1. What Product or Solution does your API support?

This API is used by i2i CCS, i2i OCS, FCBS Billing and i2i Customer Care products.

2.   Overview of Certified API

This API provides the real-time value within buckets (SMS, Voice, Data, TV for example) that a customer consumes with each of their devices, related to subscribed communication products without having to wait for the bill cycle. A usage report retrieves the data related to these balances.
