and annuities, permutations and combinations.

Geometry. Wentworth's Solid Geometry. Solution of original problems.—Professor Waddell and Assistant Professor Woodcock.

Mathematics II.—Four hours per week.

This course includes Plane and Spherical Trigonometry and Analytic Geometry.

Text-Books: Lyman and Goddard's Plane and Spherical Trigonometry; Wentworth's Analytic Geometry.—Professor Waddell and Assistant Professor Woodcock.

Mathematics III.—Three hours per week.

This is a course in the Differential and Integral Calculus.

Text-Book: Hardy's Differential and Integral Calculus.—Professor Waddell.

Mathematics IV.—Two hours per week.

This comprises a more advanced course in the Calculus and in Algebra.—Professor Waddell.

Descriptive Geometry.—Three hours per week, one term.

Text-Book: Faunce's Descriptive Geometry.—Professor Waddell.

Surveying.—Three hours per week, one term.

This course includes land, topographical, railway and mining surveying, the use of instruments and practical exercises in the field.—Professor Waddell.

Text-Book: Davis-Van Amringe's Surveying.

Mechanics.—Three hours per week.

Text-Book: Maurer's Technical Mechanics.—Professor Waddell.

DEPARTMENT OF MECHANICAL ENGINEERING.

PROFESSOR EIDSON.

MECHANICAL DRAWING.

Drawing I.

Drawing practice with instruction in the use of instruments embracing free-hand lettering; standard conventions; geometrical construction; isometric and cabinet projections; orthographic projections; sections; intersection of surfaces; developments; special conventions and processes including line-shading, screw-threads, bolts, nuts, etc.; free-hand working sketches along with complete notes of the year's work and detail drawings of machine parts from models.

Text-Book: Tracy's Introductory Course in Mechanical Drawing with additional notes.

Freshman six hours (counts three).

Drawing II.

A continuation of working drawings from models accompanied by free-hand sketches made by the student; tracing; blue printing; topography and map drawing.

Sophomore six hours (counts three).

MECHANIC ARTS.

Wood-working including practice with hand tools and simple bench exercises. Care and use of power tools. Forging; bench work; chipping and filing; practice in the use of iron working machinery, including elementary drilling, turning, thread chasing and finishing plane surfaces.

Freshman four hours (counts two).

MECHANICS OF MACHINERY.

Kinematics.

Analysis of Mechanisms; instantaneous centres and centrodes. Linkages; gearing; trains, plain and epicyclic; design of tooth forms, involute and cycloidal; bevel gears; cams; worms and pulleys. Graphical Determination of Velocities. Velocity Polygons and Diagrams.

Text-Book: Schwamb and Merrill's Mechanism.

Junior, first term, four hours (counts three).

EXPERIMENTAL ENGINEERING.

Materials.

Materials of construction. Outlines of metallurgy of iron and steel; properties of metals, the influence of impurities and methods

of working; alloys; stones; cement; concrete and strength of materials.

Text-Books: Smith's Materials of Machines, and additional notes.

Junior, second term, three hours recitations and lecture.

Note.—To be completed in half the term, supplemented by Graphic Statics the remainder of the term.

MACHINE DESIGN.

Graphic Statics.

Elementary principles; use of funicular and force polygons in solution of problems; determination of stresses in roof and bridge trusses; moving loads.

Text-Book: Hoskin's Graphic Statics.

Junior, second term, four hours (counts three).

Note.—To be taken up the last half of the term after the completion of Materials.

Machine Design.

Constructive materials; design of machine elements as determined by safe stresses in materials; straining action in machines and resistance offered by machine elements, as hollow cylinders, beams, columns, springs, etc. Form and dimensions of structural and machine fastenings; lubrication and the design of journals and bearings; axles and shaftings; shaft-couplings; clutches; friction and tooth gearing; belt, rope and chain gearing. Problems relating to simple machines and to transmissive machinery.

Text-Book: Unwin's Machine Design (Vol. I).

Senior, four hours (counts two).

Thesis.

Each candidate for graduation must prepare a thesis consisting of original work along some engineering line. The subject must be selected by the first of December of the Senior year, and approved by the Professor in charge. This course leads to the degree of Bachelor of Science in Mechanical Engineering. Two hours credit is allowed for this work.

DEPARTMENT OF CIVIL ENGINEERING.

PROFESSOR WADDELL.

PROFESSOR EIDSON.

ASSISTANT PROFESSOR WOODCOCK.

I. Drawing I. and II.—Prof. Eidson.

As outlined in Mechanical Courses, page 39.

II. Descriptive Geometry.—Three hours, one term.—Prof. Waddell.

The descriptive geometry of projections, intersections and developments. Faunce's Descriptive Geometry.

III. Land Surveying.—Three hours, one term.—Prof. Waddell.

Theory and computation of areas, dividing land, and determining height and distances. Topographic surveying, theory of the plane table. Triangulation. Leveling. Computation of earthwork. Mining surveying.

IV. Railroad Surveying.—Three hours, one term.—Prof. Eidson.

Reconnaissance, preliminary location methods, curves and turn-outs. Location of line with preparation of profiles and maps.

Text-Book: Allen's Railroad Curves and Earthwork.

V. Mechanics.—Three hours, two terms.—Prof. Waddell.

Maurer's Technical Mechanics.

VI. Railroad Construction.—Three hours, one term.—Prof. Waddell.

Survey, earthwork, trestles, tunnels, culverts, minor bridges, ballast, ties, railroad fastenings, rolling stock, operating expenses, curvature, grade, improvement of old lines.

VII. Hydraulics.—Three hours, one term.—Asst. Prof. Woodcock.

Flow of water in pipes, mains, ditches, canals, sewers, streams, rivers. Measurements of the flow of water by orifices, weirs, current metres. Measurement and estimate of cost of water power.

Text-Book: Merriman's Hydraulics.

VIII. Highway Engineering.—Three hours, one term.—Asst. Prof. Woodcock.

Locations of highways, establishment of grades, computation of earthwork, maintenance of roads.

Text-Book: Morrison's Highway Engineering.

IX. Bridges.—Two hours, one term.—Prof. Waddell.

Calculation of stresses in and details of bridges and roofs.

X.—Each candidate for graduation must, in the Senior year, present as a thesis the execution of some problem in engineering work, giving plan and specifications.

This course when completed will lead to the degree of Bachelor of Science (in Civil Engineering).

DEPARTMENT OF PHYSICS AND CHEMISTRY.

DOCTOR CECIL.

Physics I.—Four hours, throughout Junior year. Textbook.—W. Watson.

First Term—Discussion of the general principles of Mechanics and Properties of Matter—Energy, Physical Quantities, Units—Fundamental and derived (Units of Length, Time, Work, Angular

measurements, etc.) Kinematics, Motion of Translation, Rigid Bodies and Periodic Motion. Work and Energy, Machines, Gravitation; Properties of Gases, Liquids, and Solids. Heat—Thermometry, Calorimetry, Conduction, Radiation and the Mechanical Theory. A thorough discussion of Wave—motion, as applied to the above, and Sound—propagation of, Musical Scale, vibration of rods, plates, strings and columns of gas.

Second Term—Light—Interference, Photometry, Dispersion, Color Sensations, Polarization and Double Refraction.

Electricity and Magnetism.—

During this term a course in Magnetism and Electricity is given which includes a general discussion of Electro-Statics; Electrical Energy and Capacity. The Electric Current, Thermo-Electricity, Electro-Magnetism, Electro-Magnetic Induction, Electrolysis, Electromotive Force of Cells, and passage of Electricity through Gases—Electric Units, Ohm's Law, The Roentgen or Tri-Ultra-Violet Rays, their nature, applications, &c. Wireless Telegraphy, Electromagnetic Waves, Electrical Machines, Measuring Instruments, Arrangement of Electric Cells, Electrical Work, Direct and Alternating Currents, Lighting, Heating and the General Theories.

The above work is illustrated by experiments according to the Text, and Problems are set requiring reference to original sources for methods of solution.

This course is supplemented by two hours of laboratory work per week through the year. Manual of Experiments by Ames and Bliss.

Physics II.—Two hours a week through the year.—Doctor Cecil.

Lectures, includes a discussion of the more important problems of Electrical Science:—Dynamics, Potential, Thermo-electrics, Methods of generating and utilizing electric currents, Theory and working of dynamo-electric machinery, Design and calculation of alternating current machinery, Central Station design and equipment, Theory and precision of measurements—taking, recording and reducing observations. This Course is especially useful to students who are preparing for Service examinations, Text-book, Practical Electricity, by C. Walton Swoope.

Chemistry I.—Three hours per week, with two hours of Laboratory Work counting one hour.—Dr. Cecil.

The first term of the Sophomore year is devoted to the study of General Chemistry. Remsen's College Chemistry is the text-book used. During this term the students are familiarized with the general principles and theories of Inorganic Chemistry, illustrated by appropriate experiments. Each student is provided with a desk and the necessary reagents and apparatus.

Students are required to perform personally all the experiments as arranged by Remsen in the above named text-book, under the direct personal supervision of the director. Special attention is given to this course and every endeavor will be made to keep it abreast with the requirements of current Chemical Science. Additions in the way of apparatus are being constantly made, and a Chemical Library, containing the latest and most necessary books, is at the disposal of the student. The total Laboratory expenses are assessed at \$7.50 per term, and must be paid in advance of the course to the Treasurer of the College.

During the second term of the Sophomore year the subject of Organic Chemistry is taken up. Lectures, illustrated by experiments, are given throughout the entire term. The text-book is Remsen's Organic Chemistry, which is used as a basis for both lectures and laboratory work. In view of the fact that many students, who intend making medicine or pharmacy their profession, desire Organic Chemistry; special attention will be given to their needs in this course, in order that they may secure more detailed chemical information than schools of medicine and pharmacy usually are able to give. In addition to class work in Organic Chemistry, a course is also given in Qualitative Analysis, combined with a course in Organic and Inorganic Preparations. The text-books used are Renouf's Inorganic Preparations and Stoddard's Qualitative Analysis. The above work is finished at the end of the first term of the Junior year.

During this term students are required to balance equations representing the reactions of reagents and metals, and from a chemist's standpoint to enquire into these reactions and understand the scientific reasons for what they observe.

Chemistry II and Chemistry III.—Counting three hours per week. For such students as desire to take Advanced Chemistry, there is provided a course beginning with the second term of the Junior year and continued throughout the Senior year, consisting of laboratory work in Quantitative Analysis, Manipulation of Chemical Balance, Calibration of Eudiometer, Correction of Gas Volumes for Pressure, Temperature and Water Vapor. Calibration and Correction of Apparatus for the Measurements of Liquids, Determination of Molecular Weights and Specific Gravity, Test of the Purity of Butter, general determinations of Ores, Acids and the Elements, and reading in Theoretical Chemistry. Provision is also made for students desiring instruction in special lines of chemical work. The Laboratory expenses for the Senior year are \$7.50 per term. For the advanced course the expenses are about the same.

Special attention is called to the amount of these expenses.

They average less than the usual amount charged, and it is believed that no college in the country affords its students equal opportunities at so small a cost.

DEPARTMENT OF BIOLOGY AND GEOLOGY.

DR. MCGLONE.

Biology I.—General Biology, an introduction to the Biological Sciences; requirement for the study of Medicine. Chemistry and Physics required for admission. Text-Books: Elementary Biology, Parker, published by Macmillans; Biology of the Frog, Holmes, published by Macmillans. Lectures, recitations, and laboratory exercises. Four hours credit. Laboratory fee, \$5.00 a term.

Biology II.—Advanced Biology. Zoölogy; Comparative Anatomy of the Vertebrates and Embryology; or, Botany; Plant Morphology and Plant Physiology. Biology I required for admission to Biology II. Laboratory exercises, lectures, and conferences. Three hours credit. Laboratory fee, \$5.00 a term. Students who intend to pursue the professional study of medicine are advised to take both Biology I and II.

Geology.—Introduction to Geology. Text-Book: Elements of Geology, Blackwelder and Barrows, published by the American Book Co. Recitations and field work. Three hours credit. Laboratory fee, \$1.00 a term.

DEPARTMENT OF LAW.

LIEUTENANT FISHER.

Constitutional Law.—Text-book: Andrews' Manual of the Constitution. For reference Cooley's Constitutional Law is used. Reference will be made to important decisions as rendered when they may afford additional illustrations of the principles of Constitutional Law. The subject will be taken up in the first term of the Senior year.

One hour per week during first term:

International Law.—Text-book: Davis' International Law. For reference Woolsey's International Law is used. Events of recent International Law, will be discussed. The subject is taken up in the second term of the Senior year.

One hour per week during second term:

The Commandant in charge of the Military Department is an officer of the Regular Army.

The Military exercises are confidently recommended to parents and guardians as a means of giving to the students an erect and soldierly bearing, of teaching them habits of neatness, order and discipline, prompt and ready obedience, and of affording a systematic and healthful exercise on the drill grounds.

All students, except those physically disqualified, are required to attend the drills, and for those who apply to be excused because of physical disability, a physician's certificate will be required.

This college is very advantageously located, as to its surroundings for the benefit of the student-body. From a military point of view they have the privilege of witnessing the drills and other military exercises, both of the United States Naval Academy and of the United States Marine Corps, the grounds of which reservations adjoin those of the college.

A most cordial interchange of social courtesies exists between the midshipmen and the student body of St. John's College.

The names of three students most distinguished for proficiency in this department are reported each year to the Adjutant General of the Army at Washington, D. C. These names are published in the yearly Register of the United States Army.

All graduates of the Senior class whose records prove them to be worthy, are reported to the Adjutant General of the State for State and National Guard officers. The following named cadets were reported in 1910 as the most distinguished: H. C. Ruhl, R. P. Hartle, H. E. Wilson.

The officers and non-commissioned officers are selected by the Commandant of Cadets, with the approval of the President of the College. All commissioned and a few higher non-commissioned officers are taken from the Senior class.

The first sergeants and duty sergeants are taken from the Junior class, and the corporals from the Sophomore class. Captains commanding companies select their own first sergeants, duty sergeants and corporals, subject to the approval of the Commandant.

PRACTICAL INSTRUCTION.

The practical instruction consists in a full hour's drill five times a week; quite frequently more time is expended. The course comprises school of the soldier, company and battalion, close and extended order; all ceremonies, street parades, practice marches on country roads, to secure a practical knowledge of advance and rear guards, outposts duties, etc.

Military setting-up exercises, calisthenics and rifle drill form a very beneficial part of the course.

The battalion has been armed with the modern U. S. Krägg-Jorgenson rifle, calibre 30, and new equipments. During January and February, when the weather is inclement, they receive instruction in gallery practice in the armory. The target range work this year will consist of firing at 200, 300 and 500 yards and a skirmish run.

THEORETICAL INSTRUCTION.

This comprises recitations in the "Infantry Drill Regulations" (1904); "Manual of Guard Duty," portions of the "U. S. Army Regulations," "Small Arms Firing Regulations" and Field Service Regulations, a series of short lectures upon important military subjects, such as military courtesy, the grave responsibility of all officers in the army, and how to care for a command to keep it healthy.

St. John's College has been designated by the War Department as one of the six colleges in the United States which have attained the highest excellence in the Military Department, and in consideration of this distinction, members of the Senior class may receive appointments for commissions in the Regular Army.

CONCERNING UNIFORM AND REGULATIONS.

The uniform is required to be worn at all times, and all college students are required to provide themselves with it.

To insure uniformity in material and pattern, it is required

that all uniforms be made under a contract which has been entered into.

The uniform of the corps of cadets is a modification of that worn at the U. S. Military Academy, West Point, N. Y., and is as follows:

For the battalion proper (consisting of all college students, and those pupils of the Preparatory Department of sufficient size), blouse and trousers of grey cloth. (The cost of the blouse is \$9.50; trousers, \$5.75.)

For all students, regulation cap of grey cloth, with ornaments, consisting of a gold shield and eagle with the letters "S. J. C." on bar. (Price, \$2.25.)

The purchase of the above is compulsory, and must be paid for when ordered. In addition thereto, students are required to provide themselves with a dress coat costing \$10.00 and with the military overcoat, of dark blue cloth, double breasted, ornamented with frogs, costing \$18.00. A grey shirt and gum shoes are also parts of the uniform. As students are required to appear in uniform at all times, parents should omit the purchase of articles of civilian dress.

It is suggested to parents that the overcoat may properly be worn with civilian dress and with the uniform, thus obviating the necessity of the purchase of two overcoats. All these parts of the uniform have been found to be very substantial, becoming, serviceable and of moderate price. No student will be permitted to wear parts of the uniform with parts of civilian dress.

No uniform will be accepted until it has been inspected and approved by the President of the College or by the Commandant of Cadets.

Chevrons for officers and non-commissioned officers will be of black tubular braid on grey ground.

Competitive drills and target practice are held at the close of the session. The best drilled company is designated as the "Color" Company, and the colors are borne by that company in battalion formations during the ensuing year.

ANNUAL ENCAMPMENT.

It has been the custom during the past years to have an annual encampment. The lessons learned by the cadet body at these encampments, as to field and target range work, castrametation, military hygiene, guard duty, etc., constitute a satisfactory completion of the four years military work at the College. This encampment work is of such a great value to every cadet that it is essential for every member of the cadet battalion to be present at this annual encampment.

There is also a small annual expense in the Literary Societies.

Funds of students may be deposited with the President of the College, or with some other member of the Faculty, who will dis-

burse the funds thus received in accordance with instructions he may receive from the parent or guardian.

Students should be especially warned of the risk incurred by keeping money in trunks or other receptacles in their rooms.

GENERAL DETAILS ABOUT EXPENSES.

The tuition charges for day scholars, including residents of Annapolis and students from other parts of Maryland and from other States, not lodging and boarding in the college halls, are \$45.00 per term in the Collegiate Department.

The annual college session consists of two terms, the first ending on the 8th of February, and the second on the third Wednesday of June in each year. All the college charges are required to be paid in advance, at the beginning of each term; and no deduction will be made except for absence caused by protracted illness. No student will be matriculated, nor will his name be entered upon the rolls of any term, unless he shall have presented to the President a receipt from the Treasurer of the College for all dues and arrearages, including a fee of \$5 for matriculation, and no diploma will be awarded unless the candidate shall have presented to the President a like receipt including a fee of ten dollars for a diploma. For the expenses of Senatorial scholars, see page 67. Every boarding student is required to deposit with the Treasurer a fee of \$1.50 per term, to be paid by him to such church as the student may attend. An additional charge of \$5.00 per term will also be made upon all students for use of the gymnasium, for instruction in gymnastic exercise, and for membership in the Athletic Association. (See page 58.)

Wilful damage, or damage resulting from carelessness, will be made the ground of additional charge, to be defrayed by the perpetrator.

The Treasurer shall require a deposit of \$5.00 from boarding students as a guarantee against wilful damage to college property to be returned at the close of the session, less any charges that may have been assessed against them during the college year.

All students holding scholarships are required to lodge in the college halls, and those holding Senatorial scholarships, are provided with room furniture, for the care of which they are held strictly accountable.

Students not holding Senatorial scholarships are required to provide themselves with furniture. Furniture may, however, be hired from the college authorities at from \$3.50 to \$5.00 per term, according to its character and cost, and the hirer will be held responsible for all damages thereto, beyond the reasonable wear and tear of the same.

Disbursements will be made for personal expenses of students, if funds are deposited by parents or guardians for this purpose, **but no advance will be made by the College.** Books will also be furnished to students, provided a deposit of ten dollars be made for that purpose at the beginning of each term. At a final settlement, at the close of the year, the unexpended balance, if any, will be refunded.

BOARDING.

The three College dormitories, Pinkney and Humphreys hall, as well as the mess hall, have each been provided with a steam heating apparatus of the most approved sort, which has been thoroughly tested during the severe weather of past winters and found entirely satisfactory. The lodging rooms have also been recently renovated, papered and painted, and other improvements made conducive to the health and comfort of students.

The boarding department of the college in all its branches is under the supervision of the President. The boarding houses will be closed during the Christmas and summer vacations.

A College Co-operative Boarding Club has been organized in place of the College Commons, and has been successfully carried on during past years.

Under this system at the close of each month, an inventory is taken, all accounts are settled and the expenses are divided among the members of the club. An auditing committee is then appointed each month by the club, to examine the books of the commissary and to report to the club.

Each member must advance \$10.00 at the commencement of each month, and at the close must pay the balance due, as no deficit is allowed to run into the following month.

The exact cost of board for next year, including washing, lights and room rent, cannot be known, as market prices vary, but it may be safely estimated to be about \$170 for the whole session.

LIBRARY AND READING ROOM.

Through the liberality of the Legislature of 1902, and donations from the classes of '71, '72 and '73, extensive additions have been made to the library, and by means of the regular library fund, subscriptions have been made to a number of American and foreign periodicals. A complete library being an indispensable auxiliary to the intellectual advancement of professors and students, its claims are commended to the alumni and to the friends of education in the State. Any contributions of books or funds will be gratefully acknowledged.

There are now on the shelves about 9,000 volumes, which are carefully classified and catalogued, thus forming an admirable working library for the student. Among these works are 850 bound volumes of American and English periodicals. Easy access to the contents of these works is furnished by Poole's Index of all subjects treated of in home and foreign magazines.

The **College Library and Reading Room** is open every day from 3 to 4 p. m., and from 8 to 10 p. m., for reading and taking out of books and periodicals. The following magazines and reviews, furnishing all a student can reasonably need, are on file for 1911. Atlantic Monthly, Century, Popular Science Monthly, Harper's Monthly, North American Review, Forum, The Academy, Saint Nicholas, Scribner, McClure's, Munsey, Outing, Nineteenth Century, Literary Digest, Cosmopolitan, Strand, Scientific American, Scientific American Supplement, Review of Reviews, Suwanee Review.

GYMNASIUM.

A gymnasium has been erected and equipped with apparatus for complete physical training.

The building covers a ground space of 158 feet by 97 feet. The main gymnasium room is 120 by 60 feet, surrounded by a gallery containing a running track. There are bowling alleys, a rifle range, a reading room, a trophy room, and a secretary's room; also a large locker room 70 by 17 feet, containing individual steel lockers for each student. Adjoining this is a swimming pool, with a large shower-bath room and lavatory attached. There is also a smaller locker room for the use of members of visiting teams, containing steel lockers; also a large spare room.

Physical training is compulsory, and each student is required to attend classes for instruction in gymnastics and physical exercises, two hours per week, from the first of October until the first of April, unless specially excused to engage in out-door sports during these hours.

Further donations towards the gymnasium will be gladly received from alumni and other friends of the college.

ATHLETICS.

The students have excellent facilities for athletic games, which are kept under supervision. No student who is physically unfit is allowed to take part in an athletic contest.

BENEFICIARY AID.

STATE SCHOLARSHIPS FOR BOARD AND TUITION.

The General Assembly of the State (Act of 1872, chapter 303, and 1879, chapter 315) has provided for furnishing board, fuel, lights, and washing to the incumbent of one State Scholarship from each Senatorial District in the State, to be appointed by the Board of School Commissioners, by and with the advice and consent of the Senators in their respective districts, after competitive examination. The law requires that the candidate shall produce before the Board of School Commissioners satisfactory evidence of their moral character, and not their inability or the inability of their parents or guardians, to pay the regular college charges. A blank form or certificate, drawn in conformity to the above law, will be forwarded to the secretaries of the several school boards for the use of the appointees to the said scholarships. These scholarships are tenable for four years, and the incumbents are required by law to pledge themselves that they will continue students of the college for the full term of four years, unless prevented by unavoidable necessity, and that they will teach school within the State for not less than two years after leaving college. To obtain a full collegiate education, the object contemplated by the Act, candidates should be prepared to enter at least the Freshman Class of the college. The boards of school commissioners are earnestly requested to exercise great care in the selection of these students, and especially to appoint none deficient in preparation. The Faculty is empowered to extend the term of these scholarships one year in case of worthy students. The incumbents of these scholarships will hereafter be required to provide their own textbooks.

After graduation of the present Senior Class there will be six vacancies in these scholarships, viz: one each from the counties of Calvert, Carroll, Cecil, Talbot, Washington and Wicomico.

In filling these vacancies, the boards of school commissioners are requested (other things being equal) to appoint those candidates who are not less than sixteen years of age, and are most advanced in their studies. It is desired that all applicants hereafter should be prepared, in at least Mathematics and English studies, to enter the Freshman Class of the College.

STATE SCHOLARSHIPS FOR TUITION ONLY.

The law of the State of Maryland (Act of 1894) granting an additional appropriation to the college, provides for the education of twenty-six State students, in addition to the foregoing, free of expenses for tuition. These scholarships will be distributed among the counties of Maryland, in order of priority of application. The holders of these scholarships will be required to provide the cost of their board, about \$170 (see page 62), and pay incidental fees for church, gymnasium, heat, and hire of furniture.

In order to promote closer relations between the college and the educational system of the State, the Board of Visitors has offered a free tuition scholarship to the young man graduating highest in his class at the following High Schools:

Cumberland, Allegany County.	Havre de Grace, Harford County.
Lonaconing, Allegany County.	Chestertown, Kent County.
Reisterstown, Baltimore County.	Rockville, Montgomery County.
Towson, Baltimore County.	Ellicott City, Howard County.
Denton, Caroline County.	Laurel, Prince George's County.
Westminster, Carroll County.	Centreville, Queen Anne's County.
Elkton, Cecil County.	Crisfield, Somerset County.
Cambridge, Dorchester County.	Easton, Talbot County.
Frederick, Frederick County.	Hagerstown, Washington County.
Middletown, Frederick County.	Salisbury, Wicomico County.
Oakland, Garrett County.	Pocomoke City, Worcester County.
Bel Air, Harford County.	Annapolis, Anne Arundel County.

Also the following Academies:

Charlotte Hall Academy, Charlotte Hall.
 Rockville Academy, Rockville, Md.
 Anne Arundel Academy, Millersville, Md.
 Two to the Jacob Tome Institute at Port Deposit, Md.

The following counties having no high schools the school commissioners are granted the privilege of designating a student to a similar scholarship, viz:

Calvert County.
 Charles County.
 St. Mary's County.

BOARD OF EDUCATION.

The Board of Education of the Presbyterian Church grants aid to young men preparing for the ministry in the denomination. The aid may be obtained either while in college or in a Theological Seminary. At present the amount given is \$150 per annum.

SCHOLARSHIPS FOR SONS OF CLERGYMEN.

All sons of clergymen are given education free of charge. The Trustees of the Byrd Wyman Fund, Baltimore, also grant one or more scholarships, which provide both board and tuition to such students of the college.

THE JEREMIAH HUGHES SCHOLARSHIP.

A scholarship, providing the sum of \$30 per annum towards the cost of tuition, has been established upon the above foundation. It is available for deserving youths of all denominations, but preference is to be given to candidates who are residents in Annapolis.

COLLEGIATE SCHOLARSHIPS.

The following regulations have been made by the Board of Visitors and Governors for the establishment of scholarships in connection with the college.

For a permanent scholarship for tuition, \$1,200. For a permanent scholarship for board and tuition, \$4,000. For a scholarship for the tuition of a student through all the college classes, \$300. For a scholarship for the board and tuition of a student through all the college classes, \$1,000. For any other scholarships the sum reduced shall be in the same proportion, the money in each case to be paid in advance into the treasury of the college. The establishment of these scholarships is commended to the attention of the alumni and friends of the college.

PRIZES.

ORATORY.

1. A prize of \$25.00 is offered annually by the Alumni Association of St. John's College to that member of the Senior Class who shall prepare and deliver the best original oration.
2. A gold medal is awarded to the member of the Junior Class who gains the first place in the oratorical contest of that class.
3. The Oratorical Association of Maryland Colleges holds an annual contest to which students of St. John's College are eligible, and a gold medal is awarded to the successful contestant.

The Board of Visitors and Governors will present annually a gold medal to that member of the Senior Class who shall have attained the highest record in his academic work.

BIBLICAL STUDY.

The President of the College offers a prize of books to the student who shall have attained the highest merit in the Bible Class.

THE PHILO SHERMAN BENNETT.

Under the will of the late Philo Sherman Bennett, a prize of \$20.00 is offered each year for the best essay on the "Principles of Free Government."

Prizes are offered each in Greek, Latin, English and Mathematics, to be competed for by students of the college. In each of these four subjects two sets of prize examinations are held, one open to Juniors and Seniors, and the other to Freshmen and Sophomores. In each set of examinations two prizes—a first prize of \$100 and a second prize of \$50 are awarded if the examination papers are of sufficient merit to warrant the prizes.

SOCIETY OF ALUMNI.

The Society of Alumni holds its annual meetings on Commencement Day, on which occasion an oration is delivered by one of its members. All former students who have completed their collegiate education (whether graduates or not) at St. John's College, and left in good standing, are considered members of this society. It numbers on its rolls many names prominent in the history of the State and nation.

The following are the officers for the present year:

President, RIDGELY P. MELVIN, '99.

First Vice-President, RICHARD J. DUVAL, '89.

Second Vice-President G. W. WILSON, '04.

OBJECT OF THE SCHOOL.

This school was established primarily as a means of preparing boys to matriculate at St. John's College, but the courses of study have been so arranged that it is possible for graduates to enter other colleges, if they so desire. It is under the supervision of the President of the College. The efficiency of the school is attested, among other ways, by the steady increase in the number of pupils during recent years.

ACCOMMODATION.

Humphreys hall is reserved exclusively for the use of boarding pupils, who take their meals in the school dining-room under the supervision of one or more members of the Faculty.

The rooms in Humphreys hall are large and commodious, and are lighted by electricity and heated by steam. As a rule, one

room is occupied by two pupils, but, so far as the number of rooms will permit, a room can be secured for a single occupant by an extra payment for room rent.

ADMISSION TO THE SCHOOL.

No pupil will be received into the school under fourteen years of age, and candidates for admission to the second class must pass examinations in the following branches:

Latin.—The essentials of Latin Grammar. Reading of elementary texts. Prose Composition. The examination is based on the following text-books:—Collar and Daniel: First Latin Book; Rolfe and Dennison: Junior Latin Book.

English.—The essentials of English Grammar.

Mathematics.—Arithmetic; a knowledge of the principles of Arithmetical Computation, including fractions, denominate numbers, percentage; an ability to apply these principles to the solution of simple practical problems.

History.—A complete knowledge of Elementary United States History.

Admission to the First Preparatory Class can be secured by satisfactorily passing examinations in the above subjects and in the studies of the Second Preparatory Class. No student will be allowed to enter the First Preparatory Class unless he has satisfied these conditions.

References as to the good moral character must be furnished by each applicant, and, an applicant coming from another school must be able to refer to an honorable standing in the school which he last attended.

TERMS AND VACATIONS.

The school year is divided into two equal terms. The session 1911-1912 opens on the twentieth of September, and the second term commences on the fifth of February.

The regular vacations extend from the third Wednesday in June to the third Wednesday in September, from the 23rd of December to the first Monday in January, both inclusive, and from the Wednesday before Easter through the Wednesday after Easter. The day of Public Thanksgiving, appointed by the Governor of Maryland, or by the President of the United States is also a holiday.

COURSES OF STUDY AND GRADUATION.

Three courses of study are arranged:—the Classical Course, the Latin Scientific Course, and the Scientific Course. Each student must elect at the opening of the session which course he desires to pursue, and must then take all the studies of the class to which he is assigned. No student is allowed to change his course during the session.

At the end of each session, those who are deemed satisfactory in all the studies pursued during the year are advanced; those who are unsatisfactory, are required to pursue the same studies again during the following year.

REPORTS AND PRIZES.

Prizes for Merit are awarded in the various classes and Certificates of Distinction of the First and Second Grade are presented to those pupils in any class who, having been satisfactory on all examinations, have attained an average of 4.5, or 4, respectively, in all studies, and who have been satisfactory in their conduct for the academic year.

Reports respecting conduct and general progress are sent every month to the parent or guardian.

PUBLIC WORSHIP AND RELIGIOUS INSTRUCTION.

The exercises each day are opened with the reading of the Scriptures and prayer in the College Hall, and every opportunity will be offered for the fullest developement of the Christian character. The school is non-sectarian, but all pupils are required to attend public worship on Sundays at such church as their parents may direct. Arrangements have been made with the clergy of the several denominations of Annapolis, by which pupils may enjoy the advantages of special instruction in the tenets of their respective churches.

OFFENSES FORBIDDEN.

All excuses and requests from parents must be addressed and sent directly to the Superintendent.

The following offenses are strictly forbidden:

The use of intoxicating spirits.

The use of tobacco in any form.

The use of profane and vulgar language.

Playing cards, betting, or gambling in any form.

Reading books and papers which are disapproved.

Keeping of firearms or explosives of any kind whatsoever.

Violation of these rules will subject a boy to demerits, or may render him liable to suspension.

Any boarding student, who shall receive 100 demerits during any three successive months, will be put on probation; if, during the period of probation, he shall receive 25 demerits, he will be liable to suspension for a period not exceeding six weeks.

Any day scholar, who shall receive 45 demerits for any three successive months, will be put on probation; if, during the period of probation, he shall receive 20 demerits, he will be liable to suspension for a period not exceeding six weeks.

MILITARY DRILL.

Military drill is under the direction of an Army officer detailed by the War Department.

GYMNASIUM.

An excellent gymnasium furnishes all the requisites for physical training. All students are required to take athletic exercise two hours per week.

LIBRARY.

The library and reading-room are open each school day from 3 to 4 and from 8 to 10 p. m. There are about 9,000 volumes in the library, which, with the magazines and reviews, afford ample opportunity for intellectual advancement. In the selection of periodicals, special care is exercised. All the first-class current publications of interest to boys are to be found in the reading-room, and no others are permitted. Books and periodicals may be taken from the library under reasonable restrictions.

CLUB ROOM.

Inasmuch as the students are not permitted to leave Humphreys Hall after night-fall, a club-room has been fitted up in that building, and the students have access to it at such times as they are not required to be at study in their rooms. Innocent

games are provided, but any attempt at betting or gambling will be severely punished, and will debar the offender from further use of the room.

DAMAGE TO PROPERTY.

Any injury to the building, furniture or other property of the school, will merit punishment, and the damage will be assessed and charged to the parent, in addition to the charges stated below.

EXPENSES FOR DAY SCHOLARS.

The charge for tuition including the use of athletic grounds and library, is as follows:

First Term to the 4th of February..... \$45.00
Second Term from the 5th of February to end of session..... 45.00

All boys who have scholarships for free tuition are required to pay \$10.00 per session for use of gymnasium and library, and membership in the Athletic Association.
