Local non-profit RTS works to make dreams a reality through career advising and support services

GRACE INEZ ADAMS
SMDP Staff Writer

Finding internships and jobs as a college student is a daunting task. Navigating how to put together a resume, write a cover letter and prepare for an interview can quickly feel overwhelming, especially for foster youth and first generation students who often have less access to resources and support systems.

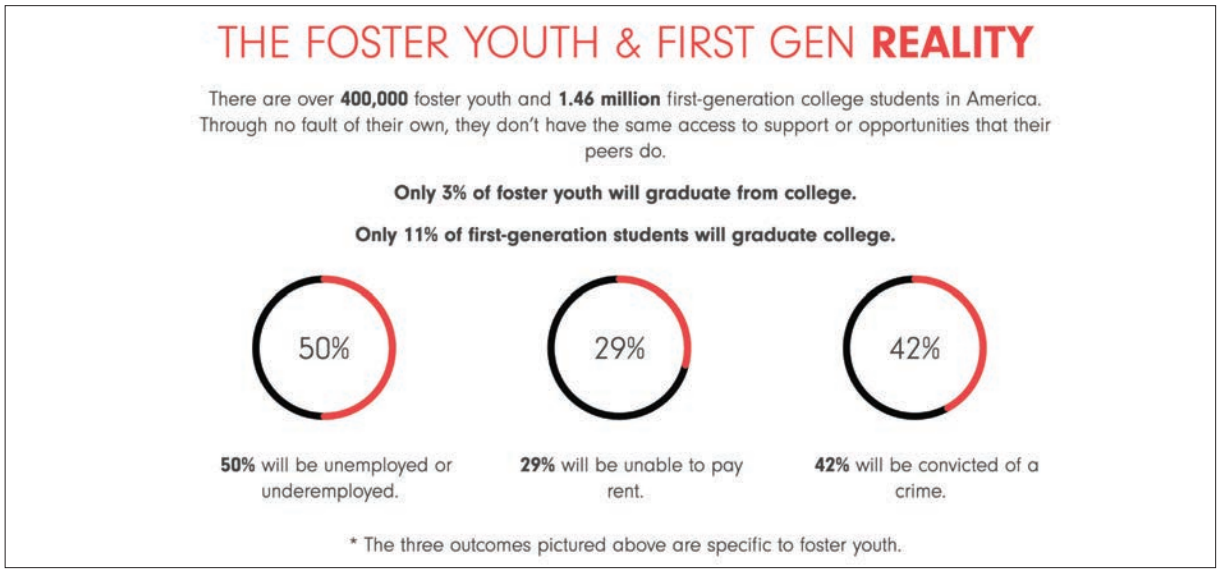

Only 3% of the over 400,000 foster youth and only 11% of the estimated 1.46 first-generation students in the US graduate college.

This is where Gina Ibrahim and Lucy Cherkasets of the non-profit Ready to Succeed (RTS) come in. Since 2016 the organization's mission has been to provide career advising services as well as comprehensive support to help their students achieve their goals and succeed throughout college and life beyond.

Ibrahim is the organization's Program Director, overseeing RTS's team of career advisors and Cherkasets serves as Director of Opportunities and Volunteers whose job is to seek out career and internship opportunities for their students.

"Throughout their academic year, they work one on one with a career advisor on their individualized career plan," Ibrahim said. "We really tailor the program to what their specific career goal

Venice Family Clinic's 44th month-long Art Walk and Auction kicks off this week in Playa Vista

GRACE INEZ ADAMS

In 1979 the Venice family Clinic was on the verge of closing when a group of supporters, including many artists, came up with the idea of showcasing their work to raise money for the organization.

"At the time, it was one small clinic in Venice, and it was very much a volunteer-run organization that did not have a lot of resources," said Erin Harnisch, Venice Family Clinic Event Director and Venice Art Walk Director. "The artists and

Pilot programs invite Big Brother into buses and the Downtown library

MATTHEW HALL
SMDP Editor

City Hall is considering a pair of new pilot programs that combine advancements in artificial intelligence with existing camera technology to identify wrongdoing and theoretically increase quality of life in some areas of town.

The City's Department of Transportation is the lead agency for the two programs and neither will cost Santa Monica anything during the testing phase. Should either system yield obviously useful results, the City would have the options to purchase full-scale versions for regular use.

In the first case, officials want to install an AI camera system on two buses that would detect and deter the illegal use of bus lanes and zones by traffic. The system would be tested along Lincoln Blvd. where the city has a bus-only lane.

"The system being piloted leverages computer vision technologies and advanced analytical capabilities to capture evidence of potential parking and traffic violations in bus-only lanes and bus stop zones," said a report on the program. "The pilot will study

LETTER TO THE EDITOR

Send comments to editor@smdp.com

I've lived in Santa Monica since mid-2021, but I've worked with a public agency in the past, so I'm very familiar with the issue of food insecurity in WLA/Santa Monica.

While families in our area are struggling with the rising costs of food and trying to provide healthy meals for their children to eat, extremist Republicans in Washington, D.C. are proposing massive cuts to the Supplemental Nutrition Assistance Program (SNAP or food stamps)—the key program helping millions put food on the table.

Republicans have introduced legislation that, for the first time ever, would subject parents or grandparents with children 7 years or older to a harsh time limit of 3 months of SNAP if they cannot meet burdensome work requirements (right now, adults with any minor child are exempt). To put it clearly–these proposals would take food away from hungry children! If this legislation were to pass 4 million children would see a massive reduction in their food assistance.

SNAP is one of the strongest tools our nation has to combat hunger. Our elected leaders should be strengthening SNAP benefits and protecting them against attacks, not doing the opposite. Our families are counting on our members of Congress to stand up against these attacks and protect SNAP!

"The Sum of Us" Author Heather McGhee to Deliver Keynote Address at SMC Public Policy Institute 2023 Spring Symposium

Heather McGhee — author of the New York Times bestseller "The Sum of Us: What Racism Costs Everyone and How We Can Prosper Together"—will be delivering the keynote address at the Santa Monica College (SMC) Public Policy Institute (PPI) 2023 Spring Symposium on Thursday, May 18, from 7:30 - 9 p.m. at John Adams Middle School (JAMS) Performing Arts Center, 1630 Pearl Street, Santa Monica.

The free, public event is co-sponsored by SMC Associated Students, City of Santa Monica, and Santa Monica-Malibu Unified School District (SMMUSD). Additionally, the Santa Monica Public Library invites the community to read and discuss "The Sum of Us" as part of the Santa Monica Reads program. More information is available at smpl.org. Free copies of the book, while supplies last, are available to those planning to participate in program beginning May 1. Versions of the book for adults as well as the young readers are available.

SMC: Heather McGhee will speak at the college.

Described by #1 NYT bestselling author of "How to Be an Antiracist" Ibram X. Kendi as ". . . the book I've been waiting for," "The Sum of Us" (Penguin Random House) offers a powerful exploration of inequality and the lesson that generations of Americans have failed to learn: racism has a cost for everyone—not just for people of color. Among accolades received, "The Sum of Us" has been longlisted for the National Book Award and the Carnegie Medal for Excellence in Nonfiction, and voted one of the Best Books of the Year by Time, The Washington Post, St. Louis Post-Dispatch, Ms. Magazine, BookRiot, and Library Journal.

SMC Superintendent/President Dr. Kathryn E. Jeffery stated that the scale of the community collaboration behind bringing Ms. McGhee to Santa Monica College—and Santa Monica—showcases the "willingness and unified intent of this community to grapple with the ongoing questions plaguing us as a society and nation." "I am tremendously grateful for our partners who, like all of us at SMC, care deeply about building a more equitable, harmonious and respectful world," she said.

"The Santa Monica City Council recently unanimously adopted Racial Justice, Equity & Social Diversity as a community priority," said Santa Monica Mayor Gleam Davis. "Whether participating in our Library's events or joining Heather McGhee's discussion, understanding our history and the effects of racism is a necessary part of our ongoing efforts to ensure everyone in Santa Monica can thrive."

"Ms. McGhee's book was, and continues to be informative and meaningful to our work as school leaders trying to disrupt a system rooted in practices that does not serve all students well," said SMMUSD Interim Superintendent Dr. Mark Kelly.

Ms. McGhee is a Visiting Lecturer in Urban Studies at the City University of New York's School of Labor and Urban Studies. She is a strong coalition-builder and trusted cross-movement leader who serves as Chair of the Board of Directors of Color Of Change, the nation's largest online racial justice organization. Ms. McGhee also serves on the boards of the Rockefeller Brothers Fund, Open Society Foundations' U.S. Programs, and the nonpartisan "think and do" tank Demos. She is also an NBC News contributor, frequently appearing on "Meet the Press" and MSNBC programming, and her writing and research have appeared in numerous publications. She has also held visiting positions at Yale University's Brady-Johnson Grand Strategy Program and the University of Chicago's Institute of Politics. To learn more about her, visit heathermcghee.com.

In addition to Ms. McGhee's keynote address, the Santa Monica College Public Policy Institute (PPI) 2023 Spring Symposium—which runs May 15-19, 2023—will feature a number of events around the theme "From Me to We: Building Cross-racial Solidarity for a Better Democracy." Symposium activities will feature an opening talk by Prof. Ian Haney López, a screening of Derrick Bell's science fiction story "The Space Traders" with a panel discussion and audience Q&A, and a student panel discussion on race, class, and solidarity. More details on additional symposium activities are forthcoming via a separate press release.

Accommodation for Disability: Guests who need an accommodation due to a disability to participate in any of these events should send email to dsps@smc.edu or call 310-434-4173, at least 5 business days in advance.

The SMC Public Policy Institute provides nonpartisan community programs exploring key economic, social, and political issues. The 2023 PPI Spring Symposium marks the 12th anniversary of the popular community discussion. is and start kind of fast tracking the process of getting all the career foundations done, so resume, cover letter, interviewing, elevator pitch, networking, all that kind of stuff."

From there, Cherkasets and her team head up the internship and job search process.

"Once we know what exactly they're looking for, the professionals that they can get in touch with, the different opportunities that exist as part of the RTS network… the ultimate goal is that we get them placed in a job within six months of their graduation," Ibrahim said.

> We know, and the data shows, that you really need an internship experience to be a competitive candidate, especially in today's world,
> - Lucy Cherkasets

Cherkasets said that internships are often key to being able to do this.

"We know, and the data shows, that you really need an internship experience to be a competitive candidate, especially in today's world," she said. "We're constantly thinking about how we can continue to help [our students] level up and how we can get them the competitive advantage, because everybody has one and so should our students and RTS is really providing them with that."

However, both Ibrahim and Cherkasets emphasized that for RTS's career services to truly be effective they also have to ensure that the students are supported in other aspects of their lives.

"You cannot even start thinking about your career development if you have other things going on in your life, if you're struggling academically or financially, socially or with your family relationships, all those kinds of things," Ibrahim said. "I think what really sets us apart is not through just the career stuff, it's the holistic approach that we take with students and so, even though our team is made up of career advisors, we're really kind of their academic advisors, their financial aid advisors, their adulting advisors, their life advisors – it's really everything so that they feel supported and all those other areas in order to have the time or the mental capacity to even start thinking about their careers."

She added that RTS's program supports students all throughout college and continues to maintain relationships with them after graduation. Cherkasets said many former RTS scholars are still involved in the organization in some way, including as career advisors, professional connections and even as members of their board. She said she feels that this is another one of RTS's strengths.

"It's so impactful for scholars to hear it from people who went through it, who went through the college experience, who went through the RTS experience, who went through the applying experience within the last three to five years," Cherkasets said.

RTS takes on a cohort of new scholars every year, typically first-years or sophomores, and Ibrahim said they are able to accept almost everyone who meets the qualifications. This year's cohort will go through an orientation process over the summer and then get to work on making their goals a reality.

"They've been told their whole life, 'no you can't' or that there are closed doors," Cherkasets said. "We say, 'what's your dream,' 'yes you can,' 'let us help you.' It might not be easy but you can count on us."

the volunteers really wanted to keep the clinic going because either they themselves were relying on it or their neighbors were, so it was really kind of by and for the community."

Now, for the 44th time since then, artists, galleries and collectors will join forces to put on an art walk and auction in support of the Clinic's ongoing work.

This year, the event will take place from April 18 to May 19. Proceeds from art sales will help fund the Clinic's work providing comprehensive healthcare services which has vastly expanded since the 1970s to now serve over 45,000 people across West LA and the South Bay, including many in Santa Monica.

This year marks the first time that the event will be held in Playa Vista, a decision made in part due to the organization's merger with South Bay Family Health Care in late 2021.

The event was historically held at Westminster Elementary School on Abbot Kinney Boulevard for several decades and at Google Headquarters in Venice in recent years.

"We find that Playa Vista is a symbolic bridge between our West Side locations and our new South Bay locations," Harnisch said. "We wanted to give a nod to both of the constituencies that we have and make it easy for the new South Bay supporters to enjoy the Artwalk and also easy for our Westside supporters."

The exhibition will feature work from established artists as well as mid-career and emerging talents in a 7,000 square foot gallery space at RUNWAY in Playa Vista.

Charles Gaines, who recently retired from the California Institute of the Arts (CalArts) after serving on the faculty for over 30 years and establishing a fellowship to provide scholarship support for Black students in the Master of Fine Arts program, will be honored as this year's signature artist.

"Mr. Gaines is a world renowned artist and an incredible supporter, and very much believed in the ethos that the clinic has. And so we were just so thrilled that we would have the opportunity to honor him this year and he is donating a wonderful artwork to the auction."

The event is free to attend to view the art, and for those looking to take a piece home, Harnisch said there are a wide range of price points available.

"It is a wonderful opportunity to view art and potentially start an art collection," she said. "We have pieces that range from well under $1,000 to over $70,000."

> "It is a wonderful opportunity to view art and potentially start an art collection"
>
> - Erin Harnisch

The majority of the proceeds from the sales will go directly to the Venice Family Clinic. The clinic has raised over $1 million through the event in previous years.

While the Art Walk will run through May 19, purchases must be made through the online auction at Artsy.net/veniceartwalk by May 4 at 7 p.m. PDT.

whether this technology could help improve transit safety and efficiency."

The system includes a forward facing camera and a license plate reader. If the system detects a violation, it creates an encrypted evidence package that is sent to the Santa Monica Police Department's Traffic Services Division.

The 45-day pilot would include access to data analysis and real-time camera feeds to help officials determine its success.

"Since the purpose of this pilot is to assess the technology and gather data, any evidence packages created during the 45-day pilot will be for information only," said the report.

A similar program is being considered for stationary use at trouble spots in the Downtown area.

"Proactive video monitoring is a crime-deterrence solution that uses AI-equipped cameras in areas like parking lots, courtyards, and structures," said the report. "Live feeds from the cameras are monitored 24 hours a day by the pilot vendor's trained staff. The technology can help deter trespassing or crimes such as theft or vandalism as the monitoring staff engage with intruders through loudspeakers and tell them to leave the premises immediately or law enforcement will be called. The warning is repeated as needed until the person leaves or law enforcement arrives. In most cases, the individuals leave quickly and do not return."

According to the report, the cameras are useful for monitoring areas outside traditional business hours and could help lower incidents without the associated costs of adding human patrols.

The pilot program for stationary cameras will be held at the Main Library and last 60 days.

"Both the bus lane enforcement and proactive video monitoring pilots are launching shortly," said the report. "Staff will closely monitor both pilots, and, at the end of each, analyze the data. If either or both pilots show the piloted technology could benefit the City, open competitive procurement processes may be initiated. Staff will then make recommendations for Council approval."

PLACE YOUR CLASSIFIED HERE

TODAY'S BIRTHDAY (April 17)

Welcome to your year of unexpected blossoming in which you'll discover talents you didn't know you had. You'll work hard until your abilities match your ambition. You'll enjoy the process, which fills things with a sense of purpose and gives them their value. More highlights: You'll be offered a prestigious prize; a relationship gets a comedic twist; your family will bond together in faraway places. Gemini and Libra adore you. Your lucky numbers are: 1, 33, 7, 40 and 28.

HOROSCOPES

ARIES (March 21-April 19). Your focus will improve through a process of elimination. What's pulling your attention but doesn't add to your purpose? You'll determine what's not helping and you'll cut it out, then repeat until there's nothing left to do but the thing you meant do in the first place.

TAURUS (April 20-May 20). You're feeling stuck for one of two reasons. Either you don't have enough information, or you feel there are too many conflicting agendas. You intuitively know which one fits and will take next steps to free yourself.

GEMINI (May 21-June 21). When someone is enthusiastic about what you're doing, it doubles your motivation. The time you spend around trusted, uplifting people will help attract even more fans of you and your work. Support will come to you from new and unexpected places.

CANCER (June 22-July 22). There are many people who contribute to the smoothness of your daily life. Some of them have gone unacknowledged recently. You have the opportunity to really make someone's day.

LEO (July 23-Aug. 22). You are adept at cracking codes of all kinds, but especially the kind presented by people who don't know how to communicate their needs and feelings. You'll tune in and start translating to the best of your ability.

VIRGO (Aug. 23-Sept. 22). It turns out, the issues you think are unique to you are actually experienced by many, some of whom have already come up with solutions that will work for you, too. Call out your questions, however strange you may think they are. You'll get answers.

LIBRA (Sept. 23-Oct. 23). Don't worry if you're not sure which choice to make. There was a time you had no idea what you wanted, so you just chose the easiest thing. Look at all the good that grew from that one choice.

SCORPIO (Oct. 24-Nov. 21). Even though you prefer everyone to get along, you can't totally control the way people mix with the environment and with each other. After you've done all you can to promote harmony, all that's left to do is observe.

SAGITTARIUS (Nov. 22-Dec. 21). It wasn't your intention to have so many things going on in your life at once, but that's just the way it happens sometimes. A full agenda has the effect of putting things in their proper scale.

CAPRICORN (Dec. 22-Jan. 19). There are many ways to stand up for yourself, but none is so satisfying today as simply doing what you want instead of what others would prefer. To treat yourself is to send the message to all that you like yourself enough to make your own wishes important.

AQUARIUS (Jan. 20-Feb. 18). When the intensity of a situation turns up, you transform into a kind of inflatable. Your buoyant attitude keeps others afloat. Your air-sign nature combined with emotional warmth makes rising above it all relatively easy.

PISCES (Feb. 19-March 20). You will adapt to new places and circumstances. In some cases, it's the other person who needs to adapt to you, though. Be very careful in your communication. Criticism would only put the other person on the defensive. Offer solutions instead and you'll be golden.
