1. What Product or Solution does your API support?

Our API supports a Service Quality Management / Service Assurance solution, enabling management and monitoring of Service Level Specifications (SLS), Service Level Objectives (SLOs), and associated quality thresholds/KPIs for telecom services.

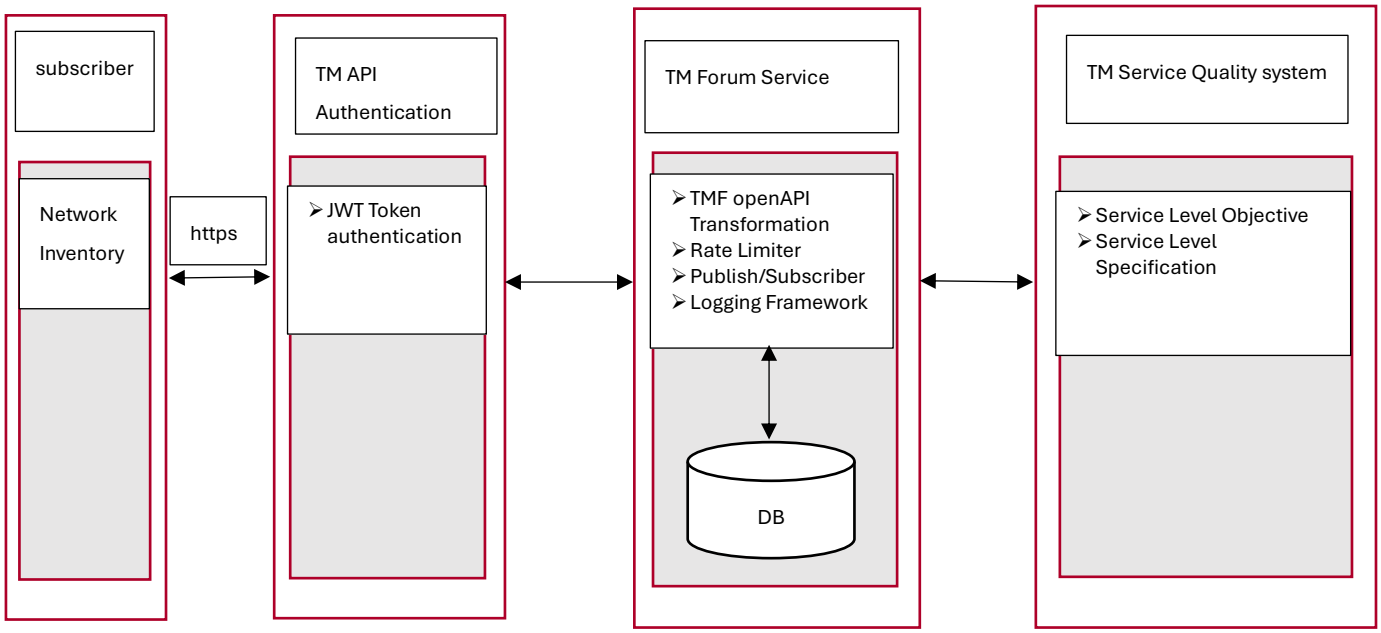

2. Overview of Certified API

Service Level Objective (SLO) API: Provides operations to manage Service Level Objectives that define service-quality targets and associated thresholds.
Service Level Specification (SLS/SLA) API: Provides operations to manage Service Level Specifications that group the Service Level Objectives associated with service quality requirements
