

8 TIPS TO MAKE THE MOST OF THE SKILLSOFT LEARNING PLATFORM

Skillsoft's personalized learning platform, Percipio, was designed for one purpose — to help you refresh your current skills and embrace new ones so you stay in demand.

Let's look at a few key elements of the platform to make sure you get the most out of the experience.

1 CONNECT YOUR LEARNING PLAN TO YOUR SHORT AND LONG-TERM CAREER GOALS.

Skillsoft Percipio allows you to follow curated, role-based, and skill-based learning paths — known as **Aspire Journeys** — that give you a clear starting point to help you move from where you are now to where you want to be in your career.

Aspire Journeys walk you, step-by-step, through diverse skills across business and tech, offering courses, guidance, tools, and hands-on practice. Maximize your time, fit learning into the cracks of your calendar, and gain skills you can apply directly to the projects in front of you.

2 SPEND MORE TIME ON SKILL-BUILDING AND FAR LESS TIME WONDERING, "IS THIS THE BEST CONTENT FOR THE TOPIC?"

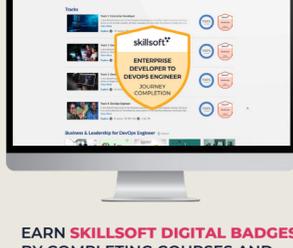

You'll discover that we curate all Skillsoft content into Channels.

MORE THAN **100K**

Requests from companies worldwide to address the specific skills they're looking for in employees and candidates.

Channels give you a logical pathway of content so you can find everything you need in one place.

3 SKILLSOFT DIGITAL BADGES ARE YOURS TO KEEP.

EARN SKILLSOFT DIGITAL BADGES BY COMPLETING COURSES AND ASPIRE JOURNEYS.

Badges let you showcase your skills by sharing across your social networks or with your manager. The best part is, **Skillsoft Digital Badges** are yours to keep! Anyone viewing the badge sees what you did to earn it, thanks to embedded metadata secured and verified in a blockchain.

4 LEARN IN WHATEVER WAY MAKES THE MOST SENSE TO YOU.

Skillsoft partnered with **MIT and Accenture** to research how the brain processes and retains information. Skillsoft's scenario-based course content is informed by this research — and proven to advance understanding.

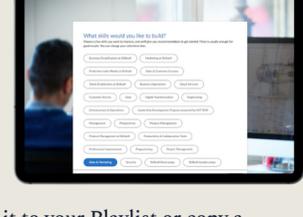

You choose your learning experience. Depending on your preference, you can:

- WATCH VIDEOS
- READ BOOKS OR BOOK SUMMARIES
- LISTEN TO AUDIOBOOKS
- PRACTICE SKILLS IN HANDS-ON LAB ENVIRONMENTS

You may also attend **Leadcamps** and **Tech Bootcamps** to access timely, real-world insights from leading experts and collaborate in scheduled virtual classrooms.

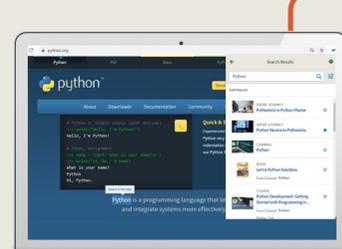

5 SAVE TIME AND KEEP YOUR SKILLS UPDATED WITH AI-DRIVEN PERSONALIZATION.

When signing into Skillsoft Percipio for the first time, select your areas and subjects of interest. Percipio's AI-driven, personalized homepage recommends content that's meaningful and relevant to you based on these interests, your recent activity, and the activities of learners with similar professional profiles.

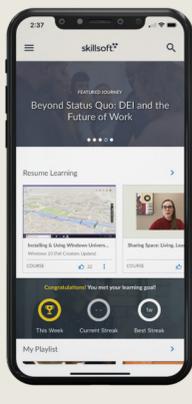

When you find content that interests you, you can add it to your Playlist or copy a shareable, unique link to the asset

6 LEARN IN THE FLOW OF YOUR WORK WITH SKILLSOFT PERCIPIO'S UNIQUE BROWSER PLUGIN.

You can also install the Embedded Learning Synchronized Assistant (ELSA for short). **ELSA** allows you to quickly discover and consume content to answer questions and solve problems in the context of the task at hand.

7 LEARN ANYWHERE, ANYTIME WITH THE PERCIPIO MOBILE APP AND OFFLINE PLAY.

Extend your learning experience to your mobile device with the Skillsoft Percipio mobile app.

Download the app, sign in with your credentials, and build new skills in minutes a day.

Set weekly goals and opt in to receive push notifications reminding you to stay on track. A seamless experience allows you to access content on your mobile device, take a break, and then automatically pick up right where you left off from your laptop or desktop.

8 TAKE ADVANTAGE OF AVAILABLE CERTIFICATIONS.

Skillsoft offers **several certifications** from global leaders in information technology and sponsors of best practices in business processes. Certifications include **CompTIA, (ISC)2, ISAC, Cisco, CEH, AWS, GCP, and Microsoft.**

74% of learners using our certification prep materials passed the proctored exam on their first attempt, while **99%** pass after two attempts.

* Fastest way to explore the available certifications is to go to the homepage, click the Library button, then look under the Certifications submenu.

Percipio is Latin for "Acquiring Knowledge"— we hope it helps you sharpen your current skills, dive into new ones, and feel confident that no matter what professional challenges present themselves tomorrow, you'll be ready.
