Company Name: TM Technology Services Sdn. Bhd.

TM Forum Open API Name: TMF638 – Service Inventory Management

TM Forum Open API Release Version: 4.0.0

Report Date: 30/01/2024
1. **What Product or Solution does your API support?**

TM Service Inventory API provides an open and standard request and response API mechanism to create and retrieve services from TM Network Inventory System. BSS will invoke the API to create new services and other TM ecosystems are able to retrieve the services by invoking this API.
2. Overview of Certified API

This API performs the following operations:
1. Retrieve a List of Service resources depending on filter criteria using the GET operation.
2. Retrieve Service resource using the GET operation.
3. Create a Service resource using the POST operation.
3. Architectural View
4. **Test Results**
