TM Forum Open API Name:
TMF652 – Resource Ordering Management

TM Forum Open API Release Version: 4.0.0

Report Date: 21/05/2024
1. **What Product or Solution does your API support?**

TM Resource Ordering Management API provides an open and standard request and response API mechanism to create and retrieve resource orders (e.g. procure fiber optic cables) from TM Supply Chain Management System. The system will invoke the API to create and retrieve resource orders and other TM ecosystems are able to retrieve the related information by invoking this API.
2. Overview of Certified API

This API performs the following operations:
1. Retrieve a List of resource orders resources depending on filter criteria using the GET.
2. Retrieve a List of resource orders models resource using the GET operation.
3. Create a resource order using the POST operation.
3. Architectural View
