

Greetings Valued Guest!

As you may be aware, the State of Illinois is scheduled to move into Phase 5 of its reopening plans this Friday, June 11, 2021. We are writing to let you know how these changes will impact your stay at our resort.

In accordance with these guidelines, we will no longer require that guests who are vaccinated wear masks in any indoor or outdoor public settings. However, we do encourage any guests who are not yet vaccinated to continue to wear face coverings. Additionally, all of our capacity limits will increase to 100%.

We encourage all of our guests to, please, continue following CDC guidelines such as frequent washing of hands and using hand sanitizer. We also ask that everyone please be respectful of those guests who choose to continue to utilize face coverings.

We are committed to keeping you updated as guidelines evolve. For more information on the most recent executive orders, we invite you to visit the [State of Illinois](#) website.

We would like to thank each of you for the support and cooperation that you have shown over the last 15 months. It is very much appreciated.

Warm Wishes,
Dale Henricksen
RV Resort Manager
Lake Louise RV Resort
