An E-Poster (20%) Due Week 7

Students will create an E-Poster to show their understanding of the application of a nursing model to a specific clinical problem from assignment one. Students will choose a model they have learned in this unit, justify how this model can be relevant to address the selected clinical issue and link the model's elements with the Codes of Conduct and Nursing Standards. Students may use 6C's when creating the e-poster.

Assessment Instructions

- Identify a clinical issue and select ONE nursing model that can be used to address that issue.
- Minimum four references are required. These references must be ≤ 10 years old.
- Define the model, justify how it can be used to address your topic, and link its elements to the nursing standards for practice and codes of conduct in Australia
- and USE APA FORMAT for referencing.
- Information cited from unreliable websites, pamphlets or magazines is not acceptable for this paper.
- Your poster needs to be created in a single document, using graphic software such as Canva, Adobe, Piktochart, or any other helpful tool, and submitted to the Canvas along with the word document.
- Students have to submit a word document with all information in the poster into CANVAS to check similarity.
- Therefore, students will be submitting two files when they are submitting the assignment. One is the word document (with the same information in the e-poster) and the other one is the e-poster.
- Please refer the marking rubric in unit guide
