

The Bayside Area Library Gallery is one of five gallery spaces available through the Virginia Beach Public Library system. The gallery features two display walls that face each other, creating an inviting seating area in between. Each wall measures approximately 18 feet in length and includes a mounted plastic holder for the artist’s statement and a business card holder beneath it, offering a professional and cohesive presentation.

Display area in Bayside Library:

The two display walls face each other. There is a common seating area in the middle.

There is a fixed plastic holder on each wall that can hold an artist statement. And a business card holder beneath it.
