**TM Forum Open API Name:**
\textit{TMF687 – Stock Management}

**TM Forum Open API Release Version:** 4.0.0

Report Date: **20/03/2024**
1. **What Product or Solution does your API support?**

TM Stock Management API provides an open and standard request and response API mechanism to create, reserve (e.g. perform a reservation for a specific product stock) and retrieve Product Stock from TM Stock Management System. The system will invoke the API to create and reserve the Product Stock and other TM ecosystems are able to retrieve the related information by invoking this API.

2. **Overview of Certified API**

This API performs the following operations:
1. Retrieve a List of Product Stock resources depending on filter criteria using the GET.
2. Retrieve a List of Product Stock resource using the GET operation.
3. Create a Product Stock resource using the POST operation.
4. Reserve a Product Stock resource using the POST operation.
3. Architectural View
