THE SKILLSOFT COACHING DIFFERENCE

Every coach in the Skillsoft network is executive-quality

All Skillsoft coaches must:

- Be ICF-accredited at the ACC level or higher.
- Have a minimum of 10 years operational management experience.
- Have 250+ hours of paid professional coaching experience.

Skillsoft never compromises on the quality of coaches in order to save on cost. We also don’t ‘tier’ coaches based on their experience or the level of the leader being coached. Instead, our focus is on executive-quality coaching at every level, enabling participants to build strong relationships with a primary coach who can meet them where they are today and drive accountability and growth for tomorrow.

DELIVER A POWERFUL AND PERSONALIZED COACHING EXPERIENCE

Each of your leaders is paired with a coach from the Skillsoft network, building a close, productive relationship over several months. One-to-one sessions occur typically once per month for a total of 12 coaching sessions, and participants have unlimited access to their coach via messaging through their dashboard.

DEMONSTRATE MEASURABLE IMPACT AND ROI

Skillsoft is dedicated to driving real behavioral change. After six months of coaching, participants feel 20% more adept at the behaviors they chose to focus on with their coach, 14% more equipped to advance in their career, and achieve 90% of their development goals on average.
