Ambulatory Surgery Center

About the Ambulatory Surgery Center
UT Health Austin’s Ambulatory Surgery Center (ASC) gives patients (10 years and older) and their physicians a convenient and safe alternative for outpatient procedures. Fully equipped with the latest technology and IT integration, the ASC is staffed to provide same-day surgical care. Inside the ASC, you will find four operating suites with state-of-the-art preoperative and post-anesthesia areas as well as 13 private, 110-square-foot recovery rooms that enable patients to recuperate post-surgery in the comfort of their own space. Advanced imaging and diagnostic technologies are also available in the adjacent Health Discovery Building if needed.
