Description

FMT's iButton Reader Wand is a robust, durable solution for identifying vehicles and equipment in harsh environments. Designed for use with the SmartFill range of fuel management system, the iButton Reader Wand provides a secure method of vehicle authorisation using Button tags mounted to each asset to prevent accidental data input errors or fraud.

With enough cable length to reach up to 11.4 metres from the SmartFill unit, the iButton Reader Wand is perfect for mining vehicles or heavy plant, allowing you the flexibility to mount the tag exactly where you want it.

Keep track of every drop with FMT's SmartFill range and iButton Reader Wand.
