Assignable to loops (4 patches per loop)

Assignable to songs and sets (9 patches per song or set)

MIDI interface and channel are per patches

Up to 1 program change per patch

Up to 8 messages per patch

Up to 3 note On messages per patch

HEXF8 TIMELOOPER 2F

Specifications (preliminary, subject to change)

HARDWARE

Footswitches

2

User Interface

128 × 64 pixels monochrome OLED display
6 buttons for menu navigation and settings
2 footswitches for live performance

MIDI Ports

5-pin DIN MIDI OUT (cable not included)
5-pin DIN MIDI IN (cable not included)
USB MIDI OUT (except for clock)
USB IN (except for clock)

Power and Computer Data Link

USB-C (cable and charger not included)

Storage

Internal Micro SD (card included)

Enclosure

Aluminum

HEXF8 TIMELOOPER 2F

Specifications (preliminary, subject to change)

APPLICATION (optional)

Platform

Mac and Windows

Backups

Via USB-C

Upload and download all the data to and from the device

Open data format

Firmware Updates

Via USB-C

Update the device to the latest available firmware version

¹ Internal clock up to 255 BPM. External clock up to 300 BPM.

² Requires the use of a Strymon Timeline pedal, not included with the TIMELOOPER.
