Conformance Certification

Company Name: Huawei Technologies Co. Ltd

TM Forum Open API Name: TMF633 – Service Catalog Management

TM Forum Open API Release Version: 4.0.0

Report Date: 06/06/2024
1. **What Product or Solution does your API support?**

Huawei Mobile Money is a proven, trusted and agile solution which delivers superior customer and agent experiences and enables innovative financial products and services. Around the globe, the leading operators are on the way to digital customer engagement with Huawei solution together.

A key component of the solution is Service Catalog Management. The Service Catalog Management API of this module provides an interaction interface with this module and relevant functionalities of Huawei Mobile Money. The external systems and the third-parties can access such capabilities via this exposed API.
2. **Overview of Certified API**

Resource Lifecycle Management is responsible for managing the entire lifecycle of the service catalog element and its underlying components. This include all the processes required to design, build, deploy, maintain and ultimately retire the catalog element.

According to Service Catalog Management (TMF633), the following table indicates which ones are mandatory and which ones are optional.

<table>
<thead>
<tr>
<th>Operation</th>
<th>Mandatory/Optional</th>
<th>Comments</th>
</tr>
</thead>
<tbody>
<tr>
<td>GET</td>
<td>M</td>
<td>GET must be used to retrieve a representation of a resource</td>
</tr>
<tr>
<td>POST</td>
<td>O (used only for admin reason)</td>
<td>POST must be used to create a new resource</td>
</tr>
<tr>
<td>PATCH</td>
<td>O (used only for admin reason)</td>
<td>PATCH must be used to partially update a resource.</td>
</tr>
<tr>
<td>DELETE</td>
<td>O (used only for admin reason)</td>
