

PCI SHRINK-WRAP CONTAINMENT

ONE OF THE
TOP
SPECIALTY
CONTRACTORS
in the U.S.A.
- ENR Magazine

PCI PROVIDES VALUE:

PCI is recognized in the industry for excellence in service, quality, understanding clients' needs, and promoting partnerships.

Whether we maximize value through cost savings or project management, we add margin to your bottom line.

BENEFITS OF SHRINK-WRAP CONTAINMENT:

- » Schedule Reduction
- » Minimized Safety Risks
- » Project Cost Reduction

PCI MEANS SAFETY & SECURITY:

- » One Of The Lowest EMR Ratings In The USA
- » Bonded & "A" Rated Insurance Provides True Occurrence-Based Coverage
- » Award-Winning Safety Programs
- » Strong Financial Credentials
- » Nationwide Presence

COMPLETE SHRINK-WRAP SOLUTIONS

PCI SHRINK-WRAP SERVICES

PCI Shrink-Wrap Services Reduce Overall Project Costs

*Containing Your Construction Environment Has
Far-Reaching Benefits*

At PCI, when we use the term “shrink-wrap services” we mean total encapsulation of a structure undergoing renovation. We do this by wrapping the structure with a heavy-duty plastic film, then heat-shrinking the film to form a tight skin over the structure. This film forms a strong barrier between the interior of the structure and its outside environment.

PCI engineered a shrink-wrapping system as an alternative to the traditional poly containments for asbestos and lead abatement projects. PCI shrink-wrapped enclosures last longer and are more durable than polyethylene enclosures.

WHO NEEDS SHRINK-WRAP?

Our shrink-wrap services provide cost-saving alternatives to owners, general contractors, and other specialty contractors. We shrink-wrap structures for anyone who wants to experience the benefits of containing their construction environment.

PRODUCT FEATURES

DURABLE: By utilizing various materials and application methods, PCI can design containments to last different durations, depending on customer and application needs.

ENVIRONMENTALLY FRIENDLY: Shrink-wrap is recyclable.

AESTHETICALLY PLEASING: Shrink-wrapping gives the structure a clean, compact, professional and organized look.

REDUCES NOISE: Reduces noise to the public caused by construction.

MANY PRODUCT OPTIONS: Various thickness, roll size and colors available; depending on project duration and needs.

PCI is the
recipient of the
CEA Safety Award.

- PCI shrink-wrap structures of any type or size, anywhere you need. Our experience includes shrink-wrapping services for power and refinery plants, commercial buildings, universities, apartment complexes and houses, and storage areas.

Coast To Coast, PCI Has Got You Covered

Benefits of The Shrink-Wrap System

SCHEDULE REDUCTION

- Weather delays extend construction schedules. A shrink-wrapped structure allows crafts to continue working within enclosures that keep out rain, high winds and other bad weather elements. Sunshine filters through to enhance visibility.
- Manpower from multiple trades can perform work simultaneously.
- If exterior work is being performed, shrink-wrap protects the structure from outside damage.
- PCI can contain and acclimatize a structure to increase the cure time of various materials, such as concrete, drywall mud, spray-on fireproofing, caulking, sheetrock, joint compound and various paint applications.
- Increased productivity in cold climates.
- Reduces overall schedule and project costs by allowing work to be performed despite weather conditions.
- Minimizes the exposure of construction materials to water/ice in bad weather.

MINIMIZED SAFETY RISKS

- Full containment during abatement projects means reduced exposure to hazardous materials and a healthier and safer working environment.
- Loose decking, objects or materials that may fall during repairs can be contained, reducing risks for loss and liability concerns.
- Risks associated with working on swing stages in the wind and rain are minimized.
- Shrink-wrapping enhances the integrity and stability of the scaffold.
- Shrink-wrap material is fire-retardant, minimizing fire hazards.

REDUCED PROJECT VISIBILITY

- Shrink-wrapped structures minimize work exposure to the adjacent building occupants, general public, regulatory agencies, etc.
- Crafts are less hampered by outside distractions, resulting in higher productivity.

PCI: AN EXPERT IN TOTAL ENCAPSULATION

PCI OFFERS COMPLETE SERVICES

Did you know that PCI performs many Specialty Contracting Services in conjunction with our Shrink-Wrap Services?

By Combining Services, You:

- *Save Time*
- *Save Money*
- *Reduce Hassles*

In ADDITION, You Get:

- *Performance*
- *Quality*
- *Safe Work*
- *Value*
- *Dependability*

How Can PCI Help YOU?

ADDITIONAL SERVICES OFFERED IN CONJUNCTION WITH SHRINK-WRAP CONTAINMENT:

- » *Insulation Services*
- » *Asbestos Abatement**
- » *Mold Remediation**
- » *Lead Abatement**
- » *Hazmat Emergency Services**
- » *Demolition (Light & Heavy)*
- » *Firestopping*
- » *Cleanroom Construction*
- » *Passive Fire Protection*
- » *Industrial Cleaning*
- » *Metal Fabrication*
- » *Cold Storage Construction*

*Performed through our affiliate, Performance Abatement Services

AT THE HEART OF PERFORMANCE CONTRACTING

SAFETY

PCI consistently has one of the lowest EMRs in the country, due in large part to our innovative Safety Program. Every employee receives targeted safety training throughout the year, in the field and in the classroom.

TRAINING

PCI requires comprehensive training for all our foremen, superintendents, managers, estimators, engineers, and administrative personnel. With our advanced job skills programs, we develop the most capable professionals who perform the best service for our customers.

ETHICS

Integrity and reputation are fundamental to our success. That's why we developed the "Principles of Business Conduct." This provides guidance for employees to maintain the highest standards of ethical and legal practices in the industry.

STRENGTH

PCI continually ranks as one of the Top Specialty Contractors in the nation by *Engineering News-Record (ENR)* magazine. Our strong financial credentials allow us to provide excellent bonding and insurance for our customers' protection.
