MESSAGING OVERVIEW

The Topeka wayfinding messaging system is strategically formulated to provide efficient guidance for vehicular and pedestrian traffic to key destinations within the city.

Vehicular guide signs make up the bulk of the wayfinding messaging system and are designed to include key tenets of the Manual of Uniform Traffic Control Devices (MUTCD) which is a standard managed by the Kansas Department of Transportation.

Because of limited message space allowed on vehicular guide signs, not all destinations can be included. A qualifying set of inclusion criteria has been developed to determine which destinations qualify for inclusion on one or more wayfinding signs.

Visit Topeka, Inc., in conjunction with Topeka Planning and Public Works Departments, will implement and manage the wayfinding system and will have the final say on which destinations are allowed on vehicular guide signs.

Criteria

The wayfinding system will be used to direct drivers toward a qualified destination. Signs that are part of the Topeka wayfinding program will not be allowed on private property unless such placement is the only option available and that permission is granted. The following represents the governing set of criteria to

determine destination inclusion on wayfinding guide signs:

1. High Civic Value

Destinations that are unique to the city and are valuable civic, entertainment, and/or historical destinations have the highest inclusion priority. These locations benefit the city as a whole by acting as a magnet for tourism, business development, and regional entertainment. If, in the future, new larger areas or districts that include multiple businesses become part of the city development/redevelopment plans, they may also be listed as destinations provided they meet the same criteria within value, traffic and audience.

2. High Volume Of Traffic

The second inclusion priority goes to destinations which draw a large number of visitors who travel to the destination from out of town. Thousands of people travel to Topeka to visit one of our unique destinations and spend money on food, lodging and shopping. This also benefits the city through exposure of our other unique destinations on the wayfinding signage, resulting in the potential for longer visits, more frequent visits and increased marketing value around the region. Destinations that feature scheduled events can be given more consideration due to a substantial spike in traffic before and after their event.

3. Frequented By Visitors

The third inclusion priority goes to destinations which are frequented by out-of-town visitors. Tourists, business travelers, students and others who attend conferences, special events, athletic activities or entertainment venues, may not be familiar with the area and would benefit from assistance in locating these locations quickly and easily.

4. Navigation Difficulty

The fourth inclusion priority goes to destinations with tricky or difficult navigation issues. Destinations with hard to find locations, one-way streets, complicated intersections or non-intuitive pathways can be given special consideration and signs may be located in those places that will aid navigation as long as there is available space that does not impact regulatory mandates.

5. Traffic Safety or Efficiency

The fifth inclusion priority goes to destinations with high volumes of traffic, or with events that trigger spikes in traffic volume that may create traffic safety or efficiency issues.

Whenever traffic safety is a consideration, the city, county and state highway departments must also be consulted. The wayfinding signs should only be considered if the various street and highway departments approve its use as a way to help solve a safety or traffic issue.

Qualified Destinations

The following is an established list of qualified primary and secondary destinations that may be included in their abbreviated format on signs within the Topeka wayfinding program.

Primary Destinations

Primary destinations represent our most unique and visited civic destinations. They include:

- Historic Downtown
- Topeka Civic Theatre & Academy
- Topeka Performing Arts Center
- Kansas Statehouse
- Old Prairie Town
- Brown v Board of Education site
- Kansas Expocentre
- Washburn University
- Gage Park
- Evel Knievel Museum
- Topeka Zoo
- Children's Discovery Center
- Hummer Sports Park
- Hummer Soccer Fields
- NOTO Arts District
- Kansas Museum of History
- Cedar Crest governor's mansion
- Topeka Regional Airport
- Combat Air Museum
- Kansas National Guard Museum
- Kansas Visitor Center

MESSAGING OVERVIEW

Primary destinations, continued

- Heartland Park Topeka
- Lake Shawnee
- Bettis Sports Complex
- Sunflower Soccer Complex
- Jayhawk State Theatre (future)
- Oregon Trail Riverside Park (future)

Secondary Destinations

Secondary destinations may be included on signs when there is space available after consideration of the primary destinations. Secondary destinations are located within or near primary destinations, and/or don't have the same level of traffic volume.

NOTE: If a secondary destination message is to be included on a given sign, it must also be repeated on consecutive signs that are critical to blaze the trail to the actual destination, otherwise it should not be included at all.

- Yesterday's Motorcycle Museum
- Helen Hocker Theater
- Midwest Health Aquatic Center
- Capitol Federal Natatorium
- Ritchie House
- Charles Curtis House
- Constitution Hall
- Aaron Douglas Mural
- Great Overland Station

- Ted Ensley Gardens
- Lake Shawnee Campground
- Mulvane Art Museum
- Yager Stadium
- Garfield Community Center
- Water parks and swimming pools
- Golf courses
- Kaw River Park
- Lee Arena
- Falley Field
- Rueger Park
- White Concert Hall

Tertiary Destinations

Service Amenities may be considered for inclusion on wayfinding signs if they are determined to be important for visitors or county residents who may not be familiar with Topeka. These sites can only be included after consideration of primary and secondary destinations.

- City Hall
- Public Library
- Community Parks
- Post Office
- Police Station
- Fire Station
- Amtrak
- Greyhound Bus Depot

Sign Message Change Process

The decision to change or augment a sign's message will be made by the combined authority of Visit Topeka, Inc. and Topeka Planning and Public Works Departments.

Parties who request sign message changes or additions, must demonstrate that the proposed change or addition complies with the inclusion criteria in this document and that said change/addition elevates the value of the specific message above it's current condition.

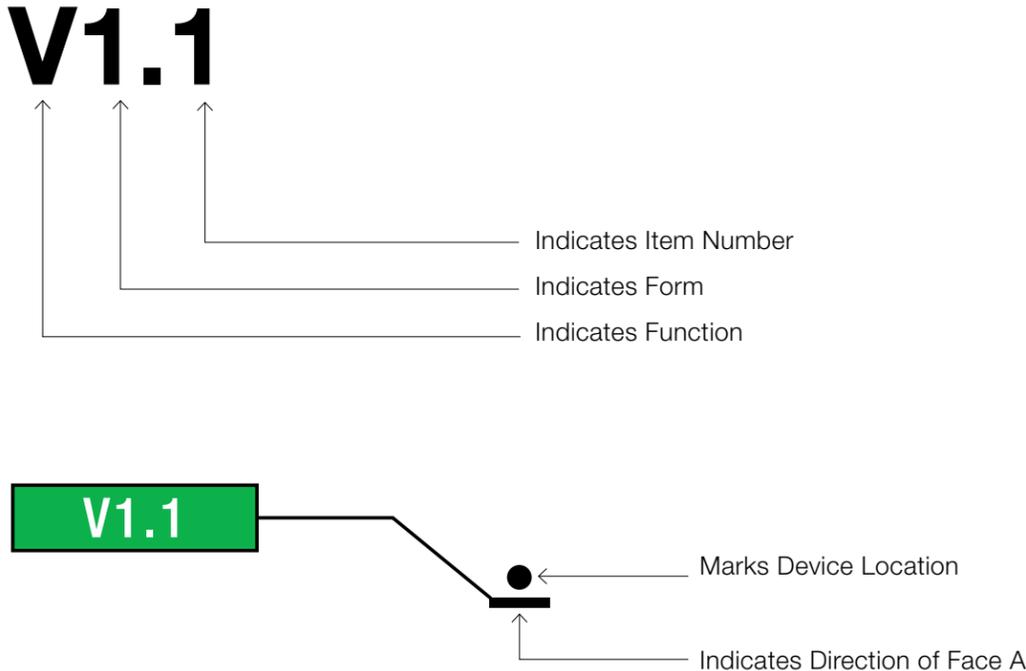

Requests for new signs must demonstrate the same criteria but will only be allowed if the proposed placement complies with regulatory mandates and does not compromise environmental aesthetics, obscures traffic sight lines or business signage.

Orders for sign updates would be approved and expedited by the City of Topeka providing that the requester of the changes covers all related costs. The City of Topeka would be responsible for replacing any damaged or unsafe signs.

To make a message change/addition request, the requesting party must contact Visit Topeka, Inc. and complete a Sign Message Request Form.

Device Type Numbering System

The Topeka Wayfinding Program utilizes a labeling system that represents a device’s function, form and an individualized item number. Each sign is assigned a unique number derived from this system and is used in the Design Intent Document, Message Schedule and Location Plan. The colors displayed on the right are used in the Location Plan to aid in quick identification.

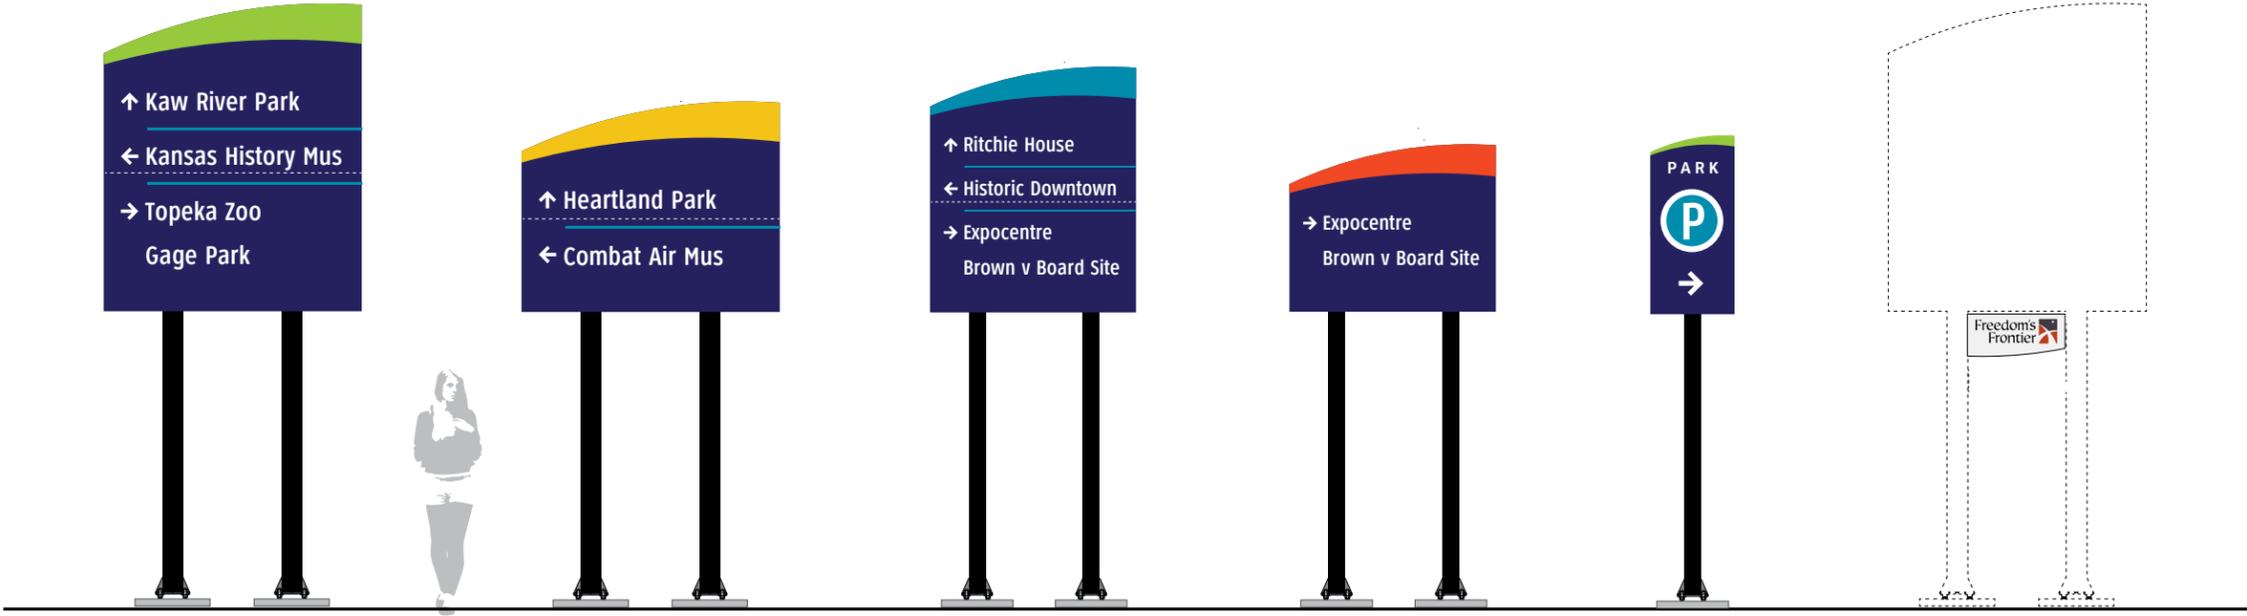

- G1** Primary Gateway - Announces primary arrival points into to a community
- G2** Secondary Gateway - Announces secondary arrival points into to a community
- G3** Tertiary Gateway - Announces tertiary arrival points into to a community
- T1** Freedom’s Frontier Trailblazer - Identifies a designated historical route
- V1** Primary Tall Vehicular Guide - Includes 3 to 4 vehicular guide message lines using 5” letters
- V2** Primary Short Vehicular Guide - Includes 1 to 2 vehicular guide message lines using 5” letters
- V3** Secondary Tall Vehicular Guide - Includes 3 to 4 vehicular guide message lines using 4” letters
- V4** Secondary Short Vehicular Guide - Includes 1 to 2 vehicular guide message lines using 4” letters
- V5** Vehicular Parking Guide - Guides drivers to public parking areas
