

SKETCHUP SETUP

Software used in

Description

Sketchup is optional software used in the new Building for the Future unit in the PLTW Gateway curriculum. The easiest way to access it is to sign up with G-Suite or Microsoft Education to get free education access. Schools will not need to purchase any seats or site licensing to use Sketchup in the Building for the Future curriculum. Below are steps for access, Privacy Policy, and VPAT information.

Procedure

1. Go to <https://edu.sketchup.com/app> and sign in with a school issued Google or Microsoft account. Make sure that popups are enabled for this site.
2. If you do not have access to Google or Microsoft accounts, you can create accounts at [this link](#)

Resources

If you are new to Sketchup, check out the Sketchup for Schools page on how to get started using Sketchup here: <https://sketchup.trimble.com/en/products/sketchup-for-schools>

To see what other schools are doing, here is a link to the user forum: <https://forums.sketchup.com/c/sketchup-for-schools/53>
