

TM Forum Open APIs

Conformance Certification

Company Name: i2i Systems

TM Forum Open API Name:

TMF672 – User Role Permission Management

TM Forum Open API Release Version: 21.0 : 4.0

Report Date: 21/02/2023

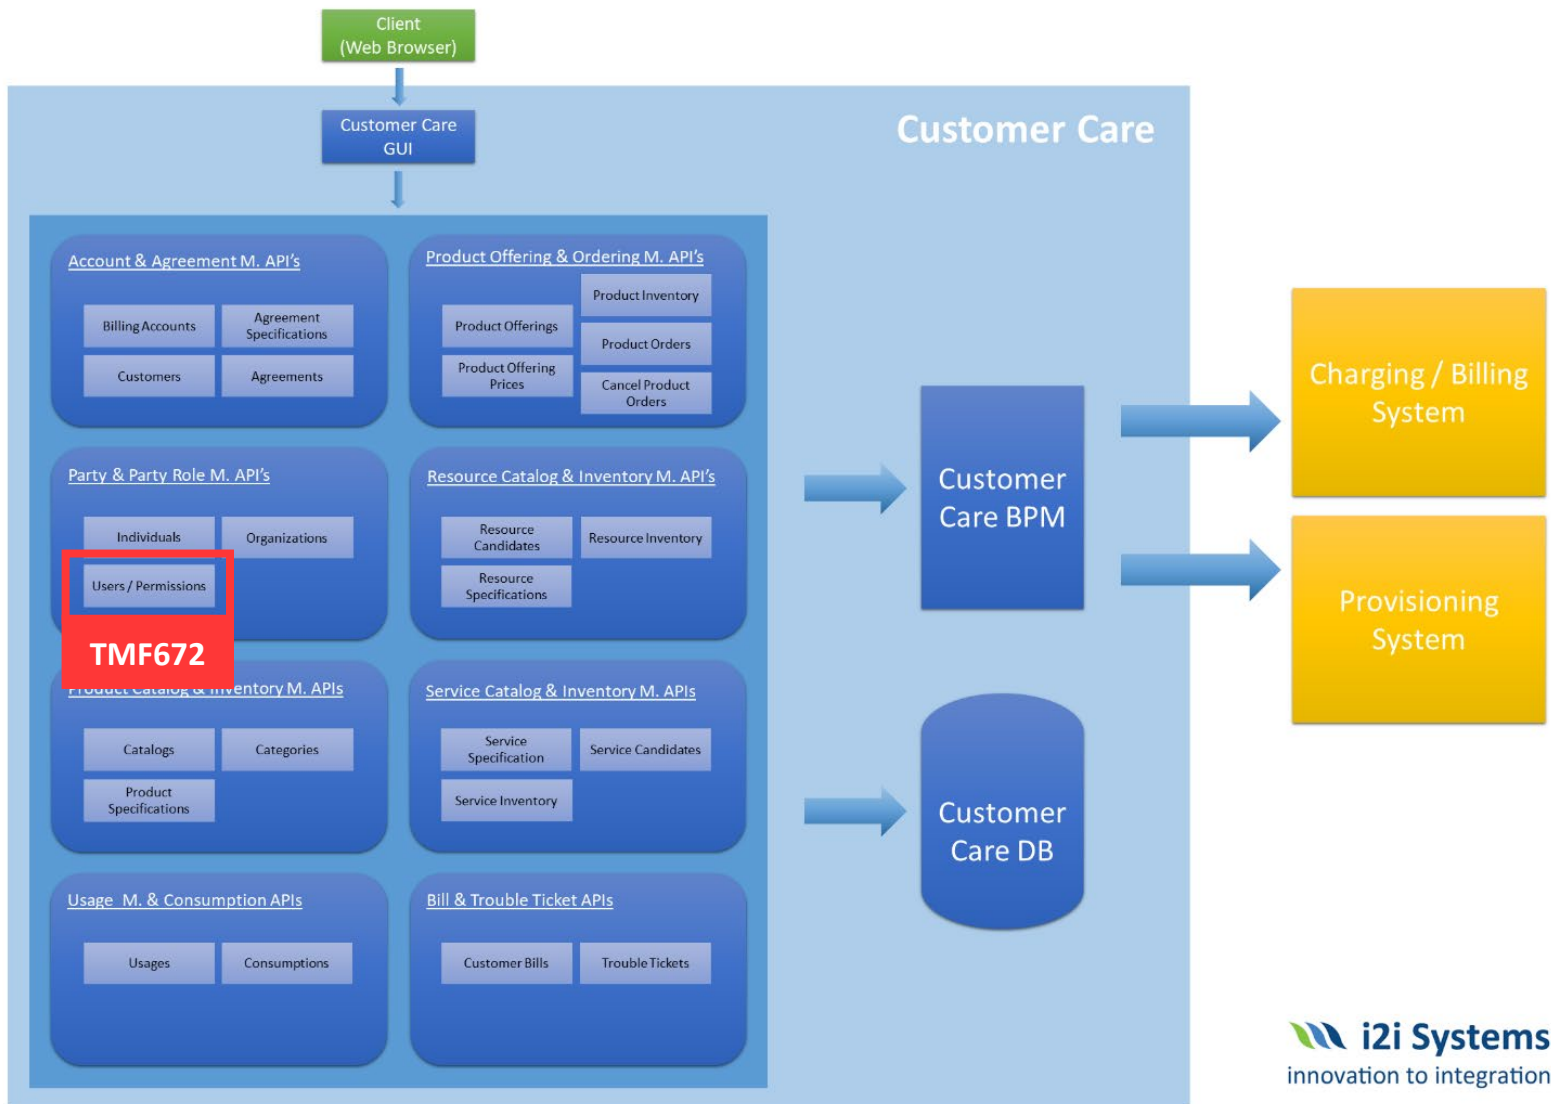

1. What Product or Solution does your API support?

This API is used by i2i CCS, i2i OCS, FCBS Billing and i2i Customer Care products.

2. Overview of Certified API

A user role is defined as the entity that defines a set of privileges covering various functions and/or manageable assets. When a user is assigned a given role then it is actually allocated all the privileges defined for that role type and the corresponding permissions are created for that user.

3. Architectural View

4. Test Results
