

Meet Skillsoft Percipio

We propel organizations and people to grow together. Our immersive learning platform, Skillsoft Percipio, empowers you to create unparalleled experiences customized to employee needs and curated to deliver on business objectives. The platform enables you to measure, fortify, and index your talent against job roles for the future by first identifying what skills your organization has today. Percipio inspires, motivates, and engages learners, anytime, anywhere, on any device. The platform allows blended learning that lets people “watch,” “read,” “listen,” “practice,” and “attend” live courses and events. Skillsoft Percipio unleashes the untapped potential of every employee — so you can transform your workforce.

CREATE A FUTURE-FIT WORKFORCE, SKILLED AND READY FOR THE JOBS OF TOMORROW

NEW! SKILL BENCHMARKS

The only diagnostic assessment aligned to the most in-demand skills and vetted learning objectives. Give your employees a clear place to start and personalized recommendations for growth.

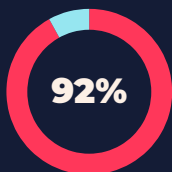

EXPERTLY CURATED ROLE-BASED AND SKILL-BASED LEARNING PATHS

HOW DOES PERCIPIO DRIVE LEARNER ENGAGEMENT?

AI-DRIVEN, PERSONALIZED LEARNING

Skillsoft Percipio uses collaborative filtering — similar to Amazon — to serve learners with curated content based on their interests and behaviors.

WATCH | READ | LISTEN | PRACTICE | ATTEND

Learners consume content in whatever way makes sense: videos, books, audiobooks, practice labs, coding sandboxes, and more. They can also attend live events, tech bootcamps, and instructor-led courses.

OCCASIONS TO CELEBRATE

Learners record and promote their accomplishments with digital badges earned by completing Skillsoft courses and Aspire Journeys. Digital badges are secured and verified through a blockchain, making them a modern, portable, shareable record of achievement.

LEARNING ANYTIME, ANYWHERE

The Skillsoft Percipio mobile app enables learners to access content anywhere — whether on a phone, tablet, or computer — and pick up right where they left off, even if on a different device. Learners may also set weekly goals and have the option to receive reminders to stay on track.
