FMT

SmartFill

OUTDOOR PAYMENT TERMINAL

Outdoor Payment Terminal for 24/7 Fuel Sales

Your Solution for Unattended Fuel Sales

Remote Setup and Management

Easily set and adjust prices as needed, with automatic cloud-based updates ensuring your system stays current.

Collect Data and Review Payments Online

Monitor tank levels, track transactions, and view performance data to understand how your business is running.

Designed & Tested for the Harshest Climates

The SmartFill has been tried and tested in some of the harshest environments. From the hottest to the coldest climates all around the world with over 2 decades of experience we've see it all.

Streamline Operations and Increase Revenue

Reduce manual tasks and paperwork with a solution that extend operational time without added costs.

Get Support and After Sales Onboarding

Reliable support when you need it. We're committed to responding quickly to keep your operations running smoothly.

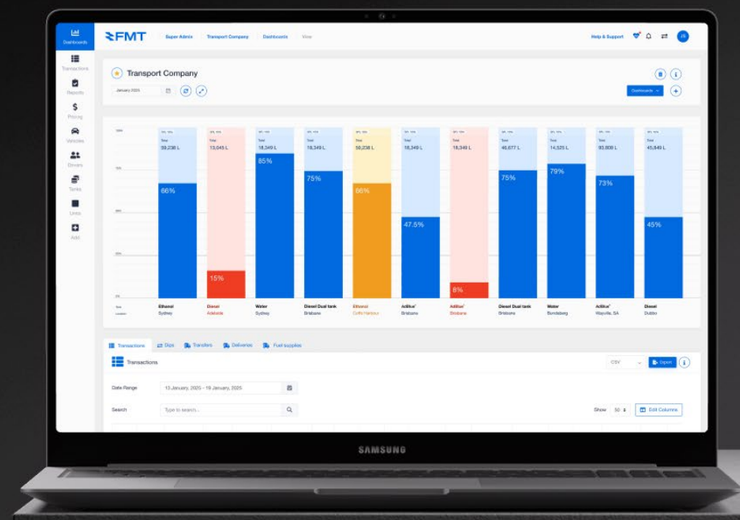
Easy Payments, Everytime

A clear, user-friendly interface ensures smooth transactions, with support for a wide range of payment options.

VISA · Pay · G Pay · Account Cards · SmartFill

Monitor your Transactions on your FMT Data Portal

PRO Reports included with every OPT unit



CERTIFICATIONS

AT&T · verizon

Key Features

- **Pre-configured reports:** Includes Totals, Reconciliation, Service, Transaction, Consumption, and Trip Consumption reports covering the full spectrum of fuel usage metrics
- **Virtual tank monitoring:** Tracks tank levels even without physical gauges. Fuel is monitored via SmartFill transactions, manual deliveries, and periodic manual dips
- **Real-time graphical displays:** Interactive dashboards allow you to visually explore fuel levels and usage trends
- **Automated scheduling & exports:** Send reports on a daily, weekly, or monthly basis via email.
- **Export in PDF and CSV:** formats for easy integration with your existing systems and softwares.
- **Customizable dashboards:** View current or historical data summaries, drill into detail as needed
- **Reconciliation made simple:** Match calculated levels against physical measurements and receive automated reconciliation reports
- **Comprehensive consumption tracking:** Analyze fuel consumption per vehicle or driver, including odometer/ hourmeter data. Filterable by trip or date range

"I recommend this product to reduce labour costs and offer your customers easy 24/7 access to fuel. The team at Fluid Management Technology made the process so easy, from installation and training to ongoing support. The online access via the website gives live accurate readings and makes the overall management of the fuel simple."

Ross Pawley
Managing Director
Yelwap Pty Ltd

Size and Weight	Height: 27.56 in Height with hood: 28.8 in Pedestal height: 39.37 in	Width: 15.75 in Width with hood: 15.9 in Depth: 9.05 in	Weight: 50.15 lb
Enclosure Construction	316 Grade Stainless Steel, automotive grade glass reinforced nylon		
Display	Marine Grade-7.0” WVGA TFT-LCD display, 800x480 resolution		
Keypad	Vandal resistant 16 key, stainless steel buttons		
Operating temperature	-4°F to 158°F		
Power Requirements: AC	85~264VAC-1.6A@100Vac		
Pumps Supported	Electronic (1-8 pumps): Gilbarco, Wayne Dart, Wayne CL, Bennet, Tatsuno, Tokheim		
Readers	Inbuilt NFC reader, magnetic stripe		
Ethernet	10/100 Mbps		
4G LTE	LTE FDD RF band: 1, 2, 3, 4, 5, 7, 8, 9, 12, 13, 14, 18, 19, 20, 25, 26, 28 HSPA+ band: 1, 2, 4, 5, 6, 8, 19		
Mounting Options	Included: Wall, base and flush mount fixings included; Optional: Pedestal		
Installation Requirement	To be installed in an unclassified location as defined by NEC Article 500, where no hazardous (classified) atmosphere is expected to be present under normal operating conditions		
Printer	Industrial thermal printer, 2.28 inches to 2.36 inches wide x 4 inch roll diameter.		
EMV Payment Hardware	Ingenico Self/5000 Payment Terminal, PCI PTS 5.x Compliant		
Card Acceptance	Visa, MasterCard, Account cards (white cards), Apple Pay, Google Pay, SmartFill NFC cards and Fobs, AMEX		
Tank Gauging (optional)	SmartDip or TLS Interface		
Certifications	AT&T verizon FC (Weights & Measures № 25-068) NMI S559		

Additional Options

SmartDip Automatic Tank Gauging system

Plugin module for OPT

Pedestal For flexible installation options

36.37 inches (H) x 5.91 inches (D)
