Company Name:

Etisalat

TM Forum Open API Name:

TMF635 - Usage Management

TM Forum Open API Release Version:

4.0

Date: 20/11/2025

1. What Product or Solution does your API support?

The scope of the requirement is that Etisalat intends to adopt Open API/ODA standards and become a TM Forum Open API compliant, the objectives behinds this adoption are to achieve plug-and-play interoperability of components within their IT systems, reduce complexity and enable digitization of customer-facing systems and reduce cost of integration as well as time to market for new services digital services, TMF635 - Usage Management API is chosen to be implemented as part of this project.

2. Overview of Certified API

The Usage Management API covers the mechanism for usage management such as the creation, update, retrieval, import and export of a collection of usages. A usage is an occurrence of employing a Product, Service or Resource for its intended purpose which is of interest to the business and can have charges applied to it

The Usage API performs the following operations on the Usage resource: -

- Retrieval of a Usage or a collection of Usage, depending on filter criteria
- Partial update of a Usage or of a collection of Usage
- Creation of a usage
