Greetings Valued Guests!

As you are aware, the CDC and State of New Jersey recently updated their guidelines and executive orders for protection against Covid19. We are writing to let you know how these changes will impact your stay at our resort.

Effective immediately, we will no longer require that our guests wear masks in outdoor or public areas.

However, in compliance with the most recent executive order from Governor Murphy, we will continue to require that all of our guests and employees wear face coverings in all indoor spaces regardless of vaccination status. This includes our office/store/snack bar, bath houses, laundry room, game room and pavilion.

We encourage all of our guests to, please, continue to follow CDC guidelines such as frequent washing of hands and using hand sanitizer. We also ask that everyone please be respectful of those guests who choose to continue to utilize face coverings when outdoors.

We are committed to keeping you updated as guidelines evolve. For more information on the most recent executive orders, we invite you to visit [State of New Jersey](#)

We are looking forward to a great 2021 Season and thank you in advance for your cooperation and continued support.

Warm Wishes,
Johny Denman
RV Resort Manager
Pleasant Acres Farm RV Resort
