## Consultants, Builders and Developers

### Notice #2025-10-27

October 27, 2025

Topic: Virginia MUTCD and Work Area Protection Manual, Version 11.0  
Adoption

Effective: Immediately

The Virginia Department of Transportation (VDOT) has completed the development of the Virginia Manual on Uniform Traffic Control Devices (Virginia MUTCD) and associated Virginia Work Area Protection Manual (VWAPM) version 11.0. VDOT anticipates these documents to be formally adopted by January 2026 and in effect on or prior to January 18, 2026.

In preparation for the adoption, VDOT developed implementation target dates for the 2026 Virginia MUTCD and VWAPM which the City of Virginia Beach will be generally following for land development plans. Effective immediately, development plans submitted to the city must begin referencing and complying with the 2026 Virginia MUTCD and VWAPM. All plans submitted after January 1, 2026, regardless of design progress, shall comply with these manuals in order to receive plan approval. If there is a conflict between these manuals and the Public Works Design Standards Manual, the more stringent case shall apply unless otherwise stated by the appropriate city representative.
