Analysis

Our Expert Insulation Installation Maximizes Efficiency & Cost Savings

*Depend on PCI for the
People, the Experience,
the Systems, and the
Safety Record to Perform*

EXPERIENCED PROJECT MANAGEMENT KEEPS YOUR PROJECTS ON TRACK

With PCI on the job, you'll benefit by working with experts in the industry who consistently provide help throughout the project. Being schedule sensitive and using proprietary labor and material control systems allow us to achieve high levels of efficiency. Our mission is to create maximum value for our customers.

PRIDE IN OUR WORK = UNSURPASSED PERFORMANCE

Our experienced foremen and project managers ensure that proper techniques, quality materials and attention to detail are hallmarks of our performance. The result is superior craftsmanship and performance that PCI customers have come to rely on.

BENEFIT FROM OUR LOCAL EXPERTISE & NATIONWIDE RESOURCES

PCI projects are managed in local markets and staffed with experienced management and jobsite personnel knowledgeable in their local codes and labor requirements. Plus, as a nationwide company with large resources, we can handle projects of any size – no matter how large.

THE MOST EXPERIENCED MANAGEMENT

THE MOST CAPACITY FOR LARGE JOBS

THE MOST COMMITTED TO SUCCESS

PCI MARINE INSULATION

NEW CONSTRUCTION SERVICES

Our Specialty Services have a distinct purpose – to meet the unique needs of our customers through a nationwide network of offices strategically located throughout the U.S.

Our estimators and project managers are SPECIALISTS in their areas. This allows PCI to perform the BEST, most THOROUGH services for your money.

With strong financial credentials and access to the best insurance and bonding packages available, PCI is continually ranked among the Top 10 Specialty Contractors in Engineering News Record Magazine's (ENR) Annual Survey of the Top 600 U.S. Specialty Contractors.

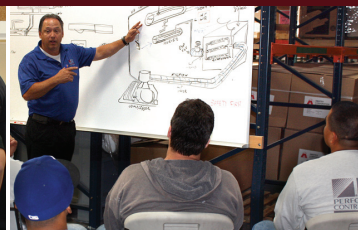

PCI is long-standing member of SNAME & ASHRAE.

DESIGN SERVICES

PCI has vast experience in the design of all shipboard insulation requirements, to include:

- Structural boundaries
- Piping systems
- Ventilation duct and other mechanical systems

TRAINED INSULATORS

We use significant resources to continually train our personnel to work correctly, safely and efficiently so that our customers receive the quality they expect.

WAREHOUSE SERVICES

PCI has significant storage capability (34,000 sf) and a unique management system to facilitate movement of your inventory requirements — from tracking incoming shipments, to projecting material consumption and planning for discrete usage.

HVAC/PIPING SYSTEMS

PCI designs and installs many types of insulation to meet the design criteria required by the HVAC system. Our insulation design and installation will meet habitability requirements, prevent condensation, and reduce noise per the customer's requirements.

AUXILIARY PROPULSIONS

PCI designs and installs insulation systems for auxiliary piping systems and propulsion equipment for system integrity, personnel protection, and fire rated boundaries.

FABRICATION FACILITY

PCI designs and installs removable insulation products designed to stringent IMO, US Navy and US Coast Guard requirements. Products include:

- Specialty removable blankets
- Removable spray shields
- Hi-temperature removable pads

STRUCTURAL INSULATION for new construction

THERMAL INSULATION

PCI designs and installs faced glass fiber hullboard as a thermal insulation and finishing surface in / on:

- overheads & bulkheads
- beams
- air conditioned areas

SOUND INSULATION

PCI designs and installs perforated faced hull board, absorption septa, and acoustical linings in control spaces or accommodation areas that are noise sensitive to meet rigorous habitability specifications.

STRUCTURAL FIRE PROTECTION

PCI designs and installs a complete range of shipboard passive fire protection systems. High temperature, time-rated fire boundaries are created by PCI's application of IMO, US Navy and US Coast Guard-approved insulation board.
