

TM Forum Open APIs Conformance Certification

Company Name:

Verizon

TM Forum Open API Name:

TMF654 – Prepay Balance Management

TM Forum Open API Release Version:

4.0.0

Date: 06/08/2025

1. What Product or Solution does your API support?

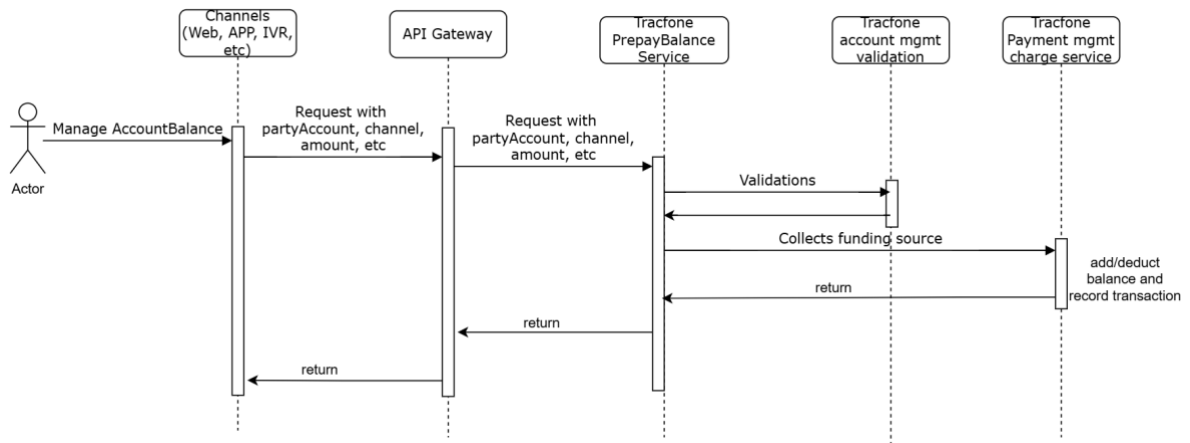

Verizon value provides various services to Prepaid customers. TMF654 PrepayBalance Management API provides capability to manage the customer's account wallet. This API allows users to add balance (for monthly recharge or top-up), transfer, reserve, unreserve, deduct/adjust the balance of the account wallet.

2. Overview of Certified API

Account Balance functionality will allow customers to load, deposit or manage money at the account which can be utilized later for any kind of purchases like Service plans, Data, VAS products purchase etc.

API accepts the Account Id, amount to be added/adjusted, channel from where transaction is happening as parameters. Internally, the API validates the account information, adjusts the wallet amount and records the transaction in the backend system for revenue recognition, reporting etc.
